

INTEGRATED TEXT OF THE ELECTRICITY MARKET RULES

approved with the Ministerial Decree of December 19,
2003, as subsequently amended and supplemented

() Please note that this translation is provided for convenience only. In case of discrepancies, the Italian text shall govern.*

CONTENTS

<i>INTEGRATED TEXT OF THE ELECTRICITY MARKET RULES</i>	<i>1</i>
<i>TITLE I GENERAL PROVISIONS</i>	<i>7</i>
Article 1 Text and Annexes	7
Article 2 Definitions	7
Article 3 General Principles and Amendments to the Rules	15
Article 4 Technical Rules	15
Article 5 Units of Measurement and Rounding off	16
Article 6 Access to GME's Information System	16
Article 7 Fees for Services Provided by GME	16
Article 8 Market Information	16
Article 9 Communication and Publication of Data and Information	17
Article 10 Security of Access	17
<i>TITLE II ADMISSION TO THE MARKET</i>	<i>19</i>
Article 11 Requirements for Admission to the Market	19
Article 12 Market Participation Application and Market Participation Agreement	19
Article 13 Documents to Be Enclosed to the Market Participation Application	20
Article 14 Admission Procedure	20
Article 15 Admission of Terna, of Gestore dei Servizi Energetici-GSE SpA and of Acquirente Unico to the Market	21
Article 16 Register of Market Participants	21
Article 17 Data and Information for Participation in the Market	22
Article 18 Verifications	23
Article 19 Notification Obligations	24
Article 20 Exclusion from the Market on Request	24
<i>TITLE III OPERATION OF THE ELECTRICITY MARKET (ME)</i>	<i>25</i>
Article 21 Electricity Market Structure and Applicable Period	25
Article 22 Definitivity of Transactions	25
<i>SECTION I OPERATION OF THE DAY-AHEAD MARKET (MGP), THE INTRA-DAY MARKET (MI), OF THE NOMINATION PLATFORM (PN) AND THE ANCILLARY SERVICES MARKET (MSD)</i>	<i>26</i>
Article 23 Geographical Zones and Virtual Zones	26
Article 24 Data and Information on Offer Points	26
Article 25 Solar Time and Daylight-Saving Time	26
Article 26 Demand bids, Supply Offers and Offer Technical Limits	26
Article 27 Bid/Offer Submission	28
Article 28 Minimum Contents of Bids/Offers	29
Article 29 Validation of Bids/Offers	29
Article 30 Technical Adequacy of Bids/Offers	30
Article 31 Unavailability of Power Grid Assets	30
Article 32 Suspension of the MGP, MI, PN and MSD	31
Article 33 Emergency Conditions procedures in the MGP, MI, PN and MSD	31
Article 34 Assignment of Coefficients of Priority to Predefined Bids/Offers [repealed]	32 32
<i>SUBSECTION I DAY-AHEAD MARKET (MGP)</i>	<i>32</i>
Article 35 Purpose of the MGP	32
Article 36 Periods for Submission of Bids/Offers	32
Article 37 Preliminary Market Information	32
Article 38 Demand Bids and Supply Offers	33
Article 39 Priority Order of Bids/Offers	33
Article 40 Step-Up and Step-Down Margins for the MGP	34
Article 41 Technical Adequacy Requirements of Bids/Offers Submitted into the MGP	34
Article 42 Results of the MGP and Preliminary Hourly Injection or Withdrawal Schedules	35
Article 43 Schedules Submitted through the OTC Registration Platform (PCE)	37

Article 44	Valuing of Grid and Market Constraints in the MGP	38
<i>SUBSECTION II INTRA-DAY MARKET (MI)</i>		38
Article 45	Purpose of the MI	38
Article 46	Periods for Submission of Bids/Offers	39
Article 47	Preliminary Market Information	39
Article 48	Demand Bids and Supply Offers	39
Article 49	Priority Order of Bids/Offers	41
Article 50	Step-Up and Step-Down Margins for the MI	41
Article 51	Technical Adequacy Requirements of Bids/Offers in the MI	41
Article 52	Results of the MI-A, execution of the MI-XBID and Updated Hourly Injection or Withdrawal Schedules	43
Article 53	Notification of the Results, of the Updated Hourly Injection or Withdrawal Schedules and of the commercial positions in the portfolio following the MI	45
Article 54	Valuing of Grid and Market Constraints in the MI-A auctions	46
Article 55	Valuing of Non-Arbitrage Fees in the MI	47
<i>SECTION II-BIS NOMINATION PLATFORM</i>		47
Article 55	bis Subject of the PN	47
Article 55	ter Nomination phase scheduling	47
Article 55	quarter Step-up and step-down margins for the purpose of recording hourly PN nominations	47
Article 55	quinquies Request for registration of the hourly PN nominations	48
Article 55	sexies Verification of validity of requests for registration of the hourly PN nominations	48
Article 55	septies Verification of the adequacy of the registrations of hourly PN nominations	49
Article 55	octies Determination and communication of the hourly PN nominations for injection or withdrawal	49
Article 55	nonies MI-XBID program imbalance	50
Article 55	decies Valuation of the balance of imbalances in the MI-XBID program	51
<i>SECTION II-TER CUMULATED INTERMEDIATE AND FINAL HOURLY SCHEDULES</i>		51
Article 55	undecies Cumulated intermediate hourly schedules for injection and withdrawal	51
Article 55	duodecies Cumulative final hourly schedules of injection and withdrawal	51
<i>SUBSECTION III ANCILLARY SERVICES MARKET (MSD)</i>		51
Article 56	Purpose of the MSD	52
Article 57	Periods for Submission of Bids/Offers	52
Article 58	Demand Bids and Supply Offers	52
Article 59	Results of the MSD	52
Article 60	Publication of Data and Notifications to Market Participants	53
<i>SECTION I-BIS OPERATION OF THE DAILY PRODUCTS MARKET (MPEG)</i>		53
Article 60	bis Subject of the MPEG	53
Article 60	ter MPEG's products	54
Article 60	quarter Market sessions	54
Article 60	quinquies Procedures for the conclusion of negotiations	55
Article 60	sexies Trading offers	55
Article 60	septies Booking of margins of electricity accounts of the PCE	55
Article 60	octies Validation and Adequacy Verifications of the bids/offers on the MPEG	56
Article 60	nonies Continuous trading	56
Article 60	decies Recording of net positions on the PCE	57
Article 60	undecies Information and results	57
<i>SECTION II OPERATION OF THE FORWARD ELECTRICITY MARKET (MTE)</i>		57
Article 61	Purpose of the MTE	57
Article 62	Types of Tradable contracts	58
Article 63	Market Sessions	58
Article 64	Conclusion of contracts	58
Article 65	Bids/Offers	59
Article 66	Validation and Adequacy Verifications in the Trading Period	59
Article 67	Continuous Trading	60
Article 68	Cascading	61
Article 69	Registration of the Net Delivery Position onto the PCE	61
Article 70	Information and results	62

Article 129 Submission Formalities and Minimum Complaint Contents [repealed]	88
Article 130 Complaint Resolution [repealed]	88
<i>SECTION III DISPUTES IN THE MARKET</i>	89
Article 131 Court of Arbitration	89
Article 132 Settlement of Disputes	89
<i>TITLE VIII FORWARD CONTRACTS AND DERIVATIVES</i>	90
Article 133 Forward Contracts and Derivatives	90
<i>TITLE IX TRANSITORY AND FINAL PROVISIONS</i>	90

<i>SECTION I TRANSITORY PROVISIONS</i>	90
Article 134 Transitory Provisions Pertaining to Submission of Bids/Offers into the MGP [repealed]	90
Article 135 Provisions Pertaining to Guarantees	90

<i>SECTION II FINAL PROVISIONS</i>	95
Article 136 Transitory provisions on Settlement of Payments	
Article 137 Functioning of the Information System	95
Article 138 Awardees of Contracts for Provision of Services to the Electricity Market	95

ANNEXES

Annex 1	“Modello di domanda di ammissione al mercato” (Market Participation Application)
Annex 2	“Contratto di adesione al mercato” (Market Participation Agreement)
Annex 3	“Modello di Fideiussione integrata senza scadenza” (Integrated Bank Guarantee with no expiration)
Annex 4	“Modello di lettera di aggiornamento della fideiussione di cui all’Allegato 3” (Updating of Bank Guarantee referred to in Annex 3)
Annex 5	“Modello di Fideiussione integrata con scadenza” (Integrated Bank Guarantee with expiration)
Annex 6	“Modello di lettera di aggiornamento della fideiussione di cui all’Allegato 5” Updating of Bank Guarantee referred to in Annex 5

TITLE I GENERAL PROVISIONS

Article 1 Text and Annexes

- 1.1 These Electricity Market Rules (hereafter the “Rules”) and the documents attached hereto, which are an integral and essential part hereof, contain the rules governing the operation of: i) the Electricity Market, adopted in accordance with Article 5 of Legislative Decree no. 79 of 16 March 1999, Law no. 2 of 28 January 2009, Article 30 of Law no. 99 of 23 July 2009 and Annex A to the Decision of *Autorità per l’Energia Elettrica e il Gas* (AEEG) no. 111/06, as subsequently amended and supplemented.

Article 2 Definitions

- 2.1 For the purposes of these Rules:

- a) Acquirente Unico (AU - Single Buyer) shall mean the company referred to in Article 4 of Legislative Decree 79/99;
- b) ARERA (or also “Authority”) shall mean Autorità di Regolazione per l’Energia, Reti e Ambiente (Italian Regulatory Authority for Energy, Networks and Environment), which was set up in compliance with Law no. 481 of 14 November 1995;
- c) Balancing shall mean the activity consisting in maintaining the equilibrium between electricity injections into and withdrawals from the grid;
- d) Order Book shall mean the on-line summary where orders entered by Market Participants into the market information system are listed and ranked by price and time of entry;
- e) [repealed];
- f) [repealed]
- g) [repealed];
- h) Wholesale Customer shall mean a party buying and selling electricity, without carrying out activities of electricity generation, transmission and distribution;
- i) Identification Code of the Market and of the Market Sitting shall mean the alphanumerical code which uniquely identifies a market and a market sitting;
- j) Identification Code of the Offer Point shall mean the alphanumerical code which uniquely identifies an offer point;
- k) Identification Code of the Market Participant shall mean the alphanumerical code which uniquely identifies a Market Participant in view of participation in the market;
- k bis*) zonal portfolio identification code shall mean the alphanumeric sequence which uniquely identifies a zonal portfolio;
- l) Forward Contracts shall mean the contracts admitted to trading in the market and concerning the trading of future supplies of electricity;
- l bis) CSEA shall mean Cassa per i servizi energetici e ambientali (Fund for Energy and Environmental Services);
- m) Demand Curve shall mean a segment of a line on the quantity/unit price plane, which refers to an applicable period and which is obtained by cumulating technically adequate bids, ranked in order of non-increasing unit price;
- n) Supply Curve shall mean a segment of a line on the quantity/unit price plane, which refers to an applicable period and which is obtained by cumulating technically adequate supply offers, ranked in order of non-decreasing unit price;

- o) [repealed];
- o bis) [repealed];
- o ter) resolution 350/2019/R/EEL of ARERA shall mean the Authority's resolution of 30 July 2019 concerning Instructions to Terna and to GME for joining the European Intra-Day Market;
- p) Legislative Decree 79/99 shall mean Legislative Decree no. 79 of 16 March 1999 implementing Directive 96/92/EC concerning common rules for the internal market in electricity, published in Gazzetta Ufficiale no. 75 of 31 March 1999;
- p bis) Decoupling shall mean the non-performance of the market coupling on one or more inter-border;
- q) Dispatching Rules (Regole di Dispacciamento) shall mean the rules laid down by Authority for the transmission and dispatching service in compliance with Article 3, para. 3, of Legislative Decree 79/99, and the dispatching rules laid down by Terna pursuant to Article 3, para. 6, of the same Decree;
- q bis) MGAS Rules shall mean the natural gas market rules referred to in Article 30 of the Law no. 99 of 23 July 2009, and in implementation of the provisions referred to in article 32, paragraph 2, of the Legislative Decree no. 93 of 1 June 2011;
- r) Dispatching shall mean the activity consisting in giving instructions for the utilisation and co-ordinated operation of power plants, of the transmission grid and of ancillary services;
- s) Exclusion from the Market shall mean the definitive loss of the status of Market Participant;
- s bis) nomination phase shall mean the time interval during which the registration of the hourly PN nomination relating to a relevant period is performed on the PN;
- s ter) Guarantee Fund refers to the fund established at CSEA, referred to in Opinion 4/2013/I/ GAS of ARERA and in Resolutions 365/2013/R/gas and 502/2016/R/ GAS of ARERA as subsequently amended by the Authority with a specific provision;
- t) Working day shall mean one day from Monday to Friday, with the exception of those recognized as public holidays by the State for all civil purposes, as well as those indicated in the Technical Rules;
- u) GME shall mean Gestore dei Mercati Energetici, the company (società per azioni) responsible for the economic management of the Electricity Market under Article 5 of Legislative Decree 79/99;
- v) Gestore dei Servizi Energetici-GSE SpA shall mean the company (società per azioni) which was set up under Article 3, para. 4, of Legislative Decree 79/99 and Art. 1, paras. 1 a), b) and c) and 3 of the Decree of the President of the Council of Ministers of 11 May 2004, published in Gazzetta Ufficiale, Serie Generale no. 115 of 18 May 2004;
- w) [repealed]
- x) Unavailability of a power grid asset shall mean the condition where a given asset of the power grid cannot be used by the relevant operator for his/her/its own activities;
- y) Law 02/2009 shall mean the law converting Law-Decree 185/2008 on urgent measures for supporting families, work, employment, and business and redesigning the national strategic framework to combat the crisis;
- z) Law no. 99 of 23 July 2009 shall mean the law concerning provisions on development and internationalisation of companies, as well as on energy matters;
- z bis) the technical limit of the bid/offer shall mean the technical limit, maximum or minimum, as defined by the relevant European legislation within which the unit prices specified in the purchase and sale bids/offers must be included;

