2. Settlement of payments and invoicing of the purchase and sale transactions concluded in the MPGAS and MTGAS

2.1. Settlement period of payables/receivables on the MPGAS and MTGAS-

The *settlement* period of the payables/receivables relating to all purchase and sale transactions concluded on the MPGAS, included purchases attributed by GME according to Article 81, par. 81.1 subpara b) of the MGAS Rules, and on the MTGAS, is the week (W+1):

1. For MGP-GAS, MI-GAS and MT-GAS, after the week (W) - which runs from Monday (T-6) to Sunday (T) - in which the gas already traded has been delivered;
2. For MGS and MPL, after the week (W) – which runs from Sunday (T-7) to Saturday (T-1) - in which the gas already traded has been delivered;

All the activities related to the financial cycle will be postponed compared to the standard settlement time limits described in paragraphs 2.2 and 2.3 below, as follows:

1. If in the settlement week (W+1) there are holydays, as provided in the Technical Rules 02 MGAS, other than Saturdays and Sundays, all activities relating to the settlement cycle will be postponed to the next working day compared to the ordinary schedule;
2. if in the settlement week (W+1) when it is expected the settlement a Tuesday, a Wednesday, a Thursday or a Friday coincides with the last day of the month, the settlement cycle will be postponed by one week compared to the ordinary schedule;
3. if in the settlement week (W+1) falls the fifteenth working day of the month, the settlement cycle will be postponed to that day, except in the case where the fifteenth working day is a Monday. In the latter circumstance, the settlement of the balance of the debtor Participants will take place on the next working day.

In addition, any possible time shift to the standard settlement timeframes described in paragraphs 2.2 and 2.3 is represented in the settlement calendar published on GME's website (www.mercatoelettrico.org)

2.2 Time limits for notifications referred to the net position regarding payables/receivables on MPGAS and MTGAS

In accordance with Articles 73, para. 73.2, subpara. a) and subpara. b) and 73.3 of the MGAS Rules, in the week W+1 on the first working day by 11:30 am, GME will define and notify to each Market Participant:

2. its debit or credit net position, resulting from offsetting of the amounts, including VAT where chargeable, related to the purchase and sale transactions concluded on the MTGAS and delivered in the week W.

2.3 Modalities and time limits of settlement of payments of payable/receivables on MPGAS and MTGAS

2.3.1 Modalities and time limits of settlement of payments on MPGAS and MTGAS by PA Market Participants that are net debtors

After the individuation of net positions described in para. 2.2 above and the invoicing process described in the following para. 2.4.4, GME will settle PA Market Participants'¹ net debt positions by using the non-interest bearing cash deposit, as allocated, granted by the PA Market Participants as a guarantee, pursuant to Section 70 paragraph 70.3, 70.5 and 70.6 of the MGAS Rules, accordingly to Technical Rule 19 MGAS.

¹ PA Market Participants are those referred in Article 2, para 2.1 oo) of the MGAS Rules

2.3.2 Notification of bank details

Each Market Participant, pursuant to Article 18, paragraph 18.1, of the MGAS Rules, must request the GME to include the bank details referred to in Article 17, paragraph 17.2, subparagraph g), of the MGAS Rules in the Register of Market Participants.

This request must be made by means of a notification, signed by the person with the necessary powers of representation, containing the indication of the bank details.

2.3.3 Payment instrument for payables on the MPGAS and MTGAS by non-PA net debtors participants.

For the purpose of submitting offers on the market, pursuant to Article 18, paragraph 18.5, of the MGAS Rules, after being admitted, GME sends to the Market Participant the withdrawal authorisation form for the SEPA Direct Debit Business to Business provisions (hereinafter: "SEPA Authorisation"), which must be filled out and signed in three originals by the Market Participant; the "copy for the creditor" of the SEPA Authorisation must be sent to GME.

GME, through the treasury institute, will perform an activation test² of the SDD B2B transmission channel with the bank identified in the Authorisation, by a charge of a symbolic amount³, and if the outcome is positive the channel will be activated. Since the working day following the activation of the SDD B2B channel, the Market Participant can enter offers in the MGAS.

