

Technical Rule no. 20 rev. 2 MPE

(pursuant to Article 4 of the Integrated Text of the Electricity Market Regulations, approved by decree of the Minister of Productive Activities of 19 December 2003 and subsequent amendments)

Title	Technical limits of the offer on the MGP, MI and MSD
--------------	---

Regulatory requirements	Article 26, para 26.2, of the Integrated Text of the Electricity Market Rules
-------------------------	---

In force from 12 January 2023

1. Foreword

Article 26, paragraph 26.2, of the Integrated Text of the Electricity Market Rules provides that on the MGP, MI and MSD, the unit prices specified in the sale and purchase offers must be included within the technical limits indicated in the Technical Rules in compliance with the provisions of European legislation.

2. Technical limits of the bid on the MGP

In compliance with the “ACER Decision no. 01-2023 on the NOMINATED ELECTRICITY MARKET OPERATORS PROPOSAL FOR THE HARMONISED MAXIMUM AND MINIMUM CLEARING PRICE METHODOLOGY FOR THE SINGLE DAY-AHEAD COUPLING ”, on the MGP the minimum and maximum technical limits of the offer are respectively equal to:

- - 500 €/MWh
- +4,000 €/MWh

3. Technical limits of the bid on the MI

In compliance with the “ACER Decision no. 02-2023 on the NOMINATED ELECTRICITY MARKET OPERATORS PROPOSAL FOR THE HARMONISED MAXIMUM AND MINIMUM CLEARING PRICE METHODOLOGY FOR THE SINGLE INTRADAY COUPLING”, on the MI (both MI-A and MI-XBID) the minimum and maximum technical limits of the offer are respectively equal to:

- - 9,999 €/MWh
- +9,999 €/MWh

4. Technical limits of the bid on the MSD

The offer limits provided for in the Dispatching Rules apply to the MSD.