- aa) Billing shall mean the determination of the value of payables and receivables;
- bb) Step-Up Margin shall mean the maximum quantity that may be specified in supply offers in respect of the same offer point, for the purpose of verifying the technical adequacy of offers submitted in a market session;
- cc) Step-Down Margin shall mean the maximum quantity that may be specified in demand bids in respect of the same offer point, for the purpose of verifying the technical adequacy of bids submitted in a market session;
- cc bis) Market Coupling shall mean the mechanism which -through the co-ordinated operation of the energy markets of two or more interconnected areas - implicitly allocates the inter-border interconnection capacity and defines prices on the respective energy markets. This mechanism is implemented by the GME, in compliance with the Regulation (EU) 2015/1222, and according with the relevant regulatory framework from time to time in force, through respectively, the determination of the results of the day- ahead market (MGP) and the intraday market (MI), which is carried out simultaneously and in a coordinated manner with the determination of the results of the corresponding day-ahead energy and the intraday markets operated by market operators involved in the Market Coupling;
- dd) Market shall mean the electricity market organised and managed by GME;
- ee) [repealed];
- ee bis) Daily Products Market (MPEG) means the venue for the trading of purchase and sale offers/bids of the daily products;
- ff) Day-Ahead Market (MGP - Mercato del Giorno Prima) shall mean the venue where electricity demand bids and supply offers for each applicable period of the next day are traded
- gg) Intra-Day Market (MI - Mercato Infragiornaliero), consisting of the MI-A and the MI-XBID sessions, shall mean the venue where electricity demand bids and supply offers are traded in view of adjusting the injection and withdrawal schedules defined in the MGP;
- gg bis) Natural-gas Market shall mean the gas market organized and managed by GME (MGAS) divided into spot gas market (MPGAS) and the forward gas market with delivery and withdrawal obligation (MTGAS);
- hh) Ancillary Services Market (MSD - Mercato del Servizio di Dispacciamento) shall mean the venue where Terna procures resources for its dispatching service; it consists of the scheduling stage of the Ancillary Services Market (ex-ante MSD) and of the Balancing Market (MB);
- ii) Energy Markets shall mean the Day-Ahead Market (MGP – Mercato del Giorno Prima), the Intra-Day Market (MI – Mercato Infragiornaliero), the Daily Products Market (Mercato dei Prodotti Giornalieri – MPEG) and the Forward Electricity Market (MTE – Mercato dell’Energia a Termine);
- jj) Electricity Market (ME – Mercato Elettrico) shall mean the MPE and the MTE;
- kk) Forward Electricity Market with delivery and withdrawal obligation (MTE – Mercato Elettrico a Termine dell’Energia Elettrica con obbligo di consegna e ritiro) shall mean the venue where forward contracts are traded;
- ll) Spot Electricity Market (MPE – Mercato Elettrico a Pronti) shall mean the MGP, MPEG, MI and MSD;
- ll bis) Netting Markets shall mean the set consisting of the netting markets of the ME and the netting markets of the MGAS, considered as a whole for the purpose of verifying the adequacy of the capacity of the guarantees, the offsetting and regulation of the related payments, as well as the default;
- ll ter) Netting Markets of the ME shall mean the MGP and MI;

- ll quarter) Netting Markets of the MGAS shall mean the markets included in the MPGAS;
- ll quinquies) MI-A shall mean the auction trading session of the MI, within which the interconnection capacities between all areas of the Italian market are allocated, as well as the interconnection capacity on the borders involved in Market Coupling;
- ll sexies) MI-XBID shall mean the continuous trading session of the MI, carried out within XBID, within which the interconnection capacities between all areas of the Italian market are allocated, as well as the interconnection capacity on the borders on which the XBID is active;
- ll septies) auction negotiation shall mean the negotiation method that entails the insertion, modification, and cancellation of negotiation proposals in a given time interval, in order to conclude contracts at a single subsequent moment;
- ll octies) portfolio trading shall mean the conclusion of transactions on the energy markets following the submission of bids/offers for zonal portfolio;
- ll nonies) negotiation by offer point shall mean the conclusion of transactions on the energy markets following the submission of bids/offers for offer point;
- mm) Continuous Trading shall mean the trading based upon automatic matching of demand bids with supply offers (or buy orders with sell orders), with continuous entry of new bids/offers or orders during the trading sessions;
- mm bis) hourly PN nomination shall mean the quantity of energy in injection or withdrawal referring to one or more offer points registered on the PN for scheduling on such points of the commercial positions determined during the negotiation on the MI-XBID;
- mm ter) definitive hourly PN nomination shall mean the hourly PN nomination for injection or withdrawal that is registered at the end of the corresponding nomination phase;
- mm quater) provisional hourly PN nomination shall mean the hourly PN nomination in injection or withdrawal that is registered during the corresponding nomination phase;
- mm quinquies) European legislation shall mean, inter alia, the Regulation (EU) 2015/1222, the EU Plan for implementation of the market coupling operator function (MCO Plan), the ACER decisions no.04/2017 and no.05/2017, containing the definition and updating procedures of the "maximum and minimum clearing prices for single day a-head and intraday coupling", the Directive 2019/944/EU of 5 June 2019 on common rules for the internal electricity market and the Regulation 2019/943/EU of 5 June 2019 on the internal electricity market, as well as any further EU Regulation, Guidelines, Methodologies, European Common Rules connected, consequent and/or relating to the implementation and management of the Single Day A-head Coupling (SDAC) and Single Infra-Day Coupling (SIDC);
- nn) Accepted Bid/Offer shall mean a technically adequate bid/offer for which the Market Participant acquires the right to receive the requested service and the obligation to supply the offered service, at prices established in accordance herewith;
- oo) Multiple Bid/Offer shall mean a bid/offer consisting of a set of simple bids/offers submitted by the same Market Participant for the same applicable period and referring to the same offer point;
- oo bis) offer for portfolio shall mean the method of submitting offers which involves the presentation of offers referring to a given zonal portfolio;
- oo ter) offer for offer point shall mean the method of submitting offers which involves the presentation of offers relating to the single offer point;

- pp) Simple Bid/Offer shall mean a bid/offer that specifies a quantity of electricity offered for purchase or sale and a unit purchasing or selling price, as well as any other information as specified in the Dispatching Rules, and that refers to an offer point or to a zonal portfolio, to a market and to an applicable period;
- qq) Valid Offer shall mean a valid bid/offer which has been presented successfully as prescribed herein
- rr) Technically Adequate Bid/Offer shall mean a valid bid/offer which has been verified successfully as prescribed herein;
- ss) Balanced Bids/Offer shall mean supply offers at a price equal to the minimum technical limit and demand bids at a price equal to maximum technical limit submitted in each sitting of the MI-A also by different Market Participants, provided that they refer to the same applicable period and to offer points belonging to the same geographical or virtual zone and that their quantities balance out and are identified as mutually balanced by an appropriate alphanumeric code chosen by Market Participants;
- tt) Predefined bid/offer shall mean a simple or multiple bid/offer considered as submitted by a Market Participant in each sitting of the Day-Ahead Market (MGP) and of the Ancillary Services Market (MSD) in which GME does not receive bids/offers from the same Market Participant;
- uu) Market Participant shall mean a natural (individual) or legal person (organisation) including the PA Participant, who is admitted to trade on the Electricity market;
- uu bis) PA Participant means the administration referred to in Article 1, paragraph 209 of Law 24 December 2007, n. 244
- vv) Merit Order shall mean the priority order of a set of demand bids or supply offers that is determined on the basis of the offered price and, this being equal, on the basis of other reference parameters as defined herein;
- ww) Delivery Period shall mean the period during which the electricity underlying the daily products or underlying the forward contracts is injected/withdrawn;
- xx) Trading Period shall mean the period during which the daily products and the forward contracts are traded;
- yy) Reference Billing Period shall mean the period of time taken as a reference for billing payables and receivables resulting from market sessions that are held within the same period;
- zz) Applicable Period shall mean the period of time to which a single bid/offer submitted into the Electricity Market shall refer
- aaa) OTC Registration Platform (PCE – Piattaforma dei Conti Energia a Termine) shall mean the venue for registering transactions and forward schedules that is organised and managed by GME under Article 17, Annex A, AEEG's Decision 111/06, as subsequently amended and supplemented;
- aaa bis) Nomination Platform (PN) shall mean the platform organized and managed by GME pursuant to Resolution 350/2019/R/EEL to allow the scheduling of commercial positions on the offer points, resulting from the negotiations concluded by the Market Participant in the MI-XBID session;
- bbb) [repealed]
- ccc) [repealed]
- ccc bis) zonal portfolio shall mean the portfolio assigned to each Market Participant, for each geographical and/or virtual zone, to which all the injection and mixed offer points, belonging to these zones, are related, as well as the withdrawal offer points belonging to virtual zones, in which the Market Participant itself is a Dispatching User or has received a delegation to operate from the corresponding Dispatching User;

- ddd) Net Delivery Position shall mean the sum of the quantities of electricity calculated with reference to each of the hours included in the delivery period of the purchase and sale contracts that the Market Participant has concluded in the MTE;
- ddd bis) commercial position shall mean for each relevant period:
- for each zonal portfolio, the algebraic sum of the quantities of energy subject to the purchase and sale offers matched on the MI-XBID and referring to such zonal portfolio, as well as the offer points included therein;
 - for each withdrawal offer point belonging to a geographical area, the algebraic sum of the quantities of energy subject to the purchase and sale offers matched on the MI-XBID and referring to such point;
- eee) Contractual Positions shall mean the set of purchase and sale transactions that the Market Participant has concluded in the MTE and involving the same type of contracts;
- eee bis) MPEG check price means the parameter determined by GME for the purposes of the adequacy verifications on the MPEG and whose definition criteria are identified in the Technical Rules;
- eee ter) Price of the MPEG product means the price specified by the Participant during submission of the offers/bids and corresponding to:
- In the case of "unit differential price" product, the expression of the unit incremental or decremental value with respect to the average price referred to in Article 42, paragraph 42.2, subpara. c) of this Rule, which will be determined at the relevant periods included in the type of daily product being offered on the MPEG;
 - In the case of the "full unit price" product, the minimum unit value expression, or the maximum one, to which the Participant is willing to sell or buy the corresponding product;
- fff) Check Price of the MTE shall mean the price determined by GME for the purposes of technical adequacy verifications in the MTE;
- ggg) Conventional Price shall mean the unit electricity price which is defined in the Technical Rules, at whose price the bids can be conventionally valued in order to verify the adequacy of financial guarantees;
- ggg bis) MPEG product settlement Price means:
- In the case of "unit differential price" product, the algebraic sum of the product price and the average of the prices referred to in Article 42, paragraph 42.2, subpara. c) of this Electricity Market b that are determined at the relevant periods included in the daily product type being offered on the MPEG;
 - In the case of "full unit price" product, the price of the product;
- hhh) Reference Price shall mean the average price per MWh of all transactions made during a market session, weighted for the corresponding quantities;
- hhh bis) Price Coupling of Regions (PCR) shall mean the cooperation between the operators of the European market for the operational management of the marketcoupling between the respective Day-Ahead Energy Markets;
- hhh ter) Daily product means the types of products listed on the MPEG relating to the trading of electricity whose delivery is carried out at each of the relevant periods, in the trading day, included in the daily product delivery profile traded;

- hhh) quarter) Delivery profile means the base-load or peak-load profile that characterizes the daily product listed on the MPEG;
- iii) Cumulated Updated Hourly Injection or Withdrawal Schedule for each Offer Point shall mean the cumulated preliminary hourly injection or withdrawal schedule as modified as a result of the MI-A;
 - jjj) Cumulated Final Hourly Injection or Withdrawal Schedule for each Offer Point (or supply point) shall mean the cumulated updated hourly injection or withdrawal schedule as modified as a result of the negotiations concluded on the MSD, as well as a result of the definitive hourly PN nominations;
 - jjj bis) cumulative intermediate hourly injection or withdrawal program for each offer point shall mean the updated cumulative hourly program of injection or withdrawal as modified following the negotiations concluded on the MSD, as well as following the provisional hourly PN nominations;
- kkk) Cumulated Preliminary Hourly Injection or Withdrawal Schedule for each Offer Point shall mean the hourly schedule obtained as the sum of the preliminary hourly schedules pertaining to bids/offers accepted in the MGP and of the hourly schedules arising from purchase and sale contracts made off the exchange, as modified by the results of the MGP;
- lll) Hourly Injection Schedule shall mean the hourly diagram which defines, for a given injection or mixed offer point and for each applicable period, the quantities to which the Dispatching Rules apply;
- mmm) Hourly Withdrawal Schedule shall mean the hourly diagram which defines, for a given withdrawal or mixed offer point and for each applicable period, the quantities of electricity to which the Dispatching Rules apply;
- nnn) Updated Injection or Withdrawal Schedules shall mean the hourly injection or withdrawal schedules resulting from the MGP, as modified in the MI-A;
- ooo) [repealed];
- ppp) Preliminary Hourly Injection or Withdrawal Schedules shall mean the injection or withdrawal schedules resulting from the MGP;
- qqq) [repealed];
- rrr) Injection Point shall correspond to what is specified in the Dispatching Rules;
- sss) Point of Interconnection with a Neighbouring Country shall mean the border with a neighbouring country, i.e. the set of lines interconnecting the national transmission grid (RTN) with each of the countries whose grids are directly connected with the same grid;
- ttt) Offer Point (or supply point) shall mean the dispatching point as defined by the Dispatching Rules, in respect of which: step-up and step-down margins are defined; quantities of demand bids and supply offers for the purposes of the market are quoted; quantities of injection or withdrawal schedules, implementing purchase and sale contracts made off the exchange, are specified; and cumulated injection or withdrawal schedules are defined;
- uuu) Authorised Offer Point shall mean an offer point authorised by Terna to provide dispatching services by means of bids/offers submitted into the MSD;
- vvv) Offer Point for Injection shall mean one or more injection points;
- www) Offer Point for Withdrawal shall mean one or more withdrawal points;
- xxx) Mixed Offer Point shall mean one or more physical or virtual points, authorised both for injection and withdrawal;
- yyy) Withdrawal Point shall correspond to what is specified in the Dispatching Rules;
- zzz) PCE Rules (Regolamento della PCE) shall mean the rules governing the operation of the OTC Registration Platform (PCE), adopted by GME under

- Article 17, Annex A, AEEG's Decision 111/06, as subsequently amended and supplemented;
- zzz bis) Regulation (EU) 2015/1222 refers to the Commission Regulation (EU) 2015/1222 of 24 July 2015 which establishes guidelines on capacity allocation and congestion management;
- aaaa) Power Grid shall mean the set of the national transmission grid (RTN) and the other power grids having third-party access obligation and directly connected with the national transmission grid;
- bbb) RTN (Rete di Trasmissione Nazionale) shall mean the national transmission grid as identified in the Decree of 25 June 1999 of the Minister of Industry, Trade and Handicraft, published in Gazzetta Ufficiale, Serie Generale, Supplemento Ordinario no. 151 of 30 June 1999 and in subsequent development programmes
- bbbb bis) XBID program imbalance shall mean the algebraic sum between the resulting commercial position on a given zonal portfolio and the definitive hourly PN nomination corresponding to the same zonal portfolio, i.e. the algebraic sum between the resulting commercial position on an offer point in withdrawal belonging to a geographical zone and the definitive hourly PN nomination corresponding to the same offer point;
- cccc) Sitting shall mean a period of time within which bids/offers shall be submitted in order to be considered as valid;
- dddd) Market Session shall mean the set of activities directly related to receiving and processing bids/offers, as well as determining the corresponding market results;
- dddd bis) [repealed]
- eeee) Settlement shall mean the payment process of transactions concluded;
- ffff) Suspension from the Market shall mean the temporary prohibition for a Market Participant to submit bids/offers into the market;
- gggg) Terna shall mean Terna – Rete Elettrica Nazionale SpA, i.e. the company (società per azioni) resulting from the process of merger of ownership and management/operation of the national transmission grid under Art. 1 of the Decree of the President of the Council of Ministers of 11 May 2004; Terna carries out activities of electricity transmission and dispatching, including the unified management/operation of the national transmission grid;
- hhhh) [repealed];
- iiii) [repealed];
- jjjj) Dispatching User (or dispatching customer) shall mean the party that has entered into a dispatching service contract with Terna, as defined in the Dispatching Rules;
- jjjj bis) XBID (Cross Border Intraday) shall mean the common platform, defined as part of the cooperation project between European market operators and European transmission network operators, for the operational management of the sessions of the intraday markets with continuous trading, organized and managed by European market operators participating in the XBID;
- kkkkk) Market Zone shall mean a set of geographical zones and/or virtual zones having the same zonal electricity price in accordance herewith;
- llll) Geographical Zone shall mean a portion of the power grid where, as defined in the Dispatching Rules;
- mmmm) Virtual Zone shall mean an area representative of an interconnection with foreign countries, as identified by the dispatching rules;

2.2 For the purposes of these Rules, reference shall be made, where applicable, to the definitions of Article 2, para. 2.2 of the Rules Governing the OTC Registration Platform (PCE); the latter rules were adopted by GME in compliance with Article 17, Annex A to ARERA's Decision 111/06, as subsequently amended and supplemented, and were successfully verified by the Director of Markets of ARERA as per Resolution of 7 February 2007, as subsequently amended and supplemented and to the definitions set forth in Article 2, paragraph 2.1 of the MGAS Rules.

