

Technical Rule no. 03 PPA Bulletin Board

(pursuant to article 4 of the Regulation of Bulletin Board of long-term energy contracts from renewable sources)

Title	Unit of measurement
Regulatory requirements	Article 5, paragraph 5.1, of the Regulation of Bulletin Board of long-term energy contracts from renewable sources

Published on 30 March 2022

1. Introduction

Article 5, paragraph 5.1, of the Regulation of Bulletin Board of long-term energy contracts from renewable sources provides that, for the purposes of the PPA Bulletin Board, GME shall adopt the units of measurement indicated in the Technical Rules.

2. Unit of measurement

For the purposes of the PPA Bulletin Board:

- a) the unit of measurement of quantity¹ of electricity subject to a notice or to a contract subject to registration is the MWh, with specification of two decimal places;
- b) the unit of measurement of unit prices² of a notice or of a contract is the Euro/MWh, with specification of two decimal places;
- c) the unit of measurement of the capacity of a power plant associated with the notice or the contract is the MW, with specification of two decimal places;
- d) the monetary unit of measurement is the Euro, with specification of two decimals.

¹ Quantities specified in notices or in contract registrations can only take positive values.

² Prices specified in notices or in contract registrations can only take positive values.