The same submission and SDD B2B channel activation procedure also applies in case of SEPA Authorisation or its associated bank account information or data modification.

While the channel is being activated, participants may use the former active SDD B2B channel. According to Article 74, par. 74.2 of the MGAS Rules, if the payment of the amount due is not settled with GME's treasury institute according to Article 74, par. 74.1 subpara. a) of the MGAS Rules, provisions of par. 2.3.4 below shall apply.

If the Market Participant also participates in the ME and/or the PCE and already has an active SEPA Authorisation for these markets/platforms, the Market Participant may, in accordance with paragraph 2.3.2 above, confirm, also for MGAS, the bank details on which the aforementioned SEPA Authorisation is already active.

² The opening test will require a variable processing period based on possible bank adjustment needs of about fifteen working days from receipt of the declaration referred to in Art. 18.5, with possible postponements depending on the results of the tests. Subsequent charges will be settled on the interbank day (Target) - usually on Tuesday - following the sending of the SDD B2B provisions by GME to the Institute in charge of the gas market treasury service.

³ The amount charged for test purposes will be refunded by GME through SEPA Urgent or Priority Credit Transfer.

In this case, for the sole purpose of settlement of payments, GME shall determine, for each settlement period, the total amount due from the Market Participant with reference to the payables/receivables resulting from the transactions concluded by the Market Participant on each of the markets/platforms on which it has operated, except in the event that the net debit position on the PCE is lower than the total amount due from the Market Participant. In the latter case, the net debit position on the PCE shall be settled separately.

If the payment of the total amount due is not settled with GME's treasury institute by means of B2B SDD and the Market Participant partially regulated by means of Urgent SEPA Credit Transfer or equivalent, GME - unless otherwise explicitly notified in writing by the Market Participant, by 4.00 p.m. on the third working day after the debit date - will allocate the amount collected as a priority to cover the payables/receivables relating to the valuation of the CCTs on the PCE and for any excess by applying the following criteria:

- a) to MGP and MI or to netting markets, the share equal to the ratio identified in Technical Rules 08 ME;
- b) to MPEG, the share equal to the ratio identified in the Technical Rules 08 ME;
- c) to MTE, the share equal to the ratio identified in the Technical Rules 08 ME;
- d) to MTGAS, the share equal to the ratio between the amount resulting from the balance of the payables of MTGAS referred to in Article 73, paragraph 73.2 subpara b) of the MGAS Rules and the total amount of the debit positions, resulting from the balance of the payables of MPGAS and MTGAS.

2.3.4 Modalities and time limits for the settlement of payments on the MPGAS and MTGAS by non-PA net debtors participants.

After the individuations described in para. 2.2 above, Market Participants which are net debtors of GME, must provide the liquidity required to pay the amount due as per Article 74, para. 74.1, subpara. a) of the MGAS Rules, on the bank account identified in the authorisation defined in para. 2.3.3 above; the amount will be drawn through the SDD B2B tool on the second working day, in the week W+1 and will be considered consolidated in the banking system after three working days from the debit date⁴.

⁴ The timing of the consolidation in the banking system is provided in the Rulebook approved by the European Payments Council.

Market Participants, not providing the necessary liquidity within the time limits valid to ensure the charge through SDD B2B, may send the payment of the due amount, in accordance with Article 74, para. 74.2 of the MGAS Rules, from the bank account associated with the SEPA Authorisation according to Article 18, par. 18.5 of the MGAS Rules, which bank details were previously notified to GME according to the terms set out in par. 2.3.3 above.

If the Market Participant wishes to settle the payment from a bank account other than the one referred to above, it shall previously send GME, according to the modalities provided for in paragraph 2.3.3 above, a notification with the indication of the bank details from which it intend to make the payment.