Article 3 **General Principles and Amendments to the Rules**

- 3.1 GME shall exercise its functions in an open and non-discriminatory way.
- 3.2 GME shall put in place an organisational structure suitable for preventing real or potential conflicts of interest and use procedures for monitoring compliance both with these Rules and with the Technical Rules.
- 3.3 In their activities in the market, Market Participants are required to conform to common principles of honesty and good faith.
- 3.4 GME may propose amendments to these Market Rules and notify them to all parties concerned by posting them on its website or by other suitable means, allowing at least fifteen days for the submission of comments, if any. Taking into account the comments received, GME shall then submit the proposed amendments (and their rationale) to the approval of the Minister of Economic Development, who shall decide after hearing the opinion of Authority.
- 3.5 The procedure referred to in para. 3.4 above shall not apply to urgent amendments to the Rules having the purpose of safeguarding the proper functioning of the market, or in the case of amendment of the Rules to the applicable regulatory provisions. Any such amendment proposed by GME shall have effect as of the date of its publication on GME's website and promptly submitted to the approval of the Minister of Economic Development, who shall decide after hearing the opinion of Authority. In case of non-approval, the amendment shall cease to have effect as of the date of notification of the Minister's decision to GME. GME shall timely notify the outcome of the approval procedure to Market Participants by posting it on its website.

Article 4 **Technical Rules**

- 4.1 The implementing and procedural provisions of the Rules shall be set out in the Technical Rules (DTF – *Disposizioni Tecniche di Funzionamento*). In formulating the Technical Rules, GME shall adopt criteria of neutrality, transparency, objectivity and competition between or among Market Participants.
- 4.2 The Technical Rules shall be posted on GME's website and become effective as of the date of their publication.

- 4.3 GME may also make a draft version of the Technical Rules available to interested parties, setting a date by which such parties may submit their comments and suggestions.

Article 5
Units of Measurement and Rounding off

- 5.1 For the purposes of the market:
- a) for electricity, the unit of measurement shall be the MWh, with the specification of the number of decimals as indicated in the Technical Rules;
 - b) for monetary quantities, the unit of measurement shall be the Euro, specified with two decimals;
 - c) for the unit price of electricity, the unit of measurement shall be the Euro/MWh, specified with two decimals.
- 5.2 The prices referred to in Article 42, para. 42.2 may be expressed with more than two decimals.
- 5.3 For the purposes of the market, figures shall be rounded off according to the mathematical criterion. In particular, figures shall be rounded up or down to the nearest last decimal allowed and, if the result is halfway, they shall be rounded up.

Article 6
Access to GME's Information System

- 6.1 Access to GME's information system shall take place:
- a) through the Internet;
 - b) by any other means as defined in the Technical Rules.

Article 7
Fees for Services Provided by GME

- 7.1 For services provided by GME in the Electricity Market (ME), Market Participants shall pay an access fee, a yearly fixed fee and a fee for the MWh traded.
- 7.2 [repealed]
- 7.3 On a yearly basis, GME shall determine the extent of the fees referred to in para. 7.1 above, with effect as of 1 January of the following year, in such a way as to ensure the economic and financial equilibrium of its operations. The fees shall be published on GME's website.

Article 8
Market Information

- 8.1 The aggregated market data and results shall be of public domain and published on GME's website. Market Participants shall have access to the data and market information that directly concern them.

- 8.2 Unless laws, regulations or other instruments issued by authorities require the disclosure of information:
- a) GME shall hold the data of bids/offers submitted into the MPE confidential until the seventh day following the last day of the sitting of submission of the same bids/offers and anyway, in the case of the MSD, not before Terna has defined the final results of such market. After the expiration of the above time limit, GME shall publish the available data on the date, the applicable period, the submitted price, the accepted price, the submitted quantity, the accepted quantity, the Market Participant, the offer point, i.e.the zonal portfolio, and the identification code of the submitted bids/offers;
 - b) GME shall publish the data of bids/offers accepted in the MTE in anonymous form seven days after the last day of trading of the contract to which the same bids/offers refer;
 - c) [repealed]
 - d) [repealed]
- 8.3 GME shall only transmit to Terna the information that is necessary for the proper functioning of the activities for which they are responsible.

Article 9
Communication and Publication of Data and Information

- 9.1 Unless otherwise stated, the communication and publication of data and information provided for herein shall be carried out electronically. In particular:
- a) communication to a Market Participant shall take place by making available data and information in the section of GME's information system whose access is restricted to that Market Participant;
 - b) publication shall take place by making available data and information in the section of GME's information system whose access is non-restricted.
- 9.2 Bids/offers submitted by Market Participants shall be deemed to have been received on the date and at the time recorded by GME's information system. Any other communication shall be deemed to be received:
- a) on the day and at the time of receipt, if it arrives between 08:00 and 17:00 of a working day;
 - b) at 08:00 of the first working day following the day of receipt, if it arrives between 17:00 and 24:00 of a working day, or between 00:00 and 24:00 of a non-working day;
 - c) at 08:00 of the day of receipt, if it arrives between 00:00 and 08:00 of a working day.
- 9.3 For the purpose of determining the time of receipt, the time shall be obtained from GME's records. For electronic communications, the time shall be obtained from GME's information system.

Article 10
Security of Access

- 10.1 Market Participants shall have access to the market through special procedures defined in the Technical Rules. Such procedures shall guarantee the identification of Market Participants and authenticate their transactions.

10.2 Market Participants shall treat their access codes and any other data or device required to access GME's information system as confidential.

TITLE II ADMISSION TO THE MARKET

Article 11 Requirements for Admission to the Market

- 11.1 Parties applying for admission to the market shall have adequate experience and competence in the use of information technology or information communication technology systems and related security systems or have employees or assistants with such experience and competence.
- 11.2 The following parties shall not be admitted to the market:
- a) applicants that have been convicted, with a final judgement (except in cases of rehabilitation/reinstatement) or with a judgement applying the penalty at the request of the parties (except in cases of extinction of the crime), to imprisonment for the crime referred to in Article 501 of the Italian Criminal Code or for one of the violations of the privacy of electronic communications referred to in Articles 617 *quater*, *quinquies*, *sexies* of the Criminal Code, or for computer fraud as per Article 640 *ter* of the Criminal Code, or for fraud against the State or other public body as per article 640, para. 2, no. 1 of the Criminal Code, as well as for income-tax and value-added-tax crimes as per Legislative Decree no. 74 of 10 March 2000;
 - b) parties that have been excluded from the market, during the sixty months preceding the submission of the new application form, except as provided in subparagraph c), and except in cases of exclusion referred to in Article 20;
 - c) parties that have been excluded from the market in respect of which, at the date of submission of the new application, GME still boast an outstanding claim on the same market.
- 11.3 If the party applying for market admission is a legal person, the requirements stated in para. 11.2 above shall refer to the owner, legal representative or duly authorised person.
- 11.4 In the cases where reference is to be made, wholly or in part, to foreign legal systems, GME shall verify compliance with the admission requirements mentioned in paras. 11.2 and 11.3 above based on a substantial equivalence evaluation.

Article 12 Market Participation Application and Market Participation Agreement

- 12.1 The party intending to participate in the market must submit to GME (in accordance with the procedures and within the time limits established in the Technical Rules):
- a) a market participation application (*Domanda di ammissione al mercato*) in the format enclosed hereto (Annex 1) together with the documents indicated in Article 13 below;
 - b) a signed copy of the market participation agreement (*Contratto di adesione al mercato*) in the format enclosed hereto (Annex 2).

Article 13
Documents to Be Enclosed to the Market Participation Application

- 13.1 The market participation application, duly signed by the applicant, shall be accompanied by:
- a) a declaration in compliance with Decree no. 445 of the President of the Republic of 28 December 2000 stating that the party applying for admission to the market or, if such party is a legal person, the parties referred to in Article 11, para. 11.3 above, have not been subject in Italy to measures implying the loss of the qualifications mentioned in Article 11, para. 11.2 a) above, or abroad to measures corresponding to those which would imply the loss of the same qualifications in Italy, or other equivalent documents based on which GME shall carry out a substantial equivalence evaluation;
 - b) if the market participation application is signed by the legal representative or other duly authorised party, a declaration in compliance with Decree no. 445 of the President of the Republic of 28 December 2000, certifying his/her powers of representation, or other equivalent documents based on which GME shall carry out a substantial equivalence evaluation.
- 13.2 If the documents referred to in paras. 13.1 above are already held by GME, the applicant shall be exempted from submitting them, but it shall submit a declaration indicating this fact and specifying the date when the documents had been originally presented to GME and certifying that the content of such documents is still current.

Article 14
Admission Procedure

- 14.1 GME shall notify the applicant of his/her/its admission to the market or of the rejection of his/her/its application accompanied by the reasons for such rejection within fifteen calendar days of receipt of the application, after verifying fulfilment of the requirements stated in Article 11 above, as well as the validity of the submitted documents. Such notification shall be made in accordance with the modalities and time limits that are defined in the Technical Rules.
- 14.2 For the purpose of verifying fulfilment of the requirements referred to in Article 11.1 above, GME may ask the applicant to provide appropriate documents.
- 14.3 Upon admission, the applicant shall acquire the status of Market Participant.
- 14.4 In the case of incomplete or irregular documents, GME shall - under the modalities and within the time limits defined in the Technical Rules - communicate to the applicant the steps necessary to complete or regularise the documents, as well as the date by which it shall do so. Such notification shall suspend the time limit referred to in para. 14.1 above, which shall run again from the date upon which GME receives the completed or regularised documents.

Article 15
Admission of Terna, of Gestore dei Servizi Energetici-GSE SpA and of Acquirente Unico to the Market

- 15.1 With exception to Article 14 above, Gestore dei Servizi Energetici-GSE SpA, Terna and Acquirente Unico (AU) are by right attributed the status of Market Participants.
- 15.2 Appropriate agreements between Terna and GME, between Gestore dei Servizi Energetici-GSE SpA, as well as between AU and GME, may provide for specific modalities to guarantee the fulfilment of the obligations arising from participation of Terna, Gestore dei Servizi Energetici SpA and AU in the Electricity Market (ME), as alternatives to the guarantees set forth in Article 79 below and having the same effect as said guarantees.

Article 16
Register of Market Participants

- 16.1 The parties admitted to the market as per Articles 14 and 15 above shall be entered into an appropriate Register of Market Participants (*Elenco degli operatori ammessi al mercato*). The Register shall be created and held by GME in compliance with EU Regulation 679/2016, as subsequently amended and supplemented.
- 16.2 The Register of Market Participants shall include the following data for each Market Participant:
- a) identification code of the Market Participant;
 - b) full name, registered name or company name, place of residence and domicile if different from the place of residence or registered office, taxpayer's code, VAT number, fax and telephone number, e-mail address and the person to whom communications shall be sent and related contact details;
 - c) [repealed]
 - d) status of the Market Participant: admitted, active, suspended, pending request for exclusion, excluded;
 - e) identification code of the offer points in respect of which the Market Participant is entitled to submit bids/offers and to register programs on the PN;
 - f) identification code of the forward electricity accounts (*Conti Energia*) on which the Market Participant is entitled to register proposals and transactions of purchase and sale of forward contracts in accordance with the PCE Rules;
 - g) bank details of the Market Participant;
 - h) amount of financial guarantees posted in favour of GME;
 - i) [repealed]
 - j) taxation scheme applied to the Market Participant.
 - k) identification codes of the zonal portfolios to which the Market Participant can refer offers for the zonal portfolio.
- 16.3 GME shall make publicly available the following data and information about Market Participants: full name, registered name or company name, place of residence or registered office.
- 16.4 Each Market Participant may have access to his/her/its own data and information contained in the Register of Market Participants.

Article 17
Data and Information for Participation in the Market

- 17.1 Each Market Participant shall request GME to enter the data and information referred to in Article 16, para. 16.2 g) above into the Register of Market Participants according to the modalities indicated in the Technical Rules, as well as the data and information referred to in Article 16, paragraph 16.2, subpara j).
- 17.2 The insertion of the data and information referred to in Article 16, para. 16.2 h) above shall follow the notifications referred to in Article 79, paras. 79.4, 79.12 and 79.15 and Article 80, paras. 80.5, 80.8 bis and 80.9 below.
- 17.3 The insertion of the data and information referred to in Article 16, para. 16.2 e) above concerning the offer points for which the Market Participant is not a Dispatching User, is carried out following a specific request from the Market Participant who, for this purpose, attaches a declaration issued by the Dispatching User of the offer point and certifying that the requesting Market Participant is entitled to submit bids/offers for such offer point.
- 17.4 The declaration mentioned in para. 17.3 above may also be made by a Market Participant that has been authorised to submit bids/offers at the offer point and that has also been delegated by the respective Dispatching User to authorise another Market Participant to submit bids/offers for the same point. In this case, the declaration shall be accompanied by a copy of the delegation issued by the dispatching user.
- 17.5 The declarations referred to in paras. 17.3 and 17.4 above shall include at least the following indications:
- a) identification code of the offer point for which the request for insertion is being made;
 - b) date from which the requesting Market Participant is entitled to submit bids/offers for that offer point;
 - c) date until which the requesting Market Participant is entitled to submit bids/offers for that offer point.
 - d) market and platform to which this declaration refers:
 - i. MGP/MI-A: in this case the requesting Market Participant is entitled to submit offers relating to this offer point on MGP and MI-A;
 - ii. MI-XBID/PN: in this case, the requesting Market Participant is the only party entitled to submit offers relating to this offer point on MI-XBID and to register injection and withdrawal programs for this offer point on the PN.
- 17.6 If the terms referred to in para. 17.5 b), c) and d) above are subsequently modified, the requesting Market Participant shall submit to GME a declaration with the new terms. This declaration shall include:
- a) identification code of the offer point for which the dates have been modified.
 - b) new date from which the requesting Market Participant is entitled to submit bids/offers for that offer point; and/or
 - c) new date until which the requesting Market Participant is entitled to submit bids/offers for that offer point; or

- d) date from which the requesting Market Participant is no longer entitled to submit bids/offers for that offer point.
- e) market and platform to which this declaration refers:
 - i. MGP/MI-A;
 - ii. MI-XBID/PN.

17.7 If the modifications covered by para. 17.6 above are notified to GME by the Dispatching User or by the Market Participant that has been delegated in accordance with para. 17.4 above, GME shall - even failing the declaration of the requesting Market Participant - give effect to the notification.

17.7bis On the offer points in relation to which the declaration to present offers in the sessions of the MI-XBID and to register programs on the PN has been issued, referred to in paragraph 17.3 above, for the entire period of validity and effectiveness of the mentioned declaration, the Dispatching User may not submit offers on these points or register programs on the PN, nor issue further declarations in favour of other Market Participants, referred to in paragraph 17.3 above. The same limitations also apply in the case of declarations issued pursuant to the previous paragraph 17.4.

17.8 On receipt of the requests referred to in para. 17.1 above, GME shall update the Register of Market Participants. The requested modification shall take effect within the second working day following receipt of the request by GME. For the requests referred to in paras. 17.3, 17.4 and 17.6 and the notification referred to in para. 17.7 above, the modification shall take effect within the second working day following receipt of the requests and anyway not prior to the date referred to in paras. 17.5 b) and 17.6 b) above.

17.9 To the request for insertion of data and information as per Article 16, para. 16.2 j) above, the Market Participant shall enclose a statement declaring its VAT taxation scheme, in accordance with the provisions of the Technical Rules.

17.10 At the request of data and information entry, referred to in Article 16, para. 16.2 g), the Market Participant attaches - for the purpose of submitting bids/offers on the market - a declaration authorizing GME to withdraw the amounts due by the Market Participant itself to GME directly from the bank account held with financial institution enabled to the SEPA Business to Business Direct Debit payment scheme, as provided in the Technical Rules.

Article 18 **Verifications**

18.1 GME shall monitor compliance with the Market Rules and Technical Rules with a view to ensuring the proper functioning of the market according to principles of neutrality, transparency, objectivity, and competition between or among Market Participants. To this end, GME may request information or documents concerning the transactions carried out by Market Participants in the market and also convene them for a hearing.

18.2 GME shall monitor, on time and in a manner defined by it, the maintenance by the participants of the requirements for admission to the market. To this end, it may require additional documentation or the updating of the documents already submitted.

Article 19
Notification Obligations

- 19.1 Market Participants are required to notify GME promptly - and in any case within three working days - of the occurrence of any change in circumstances that may involve the change of any of the data and information referred to in Article 16, para. 16.2 b), g), h) and j) above, that they have declared and have been entered into the Register of Market Participants.
- 19.2 GME shall update the Register of Market Participants taking into account any of the changes mentioned in para. 19.1 above.

Article 20
Exclusion from the Market on Request

- 20.1 For the purposes of exclusion from the market, Market Participants shall – under the modalities and within the time limits defined in the Technical Rules – deliver or send to GME's registered office an appropriate written request indicating the date from which exclusion is requested.
- 20.2 Exclusion from the market on request shall run from the later of the following dates:
- a) the second working day following receipt by GME of the request referred to in para. 20.1 above;
 - b) the date indicated in the request referred to in para. 20.1 above.
- 20.3 If, on the date indicated in para. 20.2 above, the Market Participant has open contractual positions in the MTE, then the date of exclusion shall run from the working day following the one on which the Market Participant has closed the above positions.
- 20.4 Without prejudice to the provisions of the above paragraphs, the exclusion from the market on request shall not exempt the Market Participant from fulfilling obligations arising from commitments made in the market.
- 20.5 During the period of suspension from the market, the participant cannot request the exclusion under this article.

TITLE III
OPERATION OF THE ELECTRICITY MARKET (ME)

Article 21
Electricity Market Structure and Applicable Period

- 21.1 The Electricity Market (ME) shall consist of the Spot Electricity Market (MPE) and the Forward Electricity Market with delivery and withdrawal obligation (MTE).
- 21.2 The MPE shall consist of:
- a) the Day-Ahead Market (MGP), where electricity is traded through the submission of supply offers and demand bids. The MGP takes place in a single session relative to the next day;
 - b) the Intra-Day Market (MI), where changes in the electricity quantities negotiated in the MGP are traded through the submission of supply offers and demand bids. The MI consists of the MI-A sessions and of the MI-XBID;
 - c) the Ancillary Services Market (MSD), where resources for the dispatching service are procured; the MSD shall consist of the ex-ante MSD and of the Balancing Market (MB).
 - d) Daily Products Market (MPEG), which relates to the electricity trading, through sale and purchase bids/offers. The MPEG may take place in sessions related to each delivery day.
- 21.2 bis As part of the MI referred to in paragraph 21.2, letter b) above, GME manages the PN through which the scheduling of the commercial positions resulting from the MI-XBID sessions is carried out.
- 21.3 The purpose of the MTE is the trading of future supplies of electricity through the submission of supply offers and demand bids.
- 21.4 The applicable period for the markets referred to in para. 21.1 above shall be equal to one fixed hour.

Article 22
Definitivity of Transactions

- 22.1 Electricity transactions concluded in the MGP, MI and MSD shall be definitive and binding - also for the purposes of the guarantee, clearing, billing and of settlement of the relative payables and receivable and of the consequent related obligations, as of the time in which demand bids and supply offers are accepted or matched in the bidding system under Articles 42 and 52 below, or which are attributed to the participant pursuant to the subsequent Article 55 nonies.
- 22.1 bis The electricity transactions concluded on the MPEG are considered final and binding also for the purposes of the guarantee, offset and settlement of the relative economic payables and receivable starting from the time when sale and purchase bids/offers has been matched in the bids/offers system set forth in Article 60 nonies.
- 22.2 Forward transactions concluded in the MTE shall be definitive and binding - also for the purposes of the guarantee, clearing, billing and settlement of the relative payables

and receivables – as of the time in which bids/offers are matched in the bidding system under Article 67 below.

22.3 [repealed]

SECTION I OPERATION OF THE DAY-AHEAD MARKET (MGP), THE INTRA-DAY MARKET (MI), OF THE NOMINATION PLATFORM (PN) AND THE ANCILLARY SERVICES MARKET (MSD)

Article 23 *Geographical Zones and Virtual Zones*

23.1 Terna shall notify GME of the geographical zones and virtual zones characterising the MGP, MI and MSD markets. GME shall post such zones on its website.

23.1 *bis* [repealed]

Article 24 *Data and Information on Offer Points*

24.1 GME shall receive from Terna the following data and information concerning each offer point, in respect of which bids/offers may be submitted into the MGP, MI and MSD markets:

- a) identification code of the offer point;
- b) authorisations, if any, for submitting bids/offers into the markets, in respect of the offer point;
- c) identity of the Dispatching User for the offer point;
- d) priority order.

24.2 For the purpose of submitting bids/offers into the MGP, MI and MSD markets, the data and information referred to in para. 24.1 above shall take effect within the second working day following receipt.

Article 25 *Solar Time and Daylight-Saving Time*

25.1 The procedures for defining the applicable period during the passage from solar time to daylight-saving time and from daylight-saving time to solar time shall be described in the Technical Rules.

Article 26 *Demand bids, Supply Offers and Offer Technical Limits*

26.1 In the MGP, MI and MSD markets, the quantities and related unit prices shall refer to electricity.

26.1bis On the MGP, in the MI-A sessions and on the MSD, the offers are presented for offer points.

26.1ter For the purposes of MI-XBID, GME assigns to each Market Participant a portfolio in each geographical and/or virtual zone consisting of all the offer points with respect

to which the Market Participant is entitled to report offers and register programs on the PN, except for the withdrawal offer points belonging to the geographical zones. It is understood that each zonal portfolio does not include the offer points with respect to which the Market Participant is a Dispatching User and has issued, in favor of another Market Participant, a declaration, pursuant to the previous Article 17, paragraph 17.3, to operate on the MI-XBID and to register programs on the PN, still valid, as for these offer points the entitlement to submit offers on MI-XBID and to register programs on the PN, pursuant to the previous Article 17, paragraph 17.7bis, is exclusively in the hands of the beneficiary Market Participant of said declaration.

- 26.1quater In the MI-XBID sessions, with regard to injection or mixed offer points belonging to geographical zones or virtual zones, as well as to the withdrawal offer points belonging to virtual zones, offers can be presented, alternatively, for portfolio or for offer point. For withdrawal offer points belonging to geographical zones, offers can only be presented for offer point.
- 26.2 The quantities of electricity specified in demand bids and supply offers shall take only values higher than or equal to zero. The unit prices specified in the demand bids and supply offers must be included within the technical limits indicated in the Technical Rules in compliance with the relevant European legislation.
- 26.3 The quantities of electricity specified in the purchase and sale offers by offer point refer to the individual offer points. The quantities of electricity specified in the purchase and sale offers by portfolio refer to the set of offer points included in the related zonal portfolio.
- 26.4 The quantities of electricity specified in injection and withdrawal schedules shall refer to offer points.
- 26.5 [repealed]
- 26.6 Each demand bid or supply offer submitted by offer point must be consistent with the injection or withdrawal capability of the offer point to which the bid/offer refers and must correspond to the actual willingness to inject or withdraw electricity at the offer point.
- 26.6bis Each sale or purchase offer presented by portfolio must be consistent with the potential for injection or withdrawal of the offer points of the zonal portfolio to which the offer refers and must correspond to the actual intention to inject or withdraw electricity subject of the offer in the offer points within the portfolio.
- 26.7 [repealed]
- 26.8 More Market Participants may submit offers/bids referred to the same offer point in the MGP and in the MI-A auctions. On the MI-XBID, with regard to the offer points subject to declaration pursuant to the previous Article 17, paragraph 17.3, offers can only be submitted by the Market Participant beneficiary of this declaration.

Article 27
Bid/Offer Submission

- 27.1 Bids/offers may be submitted into the MGP and MI-A by:
- a) completing the appropriate forms available in GME's information system;
 - b) sending a file, via GME's information system, in the format that is defined in the Technical Rules.
- 27.1 bis *In* the MSD, bids/offers may be submitted in accordance with the modalities stated in para. 27.1 b) above.
- 27.2 If, during a sitting of the MGP and MI-A, GME receives a valid bid/offer from a Market Participant in accordance with the modalities indicated in para. 27.1 a) above, in respect of a given offer point, such bid/offer shall replace all bids/offers submitted by the same Market Participant in respect of the same offer point and the same applicable period that GME has previously received during the same market sitting, including - only in the MGP - any predefined bid/offer submitted in respect of that offer point. By submitting bids/offers in accordance with the modalities referred to in paras. 27.1 b) and 27.1 bis above, Market Participants may replace or integrate their bids/offers submitted in respect of the same offer point and the same applicable period that GME has previously received during the same market sitting, including - only in the MGP and MSD - any predefined bid/offer submitted in respect of that offer point.
- 27.3 A valid bid/offer submitted by a Market Participant pursuant to the previous paras 27.1 and 27.1 bis may be replaced by a new bid/offer until the end of the corresponding sitting of the MGP, MI-A or MSD. For the purpose of defining the priority order, reference shall be made to the time of submission of the last modification received.
- 27.4 A valid bid/offer submitted by a Market Participant pursuant to the previous paras 27.1 and 27.1 bis may be revoked until the end of the market sitting for which it has been submitted. The revocation of a predefined bid/offer shall also have effect in all the markets whose sittings are still open.
- 27.5 The offers in the MI-XBID sessions can be submitted by filling in the appropriate forms available in the market's IT system, as well as according to the procedures set out in the Technical Rules.
- 27.6 Market Participants can submit trading offers in the MI-XBID sessions according to the execution methods indicated in the Technical Rules.
- 27.7 Compatibly with the chosen execution method, pursuant to paragraph 27.6 above, Market Participants can modify or cancel their offers that are valid and adequate, but not yet matched. Modified offers lose the time priority previously acquired.

Article 28
Minimum Contents of Bids/Offers

- 28.1 Bids/offers of the MGP, of the session MI-A and of the MSD shall contain at least following data:
- a) identification code of the Market Participant submitting the bid/offer;
 - b) identification code of the market and of the market sitting to which the bid/offer refers;
 - c) identification code of the offer point to which the bid/offer refers;
 - d) applicable period to which the bid/offer refers;
 - e) type of bid/offer (demand bid/supply offer);
 - f) where applicable, whether the bid/offer is a predefined or balanced bid/offer;
 - g) offered quantity;
 - h) unit price for the offered quantity.
- 28.2 The maximum number of simple bids/offers of the MGP, of the MI-A session and of the MSD making up a multiple bid/offer shall be defined in the Technical Rules. For the purpose of determining the market results, each multiple bid/offer shall be considered as a set of simple bids/offers.
- 28.3 The offers of the MI-XBID session contain at least the following information:
- a) the identification code of the Market Participant submitting the offer;
 - b) the identification code of the market session for which the offer is submitted;
 - c) for offers submitted by offer point, the identification code of the offer point to which the offer refers;
 - d) for offers presented by portfolio, the identification code of the zonal portfolio to which the offer refers;
 - e) the relevant period to which the offer refers;
 - f) the type of offer (purchase/sale);
 - g) the quantity offered;
 - h) the unit price related to the quantity offered.

Article 29
Validation of Bids/Offers

- 29.1 Within the timeframe established by the Technical Rules, GME shall check the validity of each bid/offer and shall notify the Market Participant involved of the outcome of the validation and of the reasons for a possible negative outcome.
- 29.2 Any bid/offer shall be considered as valid if it satisfies the following requirements:
- a) the Market Participant has not been suspended at the time of receipt of the bid/offer;
 - b) for the bid/offers submitted by offer point, the Market Participant is entitled to submit bids/offers for the offer point;
 - c) for the bids/offers submitted by portfolio, the Market Participant is entitled to submit bids/offers for the zonal portfolio indicated;
 - d) the bid/offer has been submitted, depending on the market to which it refers, in compliance with the modalities referred to in Article 27 above;
 - e) the bid/offer carries, depending on the market to which it refers, all the data

- referred to in Article 28 above;
- f) the bid/offer has been received on the MGP, on the MI-A and on the MSD within the time period defining the duration of the market sitting;
 - g) the offer point is authorised for the market to which the bid/offer refers;
 - h) for offers submitted into the MGP and MI, the quoted price is within the technical limits shown the previous Article 26, para. 26.2;
 - i) in the case of bids/offers submitted into the MSD, any checks as
1. provided in the Dispatching Rules shall not be performed.
- j) in the case of offers submitted on the MI-XBID, if the offer submitted by the Market Participant cannot be combined with other offers submitted by the same Market Participant in relation to the same offer point, or to the same zonal portfolio.

Article 30 **Technical Adequacy of Bids/Offers**

- 30.1 GME shall verify the technical adequacy of valid bids/offers and shall communicate to the concerned Market Participant the outcome of the adequacy check and the reasons for any negative outcome:
- a) for bids/offers submitted in the MGP, MI-A and MSD, at the end of the market session;
 - b) for offers submitted for the MI-XBID session after the positive outcome of the previous adequacy checks referred to in Article 29 above.
- 30.2 A valid bid/offer shall be technically adequate if it satisfies the following requirements:
- a) for the bids/offers submitted on the MGP, on the MI-A and on the MSD, the Market Participant has not been suspended;
 - b) the bid/offer is guaranteed as specified in Article 81 below;
 - c) the bid/offer fulfils the requirements specified for the individual markets and the individual types of bids/offers referred to in Articles 41 and 51 below, respectively;
 - d) in the case of bids/offers submitted into the MSD, the bid/offer has been possibly validated as provided in the Dispatching Rules.
- 30.3 For the purpose of verifying compliance with the specific requirements referred to in Articles 41 and 51 below, GME shall use the step-up and step-down margins notified for each offer point under Articles 40 and 50 below.
- 30.4 The margins in respect of the offer points shall be notified according to the same procedures as those referred to in Article 27 above.

Article 31 **Unavailability of Power Grid Assets**

- 31.1 Market Participants shall retain the rights and obligations that they have acquired in the MGP, MI or MSD, even in the event of unavailability of power grid assets due to actions of grid operators, owners or third parties or to orders of public authorities or *force majeure*.

Article 32
Suspension of the MGP, MI, PN and MSD

- 32.1 In the event of any exceptional circumstances as defined in the Dispatching Rules, GME shall, at the request of Terna, suspend the MGP, MI, PN or MSD.
- 32.2 GME shall notify Authority and the Ministry of Economic Development of any suspension of the MGP, MI, PN or MSD.