The payment of the due amount will have to be made out to the financial Institute in charge of GME's treasury service, not later than 4pm of the third working day from the debit date, through Urgent SEPA Credit Transfer or equivalent tool, increased by:

- i. default interest calculated by the application of the legal interest rate to the amount owed to the creditor for the days of delayed payment and,
- ii. a penalty, equal to one percent of the amount due;

In case of partial payment by the debtor Market Participant of the total net position on MPGAS and MTGAS, GME will allocate the collected amount, unless otherwise explicitly notified in writing by the Market Participant within the time limits indicated above, by applying the following criteria:

(a) to MPGAS, the share equal to the ratio between the amount resulting from the debit balance of the MPGAS payables referred to in Article 73 para. 73.2, subpara.a) of the Natural Gas Market Rules and the total amount of the debit positions, resulting from the balance of the MPGAS and MTGAS payables;

(b) to MTGAS, the share equal to the ratio between the amount resulting from the debit balance of the MTGAS payables referred to in Article 73(2)(b) of the Natural Gas Market Rules and the total amount of the debit positions, resulting from the balance of the MPGAS and MTGAS payables.

As for the uncollected portion, GME shall apply the default procedure set out in paragraph 2.3.5 below.

In this regard, pursuant to Article 82 of the MGAS Rules, where guarantees are enforced, with reference to the purchase transactions granted by GME pursuant to Article 81, paragraph 81.1, subparagraph b), of the MGAS Rules, GME shall apply to the defaulting Market Participant the penalty, as well as the default interest, calculated on the basis of:

- legal interest rate, for days of late payment up to the fourteenth calendar day following the determination of the amount due to the creditor under the balancing system;
- default interest rate in accordance with the provisions of the Network Code in force at the time of issue of the relevant invoice, starting from the fifteenth calendar day following the determination of the amount due to the creditor under the balancing system.

In case of participation in netting markets, the balance of payables/receivables resulting from purchase and sale transactions concluded on the MPGAS markets is determined in accordance with the provisions of Title V, Chapter II, of the Integrated Text of the Electricity Market Rules, in accordance with the provisions of Technical Rules 08 ME.

The date and time of the crediting of the above payments to GME's bank account will be those recorded by the information system of the treasury institute.

2.3.5 Modalities and time limits for the settlement of payments on the MPGAS and MTGAS to Market Participants that are net creditors

GME will dispose payments in favor of Market Participant which are identified as net creditors as a result of the outcomes referred to in para. 2.2 above.

Without prejudice to the paragraph 2.3.4 above, on the fourth working day after the day of the charge with beneficiary value date on the same day, in accordance with Article 76, para. 76.2 of the MGAS Rules, GME shall pay its net creditors, (as provided in para. 6.2) for an amount equal to the ratio of the amount (as per Article 74, para. 74.1 of the MGAS Rules) paid by debtors MPGAS Market Participants to the overall credits (as per Article 73, para. 73.2, subpara. a) of the MGAS Rules), that GME has accrued towards MPGAS net debtor Market Participants. GME also pays its net creditors for a portion equal to the ratio between the amount, referred to in Article 74, paragraph 74.1 of the MGAS Rules paid by MTGAS Market Participants' debtor , and the total receivables, referred to in Article 73, paragraph 73.2, subparagraph b) of the MGAS Rules, claimed by GME from MTGAS Market Participants' net debtors .

If GME does not receive the payment described in Article 74, para. 74.2 of the MGAS Rules within the period defined in para. 2.3.4 above, in accordance with Article 78, para. 78.1, subpara. b) of the MGAS Rules, GME will enforce the guarantees set by the Market Market Participant in compliance with Article 70, paras. 70.1 and 70.3 of the MGAS Rules within the following working day and will pay pro quota the residual net debt on the basis of the amount collected upon enforcement, within 5 working days starting from the date of collection. Following the collection of

the guarantees set forth in Article 70, paras. 70.1 and 70.3 of the MGAS Rules, GME will pay to the net creditor Market Participants the amount pertaining to the legal or default interest and to the penalty paid to GME by the net debtor Market Participant pursuant to Article 82 of the MGAS Rules after receiving the related invoice.

The date and time of the above payments to GME's bank account will be those recorded by the information system of the treasury institute.

2.4 Time limits for invoicing on MGAS

2.4.1 Invoicing period

The invoicing period of all the purchase and sale transactions concluded in the MGAS, as well as related to all purchase transactions attributed by GME according to Article 81, par. 81.1 subpara b) of the MGAS Rules, is the calendar month in which such transactions are financially settled, pursuant to paragraph 0 above, notwithstanding the following para. 2.4.4 for PA Participants.