Article 33
Emergency Conditions procedures in the MGP, MI, PN and MSD

- 33.1 Emergency conditions shall be the following:
- a) the case where GME is not able to publish the preliminary information referred to in Article 37, para. 37.1, subpara. a) or Article 47, para. 47.1, subpara. a), b) and
 - b) the case where GME is not able to receive the bids/offers submitted by Market Participants according to the modalities referred to in Article 27, paras. 27.1, 27.1 bis, 27.5, or receive or allocate the registrations of hourly PN nominations according to Article 55 quinquies below, due to malfunctioning of its telecommunications systems;
 - c) the case where GME is not able to determine the results of a market session owing to, among others, malfunctioning of its information system;
 - d) the case where GME is not able to communicate to Terna and to the Market Participants the results of a market session, or the final hourly PN nominations, or the cumulative intermediate hourly schedules or the cumulative final hourly schedules, owing to, among others, malfunctioning of its information system or telecommunication systems.
- 33.2 If the case referred to in para. 33.1 b) above occurs, GME shall notify Market Participants and Terna of the occurrence of the emergency condition and, where applicable, of the new closing time for the market sitting or of the nomination phase as well as any alternative methods for sending requests for the registration of nominations; such time shall not exceed the time limit defined in the Technical Rules. If, by the new closing time for the market sitting, the emergency condition persists, GME shall suspend the market and the provisions laid down in the Dispatching Rules shall apply. If the emergency condition persists by the new deadline for closing of the nomination phase, the provisions of the dispatching regulations shall apply.
- 33.3 If the cases referred to in para. 33.1 c) and d) above occur, GME shall - in accordance with the modalities stated in the Technical rules - suspend transactions in the MGP, MI, on the PN or MSD, notify Terna and Market Participants of the occurrence of the emergency condition and the provisions laid down in the Dispatching Rules shall apply.
- 33.4 The communication procedures to be adopted by GME in the case referred to in para. 33.1 a) above shall be defined in the Technical Rules.

Article 34
Assignment of Coefficients of Priority to Predefined Bids/Offers

[repealed]

SUBSECTION I
DAY-AHEAD MARKET (MGP)

Article 35
Purpose of the MGP

- 35.1 GME shall be the counterparty of Market Participants in the electricity purchase and sale contracts made in the MGP.
- 35.2 In the MGP, electricity demand bids and supply offers shall be selected for the applicable periods of the calendar day following the one in which the market sitting closes. The provisions laid down in the Dispatching Rules shall apply to accepted bids/offers for injections or withdrawals of electricity.

Article 36
Periods for Submission of Bids/Offers

- 36.1 The MGP sitting shall:
- a) open at least nine calendar days before the day to which bids/offers refer;
 - b) close on the calendar day preceding the day to which bids/offers refer.
- 36.2 The opening and closing hours of the MGP sitting shall be defined in the Technical Rules.
- 36.3 After the close of the session of a sitting of the MGP, the GME reserves the right to reopen the MGP sitting in the case of *Decoupling* or in other cases identified in the Technical Rules.
- 36.4 The GME announces the reopening of the sitting referred to in Paragraph 36.3 to the Market Participants as defined in the Technical Rules.

Article 37
Preliminary Market Information

- 37.1 Within thirty minutes before the closure of the MGP sitting, GME shall receive from Terna and publish at least the following data:
- a) admissible hourly electricity transmission capacity limits between geographical zones and virtual ones, in which there are points offer, communicated by Terna to the GME, against which Market Participants can report offers;
 - b) [repealed];
 - c) [repealed];
 - d) estimated hourly electricity demand by geographical zone.

37.2 The data and information mentioned in para. 37.1 above shall refer to the overall values of the system.

Article 38 **Demand Bids and Supply Offers**

- 38.1 Market Participants may submit simple, multiple or predefined bids/offers into the MGP.
- 38.2 In the MGP, Market Participants may submit supply offers only in respect of offer points for injection or mixed offer points and demand bids only in respect of offer points for withdrawal or mixed offer points. A same multiple bid/offer may specify only supply offers or only demand bids, with the exception of bids/offers in respect of mixed offer points, for which multiple bids/offers may specify both demand bids and supply offers.
- 38.3 Supply offers express the willingness to sell a quantity of electricity not exceeding the quantity quoted in the offer at a unit price not lower than the offer price. Demand bids express the willingness to purchase a quantity of electricity not exceeding the quantity quoted in the bid at a unit price not exceeding the bid price, where quoted.
- 38.4 For the purpose of determining the market results as set forth in Article 42 below, the quantities specified in supply offers or demand bids may also be partially accepted.
- 38.5 A supply offer submitted into the MGP, if accepted, implies the commitment to inject into the grid, in the applicable period, the quantities of electricity specified in such offer or part of them in the case of partial acceptance; such quantities shall be valued at prices not lower than the unit prices specified for each quantity in the same offer.
- 38.6 A demand bid submitted into the MGP, if accepted, implies the commitment to withdraw from the grid, in the applicable period, the quantities of electricity specified in such bid or part of them in the case of partial acceptance; such quantities shall be valued at prices not exceeding the unit prices specified for each quantity in the same bid.

Article 39 **Priority Order of Bids/Offers**

- 39.1 Supply offers shall be ranked in non-decreasing price order from the lowest-priced offers to the highest-priced ones. Demand bids shall be ranked in non-increasing price order starting from those with the highest price to those with the lowest ones.
- 39.2 If supply offers have the same price, the priority order referred to in Article 24, para. 24.1 d) above shall apply.
- 39.3 If, as a result of the application of paras. 39.1 and 39.2 above, bids/offers have equal priority, then:
- a) predefined bids/offers shall have a lower priority than bids/offers submitted during the market sitting. The priority order among the predefined bids/offers is the chronological order of receipt of bids/offers;
 - b) for bids/offers submitted during a market sitting, the priority order shall correspond to the chronological order of receipt of bids/offers;
 - c) [repealed]

Article 40
Step-Up and Step-Down Margins for the MGP

- 40.1 Before the closure of the MGP sitting, GME shall receive from Dispatching Users the step-down margins for the MGP, in respect of each withdrawal offer point belonging to a geographical zone and not authorised for the MSD. The values of the step-up margins in respect of such points shall be equal to zero.
- 40.2 The quantities specified in the margins may only have values greater than or equal to zero.
- 40.3 Before the closure of the MGP sitting, GME shall receive from Terna: i) the step-up margins for the MGP, in respect of each injection offer point; ii) the step-down margins in respect of each withdrawal offer point belonging to a geographical zone and authorised for the MSD or belonging to a virtual zone; and iii) the step-up and step-down margins in respect of each mixed offer point. The values of the step-down margins in respect of each injection offer point and of the step-up margins in respect of each withdrawal offer point belonging to a geographical zone and authorised for the MSD or belonging to a virtual zone shall be equal to zero.
- 40.4 If the Dispatching User or Terna fail to supply the data referred to in paras. 40.1 and 40.3 above, respectively, GME shall use the latest values of the step-up and step-down margins for the MGP that it has received.
- 40.5 If the Dispatching User or Terna have never provided the data referred to in paras. 40.1 and 40.3 above, respectively, GME shall assign the values of the step-up and step-down margins for the MGP in accordance with the procedure specified in the Technical Rules.

Article 41
Technical Adequacy Requirements of Bids/Offers Submitted into the MGP

- 41.1 For the purposes of Article 30, para. 30.2 c) above, the provisions contained in this Article and in the Technical Rules shall apply.
- 41.2 Supply offers submitted into the MGP in respect of offer points for injection or mixed offer points shall be regarded as technically adequate if the specified electricity quantity does not exceed the step-up margin for the MGP specified for the same offer point and applicable period; such margin shall be decreased by the sum of the electricity quantities specified in the other supply offers that have been submitted in respect of the same offer point and the same applicable period, that have a higher priority and that have already been verified to be technically adequate.
- 41.3 Demand bids submitted into the MGP in respect of offer points for withdrawal or mixed offer points shall be regarded as technically adequate if the specified electricity quantity does not exceed the step-down margin for the MGP specified for the same offer point and applicable period; such margin shall be decreased by the sum of the

electricity quantities specified in the other demand bids that have been submitted in respect of the same offer point and the same applicable period, that have a higher priority and that have already been verified to be technically adequate.

- 41.4 If a supply offer or demand bid submitted in respect of an offer point and of an applicable period does not meet the requirements specified in paras. 41.2 and 41.3 above, then such offer or bid shall be considered to be technically adequate, but only for a quantity of electricity equal to the step-up or step-down margin, after decreasing such margin by the sum of the quantities of electricity specified in the other supply offers or demand bids, which have been submitted in respect of the same offer point and of the same applicable period, which have a higher priority and which have already been verified to be technically adequate.

Article 42

Results of the MGP and Preliminary Hourly Injection or Withdrawal Schedules

- 42.1 The provisions of this Article shall apply to each applicable period for which bids/offers are accepted in the MGP.
- 42.2 GME shall identify a market solution related to the accepted bids/offers as well as the corresponding prices of valuing by using the PCR algorithm, according to the procedures and criteria defined in the Technical Rules. In particular, it is identified a market solution among all the solutions developed by the PCR algorithm within the time limits for its processing, shared within the PCR and shown in the Technical Rules. The solution detected is that where the net value of the resulting transactions, on a daily basis on all energy markets involved in the Market Coupling is maximum and ensures that:
- a) energy flows between geographical and/ or virtual areas comply with the transmission constraints between these same geographical and/or virtual areas, provided that the amount of electricity, subject of the accepted supply offers is equal to the amount of electricity specified in the accepted demand bids;
 - a bis) the amount of electricity, subject of the accepted supply offers is equal to the amount of electricity specified in the accepted demand bids, taking into account imports and exports towards the neighboring markets where the Market Coupling is active;
 - b) the price of valuing of electricity in each geographical or virtual zone is such as that the following is accepted:
 - all bids/offers whose bid price is less than said valuing price and exclusively supply offers having a bid price not exceeding said valuing price;
 - with reference only to mixed offer points and points of withdrawal localized in virtual zones, all the bids whose bid price is higher than said valuing price and exclusively demand bids having a bid price not less than said valuing price;
 - c) the price of valuing of electricity purchased in respect of offer points for withdrawal belonging to geographical zones is a single one and, in particular,

equal to the average of the prices referred to in subpara. b) above, weighted for the electricity quantities specified in demand bids in respect of offer points for withdrawal belonging to the relevant geographical zones and is such as that, with reference to said offer points, they are accepted all the bids whose bid price is higher than said valuing price and exclusively demand bids having a bid price not less than said valuing price;

d) [repealed];

e) [repealed];

f) the balance arising from the difference between the total countervalue of bids/offers accepted on offer points for withdrawal belonging to geographical areas valued at the price referred to in subparagraph c) and their countervalue valued at the price referred to in subparagraph b) does not exceed the minimum and maximum limits specified in the Technical Rules;

g) the order of priority of offers/bids referred to in Article 39 is complied with, consistently with the other provisions of this Article.

42.3 For the purposes of para. 42.2 above, consideration shall also be given to the quantities corresponding to injection and withdrawal schedules for which registration on the OTC Registration Platform (PCE) has been requested. Such schedules, to which the priorities specified in the Dispatching Rules shall apply, shall be regarded as supply offers and demand bids with the quantities and prices that have been submitted into the MGP, in accordance with the PCE Rules.

42.3 bis For the purposes of the provisions of para. 42.2 above, in the case of *Market Coupling*, consideration shall be given to the demand bids and supply offers relating to the energy markets involved in *Market Coupling*, as well as, limited to such bids/offers, to the rules of determination of results adopted in the corresponding energy markets. In the event occurrence of a risk of non-performance of the *Market Coupling (decoupling)*, or if *decoupling* with one or all of the energy markets involved in the Market Coupling is confirmed, the GME inform Market Participants of that fact, as specified in the Technical Rules.

42.4 For the purposes of para. 42.2 b) above, the net value of transactions is defined as the difference between the overall value of accepted demand bids and the overall value of accepted supply offers. Such overall values shall be determined by valuing the amount of electricity specified in each accepted bid/offer, or the accepted amount in case of partial acceptance of a bid/offer, at the price specified in that bid/offer.

42.5 Within the time limit defined in the Technical Rules, GME shall identify the accepted bids/offers and the corresponding prices of valuing in accordance with the modalities specified in this Article, and define:

a) the preliminary hourly injection or withdrawal schedules;

b) the prices of valuing of electricity, determined without taking into account transmission capacity constraints between geographical and/or virtual zones;

c) the prices of valuing of accepted supply offers in each market zones and accepted demand bids.

- 42.6 Within the time limit referred to in para. 42.5 above, GME shall publish the following data and information:
- a) the prices mentioned in para. 42.5 b) and c) above;
 - b) for each geographical zone and/or virtual zone, the overall quantities of electricity covered by the accepted supply offers and demand bids;
 - c) the demand curve and the supply curve for each market zone;
 - d) [repealed].
- 42.7 Within the time limit referred to in para. 42.5 above, GME shall communicate to each Market Participant that has submitted bids/offers into the MGP and only in respect of such bids/offers:
- a) the preliminary hourly injection or withdrawal schedules mentioned in para. 42.5 a) above, in respect of the bids/offers submitted by the Market Participant and accepted;
 - b) the accepted bids/offers, specifying the accepted electricity quantity;
 - c) the bids/offers that have been rejected as being technically inadequate as a result of the verifications made under Article 30, para. 30.2 above, with an explanation of the reasons for such rejection;
 - d) the billed payables and receivables as per Article 71, para. 71.1 a) below.
- 42.8 After the MGP, GME shall communicate to the Dispatching User of each offer point and to Terna the relevant cumulated preliminary hourly injection or withdrawal schedule of the unit, including the schedules of the purchase and sale contracts made off the exchange in respect of the same offer point.

Article 43
Schedules Submitted through the OTC Registration Platform (PCE)

- 43.1 Without prejudice to the provisions of paras. 43.2 and 43.3 below, the physical balance arising on each electricity account under the PCE Rules shall correspond to:
- a) a purchase from the MGP by the Participant holding the electricity account, if the physical balance is lower than zero;
 - b) a sale in the MGP by the Participant holding the electricity account, if the physical balance is greater than zero.
- 43.2 In accordance with para. 43.1 a) above, in order to assign a purchase to a Participant holding an electricity account and also being an Electricity Market Participant, such purchase shall be verified to be technically adequate in accordance with Article 81 below. If the purchase is not technically adequate, Terna shall become the counterparty of such purchase towards GME.
- 43.3 If a physical balance other than zero arises on an electricity account whose holder is not an Electricity Market Participant, Terna shall become the counterparty of GME for the related purchase or sale, as specified in para. 43.1 above.
- 43.4 Bids/offers accepted under paras. 43.1, 43.2 and 43.3 above shall be valued at the price specified in Article 42, para. 42.2 c) above.

- 43.5 The fee per MWh traded, which is referred to in Article 7, para. 7.1 above, shall be applied to bids/offers accepted under paras. 43.1, 43.2 and 43.3 above.
- 43.6 The procedures and time limits for invoicing of payables and receivables and for settlement of payments in respect of bids/offers accepted in accordance with the above paragraphs shall be defined in the Technical Rules.

Article 44
Valuing of Grid and Market Constraints in the MGP

- 44.1 Where the MGP has been split into two or more zones, GME shall pay Terna, if positive, and Terna shall pay GME, if negative, the net margins deriving from the difference between the amounts debited to purchasing Market Participants and those credited to selling Market Participants.

SUBSECTION II
INTRA-DAY MARKET (MI)

Article 45
Purpose of the MI

- 45.1 GME shall be the counterparty of Market Participants for electricity purchase and sale contracts made in the MI.
- 45.2 In the MI, electricity demand bids and supply offers shall be negotiated for the applicable periods of the calendar day of trading, according to the provisions of the Technical Rules. For the purposes of injection or withdrawal of electricity pertaining to accepted bids/offers, the provisions contained in the Dispatching Rules shall apply.
- 45.3 Negotiations on the MI take place through the performing of:
- a) three MI-A auction sessions during which, at the same time as the negotiation of the purchase and sale offers, the intraday interconnection capacity is allocated between all the areas of the Italian market and the other geographic zones interconnected to them involved in Market Coupling;
 - b) a continuous MI-XBID trading session, divided into three phases, within which, within the XBID context, at the same time as the negotiation of purchase and sale offers, the intraday interconnection capacity between all areas of the Italian market is allocated and the other geographical zones interconnected to the same active in the XBID;

- 45.4 For each day of flow subject to trading, the MI-A auction sessions and the three trading phases of the MI-XBID session take place in a sequential and non-overlapping manner, according to the following order:
- a) MI-A auction session (MI-A1);
 - b) continuous trading phase of the MI-XBID session (I phase MI-XBID);
 - c) MI-A auction session (MI-A2);
 - d) continuous negotiation phase of the MI-XBID session (II phase MI-XBID);
 - e) MI-A auction session (MI-A3);
 - f) continuous negotiation phase of the MI-XBID session (III phase MI-XBID).
- 45.5 For the entire duration of an MI-A auction session, the intraday interconnection capacity between all areas of the Italian market and the other geographic zones interconnected to the same involved in the Market Coupling will not be available within the XBID.
- 45.6 The relevant periods, relating to each day of flow subject to trading on the MI, tradable in each auction session MI-A and in each continuous trading phase of the MI-XBID session referred to in paragraph 45.4 above, are defined in the Technical Rules.

Article 46
Periods for Submission of Bids/Offers

- 46.1 The opening and closing times of each sitting of the MI-A auction and of the continuous negotiation phases of the MI-XBID session shall be defined in the Technical Rules.

Article 47
Preliminary Market Information

- 47.1 By the closure of each sitting of the MI-A, GME shall receive from Terna and publish at least the following data:
- a) electricity transfer margins, with respect to the admissible hourly transmission capacity limits between geographical and virtual zones, which remain available upon the closing of the MGP or in the previous session of the MI-A and/or of the previous continuous negotiation phases of the MI-XBID session, as possibly updated by Terna itself;
 - b) [repealed]
 - c) [repealed]
- 47.2 The data mentioned in para. 47.1 above shall refer to the overall values of the system.

Article 48
Demand Bids and Supply Offers

- 48.1 In each sitting of the MI-A auction, Market Participants may submit simple, multiple, and balanced bids/offers.

- 48.2 In each sitting of the MI-A auction Market Participants may submit supply offers/demand bids in respect of offer points for injection and withdrawal, as well as mixed offer points. A same multiple bid/offer may specify both supply offers and demand bids.
- 48.2 bis In each MI-XBID session the sale and purchase offers/bids submitted:
- a) by offer point can be referred by the Market Participant to both injection offer points and withdrawal offer points and mixed offer points;
 - b) by portfolio refers to the set of offer points included in the zonal portfolio pursuant to the previous Article 26, paragraph 26.1ter.
- 48.3 For the purpose of determining the results in accordance with Article 52 below, demand bids and supply offers may also be partially accepted or matched.
- 48.4 Supply offers express the willingness to sell or resell a quantity of electricity not exceeding the quantity quoted in the offer at a unit price not lower than the price indicated in the offer.
- 48.5 Demand bids express the willingness to purchase or repurchase a quantity of electricity not exceeding the quantity quoted in the bid at a unit price not higher than the price possibly quoted in the bid.
- 48.6 A supply offer submitted in the sitting of the MI-A auction, if accepted, implies the commitment to increase the injection of electricity into the grid or to decrease the withdrawal of electricity from the grid, at a given offer point and in a given applicable period, by the quantities of electricity specified in the offer, or part of them in case of partial acceptance, with respect to the quantities specified in the preliminary injection or withdrawal schedules (as modified in the previous sessions of the MI-A auction), valued at prices not lower than the unit prices specified for each quantity in the same supply offer.
- 48.7 A demand bid submitted in the sitting of the MI-A auction, if accepted, implies the commitment to decrease the injection of electricity into the grid or to increase the withdrawal of electricity from the grid, at a given offer point and in a given applicable period, by the quantities of electricity specified in the demand bid, or part of them in case of partial acceptance, with respect to the quantities specified in the preliminary injection or withdrawal schedules (as modified in the previous sessions of the MI-A auction), valued at prices not higher than the unit prices specified for each quantity in the same demand bid.
- 48.8 The purchase and sale offers/bids submitted by portfolio on the MI-XBID, if combined, imply the commitment for the Market Participant to register on the nomination platform (PN) injection and/or withdrawal programs referring to the offer points included in the same portfolio corresponding to the commercial position resulting from the transactions concluded by portfolio in the MI-XBID session, in accordance with the provisions of Section IIbis - Nomination Platform, of this Chapter. For bids and offers submitted for offer point on the MI-XBID, if combined, the commitment to register on the nomination platform (PN) is automatically fulfilled by assigning to the Market Participant a corresponding registration of a nomination on the same offer point, pursuant to Article 55 bis, paragraph 55bis.2, letter b) below.

Article 49
Priority Order of Bids/Offers

- 49.1 For the bids/offers submitted in the sittings of the MI-A auction, if prices are equal, priority shall be given to bids/offers that Market Participants have specified as balanced bids/offers.
- 49.2 Without prejudice to what is stated in para. 49.1 above, where two or more supply offers or demand bids have the same price, they shall be ranked according to the priority order specified in Article 39 above.
- 49.3 The offers presented by the Market Participant during the MI-XBID sessions, verified as valid and adequate pursuant to the preceding Article 29 and Article 30, enter into the trading book and are ordered on the basis of the price, in descending order for the purchase offers and in ascending order for the sales offers, according to the criteria specified in Article 52 below. At the same price, the time priority for placing the offer prevails.

Article 50
Step-Up and Step-Down Margins for the MI

- 50.1 Before the closure of each sitting of the MI-A, GME shall receive from Dispatching Users the data concerning the step-down margins for execution of the auction, in respect of each withdrawal offer point belonging to a geographical zone and not authorized for the MSD.
- 50.2 If the Dispatching User fails to provide the data indicated in para. 50.1 above, GME shall determine the values of the step-down margins according to the criteria specified in the Technical Rules.
- 50.3 Without prejudice to para. 50.1 above, before the closure of each sitting of the MI-A, and for each session of the MI-XBID, GME shall receive from Terna the data for each offer/bid point concerning the step-up and step-down margins as well as those of the feasibility intervals defined by TERNA which contribute to the determination of these margins for the execution of the MI sessions.
- 50.4 If Terna fails to provide the data referred to in para. 50.3 above, GME shall determine the values of the step-up and step-down margins for the MI according to the criteria specified in the Technical Rules.

Article 51
Technical Adequacy Requirements of Bids/Offers in the MI

- 51.1 For the purposes of Article 30, para. 30.2 c) above, the provisions of this Article and in the Technical Rules shall apply to each session of the MI-A auction and for each negotiation phase of the MI-XBID session.
- 51.2 Supply offers submitted in each MI-A auction sitting, in respect of an offer point and an applicable period, shall be regarded as technically adequate if the specified electricity quantity does not exceed the step-up margin for the corresponding session of the MI-A, specified for the same offer point and applicable period; such

margin shall be decreased by the sum of the electricity quantities specified in the other supply offers that have been submitted, in the same sitting, in respect of the same offer point and applicable period, that have a higher priority and that have already been verified to be technically adequate.

51.3 Demand bids submitted in each sitting of the MI-A auction, in respect of an offer point and an applicable period, shall be regarded as technically adequate if the specified electricity quantity does not exceed the step-down margin for the corresponding session of the MI-A, specified for the same offer point and applicable period; such margin shall be decreased by the sum of the electricity quantities specified in the other demand bids that have been submitted, in the same sitting, in respect of the same offer point and applicable period, that have a higher priority in the merit order and that have already been verified to be technically adequate.

51.3bis The sale offers presented in each negotiation phase of the MI-XBID session:

- a) in relation to an offer point, for a given relevant period, the following are considered adequate if the quantity of electricity specified therein is no higher than step-up margin of the offer point for the same relevant period:
 - i. reduced or increased quantities of electricity relating to sale or purchase offers referring to the same offer point and for the same relevant period, combined in the same negotiation phase of the MI-XBID session;
 - ii. reduced quantities of electricity subject to sale offers referring to the same offer point and for the same relevant period, present in the MI-XBID book at the time of the verification and not yet matched;
- b) in relation to a zonal portfolio, for a given significant period, they are considered adequate if the quantity of electricity specified therein is no greater than the step-up margin of the zonal portfolio, calculated as the sum of the step-up margins of the offer points included in the portfolio, for the same relevant period:
 - i. reduced or increased quantities of electricity relating to sale or purchase offers referring to the same portfolio and to the individual offer points which constitute it, for the same relevant period, combined in the same negotiation phase of the MI-XBID session;
 - ii. reduced quantities of electricity subject to sale offers referring to the same portfolio and to the offer points that constitute it, for the same relevant period, present in the MI-XBID book at the time of the verification and not yet matched.

51.3ter The purchase offers presented in each negotiation phase of the MI-XBID session:

- a) in relation to an offer point for a given relevant period, the following are considered adequate if the quantity of electricity specified therein is no higher than the step-down margin of the offer point, for the same relevant period:
 - i. reduced or increased quantities of electricity relating to purchase or sale offers referring to the same offer point and for the same relevant period, combined in the same negotiation phase of the MI-XBID session;
 - ii. reduced quantities of electricity subject to purchase offers referring to the same offer point and for the same relevant period, present in the MI-XBID book at the time of the verification and not yet matched.
- b) in relation to a zonal portfolio for a given significant period, they are considered adequate if the quantity of electricity specified therein is no greater than the step-down

margin of the zonal portfolio, calculated as the sum of the step-down margins of the offer points included in the portfolio, for the same relevant period:

- i. reduced or increased quantities of electricity relating to purchase or sale offers referring to the same portfolio and to the individual offer points which constitute it, for the same relevant period, combined in the same negotiation phase of the MI-XBID session;
- ii. reduced quantities of electricity subject to purchase offers referring to the same offer point or portfolio, for the same relevant period, presented in the same negotiation phase of the MI-XBID session and not yet matched.

- 51.4 In each sitting of the MI-A auction, each set of balanced bids/offers, identified by the same alphanumerical code chosen by Market Participants, shall be considered as technically adequate if:
- a) the single bids/offers satisfy the requirements set forth in paras. 51.2 and 51.3 above;
 - b) the single bids/offers refer to the same applicable period and the same geographical or virtual zone;
 - c) the sum of the electricity quantities specified in supply offers is equal to the sum of the electricity quantities specified in demand bids.
- 51.5 If one or more bids/offers in the set of balanced bids/offers are found to be technically inadequate, such inadequacy shall apply to the entire set of balanced bids/offers.
- 51.6 In each sitting of the MI-A auction, if a supply offer or demand bid submitted in respect of an offer point and of an applicable period does not meet the requirements specified in paras. 51.2 and 51.3 above, then such offer or bid shall be considered to be technically adequate, but only for a quantity of electricity equal to the step-up or step-down margin, after decreasing such margin by the sum of the quantities of electricity specified in the other supply offers or demand bids, which have been submitted in the same session in respect of the same offer point and the same applicable period, which have a higher priority and which have already been verified to be technically adequate.
- 51.7 In each phase of the MI-XBID negotiation, if a bid/offer, in relation to an offer point or zonal portfolio and a applicable period, does not comply with the requirements referred to in paragraphs 51.3bis and 51.3ter above, this offer is considered not adequate.

Article 52

Results of the MI-A, execution of the MI-XBID and Updated Hourly Injection or Withdrawal Schedules

- 52.1 The provisions stated in this Article shall apply to each applicable period for which bids/offers are accepted on the MI-A auctions or matched bids/offers in the MI-XBID session.
- 52.2 In each session of the MI-A auction, GME shall identify a market solution related to the accepted offers/bids and the corresponding valorization prices at which the net value of the transactions on the electricity markets involved in the Market Coupling is maximum and which guarantees that:
- a) electricity flows between geographical and/or virtual zones respect the transmission constraints between the same areas;

- a bis) the amount of electricity specified in accepted supply offers/bids is equal to the amount of electricity specified in the accepted demand offers/bids, taking into account the imports and exports to bordering markets with which Market Coupling is active;
- b) the price of valuing of electricity in each geographical or virtual zone is such that they are accepted:
- all offers/bids whose offer/bid price is lower than said valuation price and exclusively offers/bids having an offer/bid price not exceeding said valuation price;
 - all offers/bids whose offer/bid price is higher than said valuation price and exclusively offers/bids having the offering/bidding price not less than said valuation price;
- c) [repealed]
- d) [repealed]
- e) consistently with the other provisions of this Article, it is complied with the order of priority of offers/bids referred to in Article 49.

52.2 bis For the purposes of the provisions of the paragraph 52.2 above, consideration shall be given to the offers/bids related to the electricity markets involved in the same Market Coupling and the inter-border interconnection capacity made available by the Transmission System Operators, as well as, limited to such offers/bids, the rules for determining the results adopted on the corresponding electricity markets. In the event of occurrence of a risk related to non-performance of the Market Coupling (decoupling), or if decoupling with one or all of the electricity markets involved in the same Market Coupling is confirmed, GME shall inform the Market Participants of that fact, as specified in the Technical Rules.

52.3 For the purposes of para. 52.2 above, the net value of transactions shall mean the difference between the overall value of accepted demand bids and the overall value of accepted supply offers. Such overall values shall be determined by valuing the quantity of electricity specified in each accepted bid/offer, or the accepted quantity in case of partial acceptance of the bid/offer, at the price specified in the bid/offer itself.

52.3bis For each phase of continuous trading of the MI-XBID, GME shall organize a trading book broken down by geographical and/or virtual zones. Each book displays all the offers submitted in the MI-XBID, as well as those submitted by Market Participants in other markets connected to the XBID, which can be combined with each other on the basis of the intraday interconnection capacity available, ordered according to the order of priority defined pursuant to the previous Article 49, paragraph 49.3.

52.3ter The bids/offers referred to in paragraph 52.3bis above are displayed on the relevant trading book anonymously or without indication of the proposing Market Participant, and without indication of the reference zone.

52.3 quater The conclusion of the transactions on the trading book referred to in paragraph 52.3 bis above takes place through the automatic matching of offers with the opposite sign, present in the same trading book.

52.3quinquies In the MI-XBID sessions:

- a) a purchase offer determines the matching within the capacity with one or more sales offers having a price lower than or equal to that of the offered proposal;
- b) a sale offer determines the matching within the capacity with one or more purchase offers having a price higher than or equal to that of the offer entered;
- c) for each transaction concluded, the price is that of the offer having time priority;
- d) compatibly with the execution method chosen pursuant to the previous Article 27, paragraph 27.6, the partial execution of an offer results in, for the unexecuted quantity, the creation of an offer which remains displayed on the book with the price and priority timing of the original offer;
- e) the offers submitted by the Market Participant during each trading phase of the MI-XBID and not matched are deleted from the order book at the end of the same negotiation phase.