2.4.2 Time limits for notifications of payables/receivables

In consideration of Article 21, para. 4, subpara. a) of the Presidential Decree no. 633 of 26 October 1972, for each invoicing period, within the last working day included in the invoicing month, GME provides on the SetService Platform:

2.4.3 Modalities and time limits of invoicing of GME in case of enforcement

Regardless of the *settlement* and invoicing period, if GME proceeds enforcing the collateral guarantee under Article 78, para. 78.1, subpara. b) of the MGAS Rules, it will issue an advance invoice for the case outlined in Article 77, para. 77.1, subpara. b) of the MGAS Rules, equal to the amount paid including VAT, if chargeable. The invoice for payment is issued on the same day of the accreditation, on the bank account at the treasury institute, and for the same amount of the sum collected from the financial institute issuing the guarantee and/or from the Market Participant.

In regards of the PA Market Participant the advance invoice for payment will be sent through the Sistema di Interscambio (SDI) or through alternative channels to SDI if there are the conditions provided for by the abovementioned law and related implementations, together with the activation of the procedure for the payments of guarantees.

2.4.4 Invoicing of GME to PA Market Participants

For each *settlement* period, on the same day on which the outcomes described in paragraph 2.2 are notified, GME will send to each PA Market Participant, through the SDI:

- b. one or more invoices with the sum of the items on all purchases attributed by GME to the Market Participant in the management of the default procedure provided in Article 78, para. 78.1, subpara. c) and in managing positions closure according to Article 81, para. 81.1, subparas. a) and b) of the MGAS Rules for each relevant week W;

If the sending of the invoice from SDI to the PA Market Participant is not successful, in compliance with the time limits identified in the Law no. 244 dated 24 December 2007 and related implementation provisions on electronic invoicing, GME will forward it, through alternative channels

to SDI, the certificate of transmission of the invoice with the delivery impossibility containing the invoice.

2.4.5 Invoicing of GME to non-PA Market Participants

In consideration of Article 21, para. 4, subpara. a) of the Presidential Decree no. 633 of 26 October 1972, for each invoicing period of all the purchase and sale transactions concluded in the MGAS and settled during the same calendar month pursuant to paragraph 2.3 above, within the last working day including in the invoicing period, GME issues:

- a. one or more invoices with the sum of the items on all purchases concluded by Market Participants in the MPGAS and MTGAS for each week financially settled during the same calendar month;

3 Default management

3.1 Settlement of the payments to net creditor Market Participants in cases of default referred to Article 77, para. 77.1, subparas. a) and b) of the MGAS Rules

Where the amount collected upon enforcement of the guarantees is not sufficient to cover the net debt of the defaulting Market Participant, under Article 78, para. 78.2, subpara. a) of the Rules, GME will pay its net creditors by the accumulated resources of the Guarantee Fund established within the CSEA.

Where the amounts to be paid to net creditors exceed the resources available in such fund, GME will pay the net creditor by using its own funds up to the maximum amount (hereafter “yearly maximum amount”) quantified under Article 78, para. 78.2 subpara b) of the MGAS Rules.

When paying its net creditors within the limits of the resources available in the fund and the yearly maximum amount indicated above, GME will also pay the default interest (calculated by applying the legal interest rate to the amount due to the creditor for the days of late payment) and the penalty, after receiving the relevant invoice.

If the amounts to be paid to net creditors exceed the resources available in the Guarantee Fund and the yearly maximum amount, GME will settle the payments by resorting to the risk pooling mechanism referred to in the ARERA 4/2013/I/GAS Resolution of 10 January 2013, after collecting the amounts resulting from the application of the mechanism.

Any amounts recovered by the judicial proceedings instituted by GME under Article 77, para. 77.4 of the MGAS Rules will restore the amounts used under the risk pooling mechanism, for the portion corresponding to the payments made to net creditors Market Participants.

With reference to remaining portion, if available, any recovered amount will be restored in the following order:

- a) by using GME’s yearly maximum amount; in case the recovery takes place by 31 December of the calendar year in which the request for guarantee enforcement has been made, these sums will allow a re-adjustment of the same amount of the annual ceiling.