52.3sexies Following matching of the offers, pursuant to the previous paragraph 52.3quinquies, the intraday interconnection capacity available for allocation is automatically updated according to the methods and criteria provided for in the dispatching regulations and in the relevant European legislation.

52.4 For each demand bid accepted in the MI-A sessions or matched in the MI-XBID session, in respect of an offer point for withdrawal, GME shall determine the non-arbitrage fee that the Market Participant submitting such bid shall pay if negative, or receive, if positive; such fee shall be equal to the product between the accepted quantity and the difference between the related price indicated in Article 42, para. 42.2 b) above and the price indicated in Article 42, para. 42.2 c) above.

52.5 For each supply offer accepted in the MI-A sessions or matched in the MI-XBID session, in respect of an offer point for withdrawal, GME shall determine the non-arbitrage fee that the Market Participant submitting such offer shall pay, if positive, or receive, if negative; such fee shall be equal to the product between the accepted quantity and the difference between the related price indicated in Article 42, para. 42.2 b) above and the price indicated in Article 42, para. 42.2 c) above.

52.6 The preliminary hourly injection or withdrawal schedules, as modified by the bids/offers relating to the individual offer points accepted in the MI-A, shall constitute the updated hourly injection or withdrawal schedules for each offer point and for each Market Participant.

52.7 During each phase of the MI-XBID negotiation, as well as at the end of the same, the commercial positions of the relative zonal portfolios as well as the withdrawal offer points belonging to the geographical zones are defined for each Market Participant, as the difference between the sum of the quantities of energy subject to the combined purchase offers and the sum of the quantities of energy subject to the combined sale offers, identifying for this purpose:

- a) a commercial purchase position, if this difference has a positive sign;
- b) a commercial position for sale, if this difference has a negative sign;
- c) a zero-commercial position, if this difference is equal to zero.

Article 53

Notification of the Results, of the Updated Hourly Injection or Withdrawal Schedules and of the commercial positions in the portfolio following the MI

- 53.1 For each session of the MI-A auction, after determining the updated hourly injection or withdrawal schedules, GME shall publish the following data and information:
- a) the prices of valuing of electricity determined without considering transmission constraints between geographical and/or virtual zones;
 - b) the prices of valuing of accepted bids/offers in each market zone;
 - c) the overall electricity quantities of accepted demand bids and supply offers in respect of each geographical and/or virtual zone;
 - d) the demand curve and the supply curve of each market zone.
- 53.2 For each session of the MI-A auction, after determining the updated hourly injection or withdrawal schedules, GME shall communicate the following data to each Market Participant that has submitted bids/offers in the MI-A auction and only in respect of such bids/offers:
- a) the accepted bids/offers, specifying the accepted electricity quantity;
 - b) the updated hourly injection or withdrawal schedules referred to in Article 52, para. 52.6 above, related to the bids/offers submitted by the Market Participant and accepted;
 - c) the bids/offers which have been rejected as being technically inadequate as a result of the verifications set forth in Article 30 above, with the reasons for such rejection;
 - d) the billed payables and receivables as per Article 71, para. 71.1 b) below.
- 53.2bis During each phase of the MI-XBID session as well as at the end of the session, GME, following the concluded negotiations, shall make at least the following information available to each Market Participant:
- a) the combined offers, specifying the quantity of electricity and the related matching price;
 - b) the commercial positions referred to in Article 52, paragraph 52.7 above;
 - c) bids rejected as not being adequate as a result of the checks referred to in Article 30 above, indicating the reason;
 - d) the billed payables and receivables settled pursuant to Article 71, paragraph 71.1, letter b) below.
- 53.2ter During each phase of the MI-XBID session as well as at the end of it, GME communicates to Terna the commercial positions referred to in Article 52, paragraph 52.7 above.
- 53.2quater At the end of each phase of the MI-XBID trading session, GME shall publish at least the following data and information for each geographical and/or virtual area:
- a) minimum price and maximum price of the session;
 - b) volume traded in the session.
- 53.3 After each session of the MI, GME shall notify the Dispatching User of each offer point and Terna of the cumulated updated injection or withdrawal schedule for that offer point.

Article 54
Valuing of Grid and Market Constraints in the MI-A auctions

- 54.1 Where the MI-A has been split into two or more zones, GME shall pay Terna the net margins deriving from the difference between the amounts debited to purchasing Market Participants and the amounts credited to selling Market Participants.

Article 55
Valuing of Non-Arbitrage Fees in the MI

- 55.1 GME shall pay Terna, if the amount is positive, or Terna shall pay GME, if the amount is negative, the net margins resulting from the difference between the amounts debited and the amounts credited to Market Participants as set forth in Article 52, paras. 52.4 and 52.5 above.

SECTION II-BIS
NOMINATION PLATFORM

Article 55a
Subject of the PN

- 55bis.1 On the PN, GME shall organize the phase of nomination of the commercial positions referred to in Article 53, paragraph 53.2bis, letter b) above for each relevant period.

- 55bis.2 During the nomination phase, for the commercial positions referred to in the previous paragraph 55bis.1, the registration of the hourly PN nominations for injection and withdrawal are carried out, pursuant to the provisions of Article 48, paragraph 48.8 above:

- a) for offers submitted by portfolio and found to be matched, by Market Participants at the offer points included in the related zonal portfolio, in accordance with the provisions of this Section II-Bis;
- b) for offers submitted by offer point and found to be matched, by GME, automatically, in parallel with the same offer points in relation to which said offers were submitted.

- 55bis.3 At the end of the nomination phase, GME shall determine the definitive hourly PN nominations of injection or withdrawal for each offer point.

Article 55 ter
Nomination phase scheduling

- 55ter.1 The opening and closing times of the nomination phase are defined in the Technical Rules.

Article 55 quarter
Step-up and step-down margins for the purpose of registration of hourly PN nominations

55quater.1 By the end of the nomination phase, GME shall acquire from Terna the data concerning the step-up and step-down margins, as well as those of the feasibility intervals defined by TERNÀ that contributes to the determination of these margins, for the purpose of registration of the hourly PN nominations relating to each offer point, excluding the withdrawal offer points belonging to the geographical areas.

55quater.2 If Terna shall not provide the data referred to in paragraph 55quater.1 above, GME shall determine the values of the step-up and step-down margins relating to the nomination phase according to the criteria defined in the Technical Rules.

Article 55 quinquies
Request for registration of the hourly PN nominations

55quinquies.1 Each Market Participant holding a zonal portfolio may request, during the nomination phase, the registration of hourly PN for injection and withdrawal nominations referring to the offer points belonging to the portfolio itself referred to in Article 55bis, paragraph 55bis.2 above, letter a), according to the procedures defined in this article and in the Technical Rules. It is understood that for offers presented by offer point and matched, the relative registrations of the nominations are automatically assigned by GME to the offer point itself pursuant to the previous Article 55bis, paragraph 55bis.2, letter b) and, in relation to such registrations, the provisions of the following paragraphs 55quinquies.2 and 55quinquies.3 and the following Article 55 sexies do not apply.

55quinquies.2 Registration requests can be submitted by:

- a) the compilation of specific forms available in the IT system of the PN;
- b) sending a file, through the IT system of the PN, in the format defined in the Technical Rules.

55quinquies.3 The request for registration of each hourly PN nomination must contain at least the following information, in addition to any other information indicated in the Technical Rules:

- a) the identification code of the offer point to which it refers;
- b) the day of flow;
- c) the relevant period;
- d) the type of nomination (injection/withdrawal);
- e) the quantity of energy subject of the nomination.

Article 55 sexies
Verification of validity of requests for registration of the hourly PN nominations

55sexies.1 Following a request for registration of an hourly PN nomination received pursuant to the previous Article 55, paragraph 55quinquies.2, GME shall check its validity. Each request is considered valid if:

- a) the Market Participant is not suspended;
- b) it reports all the information referred to in Article 55quinquies, paragraph 55quinquies.3 above;
- c) it was received within the terms set out in Article 55ter, paragraph 55ter.1 above;
- d) the offer point indicated in the registration request is available to the Market Participant pursuant to the previous Article 16, paragraph 16.2, letter e);
- e) it was submitted in accordance with the procedures referred to in Article 55quinquies above.

55sexies.2 If the request for registration of an hourly PN nomination is not valid, GME, according to the procedures defined in the Technical Rules, shall communicate the result to the Market Participant, indicating the reason for the negative outcome of this verification.

Article 55 septies

Verification of the adequacy of the registrations of hourly PN nominations

55septies.1 Within the terms and according to the procedures defined in the Technical Rules, GME shall proceed with the adequacy checks of the registrations of the hourly PN nominations referred to in Article 55 bis, paragraph 55bis.2 above, verifying:

- a) for each offer point, the compliance with the step-up or step-down margins of the offer point referred to in Article 55quater above. If this check gives a negative result, GME shall proceed with the adjustment of the quantity of energy subject of registration, decreasing or increasing, in line with the margins of the offer point;
- b) that the sum of the quantities registered on the offer points included in each zonal portfolio is consistent and does not exceed the corresponding commercial position. If this check gives a negative result, the quantities subject to registration are adjusted, without prejudice to compliance with the margins of each offer point;
- c) the additional criteria established in the Technical Rules, including any feasibility intervals defined by TERNA.

Article 55octies

Determination and communication of the hourly PN nominations for injection or withdrawal

55octies.1 During the nomination phase, within the deadlines set out in the Technical Rules, GME shall determine, on the basis of the checks and any adjustments made pursuant to the previous Article 55 septies, the provisional hourly PN nominations for injection or withdrawal relating to each offer point.

55octies.2 At the end of the nomination phase, within the deadlines set out in the Technical Rules, GME shall determine, on the basis of the checks and any adjustments made pursuant to the previous Article 55 septies, the definitive hourly PN nominations for injection or withdrawal relating to each offer point.

55octies.3 The provisional hourly PN nominations for injection or withdrawal referred to in paragraph 55octies.1 above and the definitive hourly PN nominations for injection or withdrawal referred to in paragraph 55octies.2 above shall be communicated to:

- a) the Market Participant holding the offer point pursuant to the previous Article 16, paragraph 16.2, letter e);
- b) the Dispatching User of the offer point;
- c) Terna.

Article 55 nonies
MI-XBID program imbalance

55nonies.1 For the purposes of this Article, the following sign conventions are adopted:

- a) commercial purchase and sale positions are considered to have a positive and negative sign respectively;
- b) the definitive hourly PN nominations for injection and withdrawal are considered to have positive and negative signs, respectively.

55nonies.2 GME, at the end of the nomination phase, shall calculate for each zonal portfolio and for each withdrawal offer point belonging to a geographical zone the algebraic sum of the relative commercial position and the definitive hourly PN nominations in injection and withdrawal and shall assign on the MI-XBID to the market participant holder of the portfolio, or of the withdrawal offer point belonging to a geographical zone, a purchase or sale transaction due to imbalance in the MI-XBID program with GME as counterparty and, in particular:

- a) a purchase transaction for MI-XBID program imbalance, if this sum is less than zero;
- b) a sale transaction for MI-XBID program imbalance if this sum is greater than zero.

55nonies.3 With regard to the MI-XBID program imbalance transactions referred to in paragraph 55nonies.2 above, GME shall verify that the same are guaranteed pursuant to Article 81 below. If these verifications give a negative outcome, the counterparty of these transactions on the MI -XBID towards GME becomes TERNA.

55nonies.4 The transactions referred to in paragraph 55nonies.2 above are valued at the prices defined in the dispatching regulations.

55nonies.5 The fee for the MWh traded, referred to in Article 7, paragraph 7.1 above, is applied to the transactions referred to in paragraphs 55nonies.2 and 55nonies.3 above.

55nonies.6 The transactions referred to in the previous paragraphs 55nonies.2 and 55nonies.3 are disclosed to Market Participants and Terna according to the methods and terms defined in the Technical Rules.

55nonies. 7 The modalities and terms for the invoicing of payables and receivables and for the settlement of payments, relating to the transactions attributed pursuant to the previous paragraphs, are defined in the Technical Rules.

Article 55 decies
Valuation of the balance of imbalances in the MI-XBID program

55decies.1 GME shall pay Terna, if positive, or shall receive from Terna, if negative, the net margins arising from the difference between the amounts debited and the amounts credited to Market Participants pursuant to the previous Article 55 nonies.

SECTION II-TER
CUMULATED INTERMEDIATE AND FINAL HOURLY SCHEDULES

Article 55 undecies
Cumulated intermediate hourly schedules for injection and withdrawal

55undecies.1 Before the end of the nomination phase, GME shall communicate to Terna and to each Dispatching User, according to the modalities and terms defined in the Technical Rules, the cumulated intermediate hourly injection and withdrawal schedule.

Article 55 duodecies
Cumulative final hourly schedules of injection and withdrawal

55duodecies.1 At the end of the nomination phase, GME shall communicate to Terna and to each Dispatching User, according to the modalities and terms defined in the Technical Rules, the cumulated final hourly injection and withdrawal schedule.

SUBSECTION III
ANCILLARY SERVICES MARKET (MSD)

Article 56
Purpose of the MSD

- 56.1 In the MSD, Terna shall enter into purchase and sale contracts for the purpose of procuring resources for its dispatching service.
- 56.1 *bis* The MSD shall consist of the ex-ante MSD and of the MB, which may take place in multiple sessions, in accordance with the Dispatching Rules.
- 56.2 In the ex-ante MSD and in the MB, supply offers and demand bids shall be submitted and selected under the criteria defined in the Dispatching Rules. For the purposes of injection and withdrawal of electricity as a result of the acceptance of bids/offers, the provisions laid down in the Dispatching Rules shall apply.
- 56.3 In the MSD, the applicable period shall be defined in the Dispatching Rules.

Article 57
Periods for Submission of Bids/Offers

- 57.1 The timetable for the activities pertaining to the sessions of the ex-ante MSD and of the MB shall be specified in the Technical Rules in accordance with the provisions of the Dispatching Rules.

Article 58
Demand Bids and Supply Offers

- 58.1 In the MSD, bids/offers may only be submitted in respect of authorised offer points and only by the respective Dispatching Users.
- 58.2 In the MSD, predefined bids/offers are submitted under the procedures specified in the Dispatching Rules.

Article 59
Results of the MSD

- 59.1 GME shall notify Terna of the bids/offers received in the MSD for each offer point and applicable period.
- 59.2 Terna shall notify GME of the accepted bids/offers, as well as of any other information as provided in the Dispatching Rules.
- 59.3 For each demand bid accepted in the MSD in respect of offer points for withdrawal, GME shall determine the non-arbitrage fee that the Market Participant submitting such bid shall pay, if the amount is negative, or receive, if the amount is positive; such fee shall be equal to the product between the accepted quantity and the difference

between the related price specified in Article 42, para. 42.2 b) above and the price specified in Article 42, para. 42.2 c) above.

- 59.4 For each supply offer accepted in the MSD in respect of offer points for withdrawal, GME shall determine the non-arbitrage fee the Market Participant submitting such offer shall pay, if the amount is positive, or receive, if the amount is negative; such fee shall be equal to the product between the accepted quantity and the difference between the related price specified in Article 42, para. 42.2 b) above and the price specified in Article 42, para. 42.2 c) above.

Article 60
Publication of Data and Notifications to Market Participants

- 60.1 When the results of the MSD are known, GME shall publish at least the following data and information for each geographical zone and for each hour:
- a) the overall quantities of accepted demand bids and supply offers;
 - b) the average hourly value of the prices of accepted demand bids and supply offers, as well as the price of the lowest-priced demand bid and the price of the highest-priced supply offer that have been accepted.
- 60.2 When the results of the MSD are known, GME shall notify the following data to each Market Participant that has submitted bids/offers and only in respect of such bids/offers:
- a) the accepted bids/offers, specifying at least the amount of the accepted quantity;
 - b) [repealed];
 - c) the billed payables and receivables, as set forth in Article 71, para. 71.1 c) below.
- 60.3 [repealed].
- 60.4 GME shall notify each Market Participant of any other information as provided in the Dispatching Rules.

SECTION I-BIS
OPERATION OF THE DAILY PRODUCTS MARKET (MPEG)

Article 60 bis
Subject of the MPEG

- 60 bis.1 On the MPEG, Participants buy and sell daily products with the obligation of delivery of electricity.
- 60 bis.2 GME is the counterparty of the Market Participants for transactions concluded in the MPEG.
- 60 bis.3 GME, as a qualified market participant, in accordance with Annex A to Resolution No. 111/06 of ARERA and subsequent amendments, is the holder of an energy account on the PCE through which it registers onto the PCE the net delivery

position, corresponding to the purchase and sale transactions concluded by the Participant in the MPEG, in the manner set in this Section.

Article 60 ter
MPEG's products

60 ter.1 On the MPEG, the following daily products may be listed:

- a) "unit differential price" product;
- b) "full unit price" product.

The price associated with the the bids/offers submitted for each of the two products is equivalent to the price defined in the previous Article 2, para. 2.1, subpara. eee ter).

60 ter.2 For each of the daily products traded on the MPEG, GME may list the following delivery profiles:

- a) Baseload, listed for all calendar days, whose underlying is the electricity to be delivered in all relevant periods pertaining to the day subject of trading;
- b) Peakload, listed for the days from Monday to Friday, whose underlying is the electricity to be delivered in relevant periods from the ninth to the twentieth belonging to the day subject of trading.

60 ter.3 GME shall identify in the Technical Rules the daily products and the corresponding delivery profiles that are subject to trading on the MPEG.

60 ter.4 The duration of the trading period of each product referred to in this Article is defined in the Technical Rules.

60 ter.5 The amount of product underlying each daily product is set by GME in an amount equal to 1 MW multiplied by the number of hours underlying the same product.

Article 60 quater
Market sessions

60 quater.1 GME shall publish on its website the calendar of the days and times of the market sessions. GME may change such hours, also in relation to specific types of contracts, in order to ensure orderly trading, giving timely information to the Participants.

60 quater.2 GME reserves the right to terminate or suspend the market sessions, notifying the Participants.

Article 60 quinquies
Procedures for the conclusion of negotiations

- 60 quinquies.1 Trading on the market takes place on a continuous basis.
- 60 quinquies.2 GME shall organize a trading book for each listed daily product and for each delivery
- 60 quinquies.3 The minimum tradable quantity is equal to 1 (one) product as defined in the Article 60 ter, paragraph 60 ter. 5 above.

Article 60 sexies
Trading offers

- 60 sexies.1 The trading offers shall be submitted in the manner defined in the Technical Rules and contain at least the following information:
- a) the delivery profile of the product;
 - b) the number of products;
 - c) the type of operation (purchase or sale);
 - d) the price.
- 60 sexies.2 Market Participants must submit buy and sale offers/bids with the price indication with reference to:
- a) for the "unit differential price" products, the minimum and the maximum price limit published before the opening of each session;
 - b) for the "full unit price" products, the price limits defined in the Technical Rules.
- 60 sexies.3 Market Participants may not submit offers without price indication.
- 60 sexies.4 In each trading book, the offers/bids are listed, on the basis of the price, in descending order for buy offers/bids and in ascending order offers for sale offers/bids. For the same price, it applies the time priority of placing the offer.
- 60 sexies.5 The trading offers shall be sent based on one of the categories shown in the Technical Rules.
- 60 sexies.6 During the market session, Participants can change or cancel the offers/bids not yet matched. Offers/bids modified lose the time priority previously acquired.
- 60 sexies.7 Offers/bids shall be posted in the book without specifying the proposing Participant, thus ensuring anonymity.

Article 60 septies
Booking of margins of electricity accounts of the PCE

- 60 septies.1 For the submission of the offers/bids on the MPEG, the Market Participant that is enabled to record transactions on the PCE on his/her/its energy accounts makes the reservation of the margins of PCE electricity accounts via the computer system of the electricity market, according to procedures specified in the Technical Rules.

60 septies.2 Margins booked under the previous paragraph 60 septies.1 are updated following the submission of the trading offers/bids referred to in Article 60 sexies, as well as at the conclusion of the transactions in compliance with Article 60 nonies, according the procedures provided in the Technical Rules.

60 septies.3 Margins booked under the previous paragraph 60 septies.1 and not yet committed to offers/bids submitted or transactions already completed during the session may be modified or revoked by the Market Participants as specified in the Technical Rules.

Article 60 octies
Validation and Adequacy Verifications of the bids/offers on the MPEG

60 octies.1 Any bid/offer shall be considered valid and adequate if it satisfies the following requirements:

- a) the Market Participant is not suspended from the ME or from the PCE;
- b) the bid/offer contains all the information referred to in Article 60 sexies, paragraph 60 sexies.1;
- c) the price indicated in the bid/offer is within the limits referred to in Article 60 sexies, paragraph 60 sexies.2;
- d) the amount of the bid/offer is less than or equal to the value of the margins booked and not yet committed as per Article 60 septies;
- e) the bid/offer is guaranteed in accordance with Article 81.

60 octies.2 The GME's information system returns the results of the validation and appropriateness checks of the trading bids/offers referred to in paragraph 60 octies.1 and:

- a) in case of failure, it rejects the placing of offers/bids in its trading book
- b) in the case of success, it enters the offers/bids in its trading book.

Article 60 nonies
Continuous trading

60 nonies.1 During continuous trading, the conclusion of the transaction takes place via automatic buy and sale bids/offers matching, already checked as valid and adequate under the former Article 60 octies, on the book and ranked under the priority criteria referred to in paragraph 60 sexies.4 above.

60 nonies.2 A buy bid/offer will be matched, within the capacity, with one or more sale bids/offers having a price lower than or equal to the one of the offer/bid entered,

60 nonies.3 A sale offer/bid will be matched, within the capacity, with one or more purchase bids/offers having a price greater or equal to the one of the offer/bid entered.

60 nonies.4 Consistent with the procedures for submission of offers/bids referred to in Article 60 sexies, paragraph 60 sexies.5, the partial execution of the offer/bid, turns into the

creation of an offer/bid for the non-executed quantity that shall remain posted on the book with the price and time priority of the original bid/offer.

60 nonies.5 Purchase and sale offers/bids will never match, if they are submitted by the same Participant.

60 nonies.6 For each transaction concluded under terms of paras. 60 nonies.2 and 60 nonies.3, the matching price is the one of the offer/bid having time priority.

Article 60 decies
Registration of net positions on the PCE

60 decies.1 At the end of each trading MPEG session, GME shall determine, for each Participant, the net delivery position onto the PCE, for all the applicable periods included in the relevant daily product traded.

60 decies.2 For each applicable period, the net delivery position is the sum of the purchase and sale transactions, concluded on the MPEG.

60 decies.3 For the purpose of calculating the net position for delivery, the purchase transactions are considered to have a negative sign and the sale transactions have a positive sign.

60 decies.4 The net delivery position for each hour belonging to the day object of delivery, shall be registered by GME onto the PCE, in the manner and the terms defined in the Technical Rules.

60 decies.5 Registration of the transaction onto the PCE under this Article involves the rights and obligations under the PCE Rules related to the Participants holding electricity accounts and the dispatchment users of the offer points involved in the electricity accounts.

Article 60 undecies
Information and results

60 undecies.1 At the end of each trading session of the MPEG, GME shall public in each delivery profile of the daily traded products, at least the following data and information:

- a) the minimum and maximum price;
- b) the reference price of the session;
- c) the volume traded in the session.

SECTION II
OPERATION OF THE FORWARD ELECTRICITY MARKET (MTE)

Article 61
Purpose of the MTE

- 61.1 In the MTE, Participants purchase and sell forward electricity contracts with delivery obligation.
- 61.2 GME is the counterparty of Market Participants for transactions concluded in the MTE.
- 61.3 As Qualified Market Participant in accordance with Annex A to ARERA's Decision 111/06, as subsequently amended and supplemented, GME shall hold a forward electricity account on the PCE, through which it shall register onto the PCE the net delivery position, corresponding to the purchase and sale transactions that the Market Participant has concluded in the MTE, according to the modalities defined in this Section.

Article 62
Types of Tradable contracts

- 62.1 The types of tradable contracts shall be as follows:
- a) Base-Load: the underlying of this contract is the electricity to be delivered in all the applicable periods of the days belonging to the delivery period;
 - b) PeakLoad: the underlying of this contract is the electricity to be delivered in the applicable periods from the ninth to the twentieth day of the days belonging to the delivery period, excluding Saturdays and Sundays;
- 62.2 The tradable contracts shall have a delivery period equal to the calendar month, the quarter and the year.
- 62.3 The duration of the trading period for each contract mentioned in the above paragraph shall be defined in the Technical Rules.
- 62.4 With reasonable advance, GME shall publish a calendar with the types of tradable contracts and the related trading and delivery periods.
- 62.5 The quantity of electricity underlying each contract determined by GME shall be equal to 1 MW multiplied by the hours underlying the same contract.

Article 63
Market Sessions

- 63.1 GME shall publish the calendar of the days and hours of the market sessions on its website. GME may change such hours taking into account, *inter alia*, the specificity of some types of contracts with a view to ensuring an orderly trading activity. GME shall timely notify Market Participants of such changes.
- 63.2 GME reserves the right to close or suspend the market sessions, notifying Market Participants thereof.

Article 64
Conclusion of contracts

- 64.1 Trading in the market shall take place on a continuous basis.
- 64.2 GME shall organise an order book for each type of contract and each delivery period.
- 64.3 The minimum tradable quantity shall be equal to 1 (one) contract, as defined in Article 62, para. 62.5 above.

Article 65
Bids/Offers

- 65.1 Bids/offers shall be submitted in accordance with the modalities defined in the Technical Rules. They shall contain at least the following data:
- a) type and period of delivery of the contract;
 - b) number of contracts;
 - c) type of transaction (purchase or sale);
 - d) price.
- 65.2 Market Participants may also submit bids/offers without a price limit.
- 65.3 Market Participants shall not:
- a) submit bids/offers with a price limit equal to zero or with a negative price limit;
 - b) submit demand bids or supply offers without a price limit, if supply offers or demand bids with a price limit are present in the order book, respectively.
- 65.4 In each order book, demand bids shall be ranked in decreasing price order and supply offers in increasing price order. If bids/offers have the same price, they shall be ranked by time of entry. Bids/offers without a price limit shall have a maximum price priority.
- 65.5 During the market session, Market Participants may modify or cancel the bids/offers that have not yet been matched. The modified bids/offers shall lose the time priority that that they have previously acquired.
- 65.6 Bids/offers shall be posted in the order book without specifying the proposing Market Participants, thereby ensuring their anonymity.

Article 66
Validation and Adequacy Verifications in the Trading Period

- 66.1 A demand bid/supply offer shall be deemed to be valid and adequate, if it meets the following requirements:
- a) the Market Participant is entitled to register transactions in the forward electricity accounts that it holds on the PCE;
 - b) the Market Participant has not been suspended from the ME or from the PCE;
 - c) the price limit and the quantities specified in the bid/offer fall within the limits identified in the Technical Rules. GME may modify such limits in order to ensure an orderly trading activity, notifying Market Participants thereof;
 - d) it is guaranteed in compliance with Article 81 below.

- 66.2 For the purposes of the verification referred to in para. 66.1 d) above, if a bid/offer is submitted without a specified price, its price shall be deemed to be equal to the price of the best proposals of opposite sign that are present in the order book, until the bid/order is exhausted.
- 66.3 GME's information system shall return the results of the validation and technical adequacy verifications of the bids/offers referred to in para. 66.1 above and:
- a) in case of negative outcome, it shall reject the entry of bids/offers into the order book, specifying the reasons for such rejection;
 - b) in case of positive outcome, it shall enter the bids/offers into the order book.

Article 67 **Continuous Trading**

- 67.1 During continuous trading, contracts shall be concluded through automatic matching of bids/offers already verified to be adequate and of opposite sign that are present in the order book and ranked under the priority criteria referred to in Article 65, para. 65.4 above.
- 67.2 The entry of a demand bid with a price limit shall determine the matching of the bid (until it is exhausted) with one or more supply offers having a price lower than or equal to the one of the entered proposal.
- 67.3 The entry of a supply offer with a price limit shall determine the matching of the offer (until it is exhausted) with one or more demand bids having a price higher than or equal to the one of the entered offer.
- 67.4 The entry of a bid/offer without a price limit shall determine the matching of the bid/offer until it is exhausted with one or more bids/offers of opposite sign that are present in the order book upon entry of such bid/offer.
- 67.5 If a bid/offer with a price limit is partially executed, its non-executed part shall create a bid/offer that shall remain posted in the order book with the same price and time priority as the original bid/offer. The partial execution of a bid/offer without a price limit shall cause the cancellation of the bid/offer limited to its non-executed quantity.
- 67.6 Bids/offers of opposite sign shall not be matched, if they are submitted by the same Market Participant.
- 67.7 For each contract concluded under paras. 67.2 and 67.3 above, the price shall be the one of the bid/offer having time priority.
- 67.8 GME may allow each Market Participant to register in the market the forward contracts that it has concluded off the market, under the modalities and within the time limits established in the Technical Rules.
- 67.9 The bids/offers mentioned in para 67.8 above shall be valid if they meet all the requirements of Article 66 above, as well as any additional requirements as may be specified in the Technical Rules.

67.10 At the end of the continuous trading period, GME may determine a reference price, as well as a closing price in accordance with the modalities indicated in the Technical Rules.

67.11 Non-matched bids/offers shall be deleted from the order book at the end of the market session, unless otherwise specified by the Market Participant.

Article 68 Cascading

68.1 Forward contracts of a duration of more than one month shall - at the end of their trading period - be governed by the cascading mechanism, in accordance with the modalities and time limits indicated in the Technical Rules.

68.2 The cascading mechanism shall not apply to monthly contracts, which are governed by the provisions of Article 69 below.

Article 69 Registration of the Net Delivery Position onto the PCE

69.1 At the end of the last trading session of monthly contracts, GME shall determine the net delivery position of each Market Participant for all the hours of the month included in the delivery period of such contracts.

69.1**bis** The Market Participant may - under the procedures and within the time limits established in the Technical Rules - request the registration of the net delivery position on the PCE even earlier than the time limit referred to in the above paragraph.

69.2 For each hour, the net delivery position shall be given by the sum of purchase and sale transactions concluded in the MTE.

69.3 For the purpose of computing the net delivery position, purchase transactions shall be considered to have a negative sign, while sale transactions shall be considered to have a positive sign.

69.4 GME shall register onto the PCE the net delivery position for each hour belonging to the month of delivery, under the modalities and within the time limits defined in the Technical Rules.

69.5 The registration of the net delivery position shall be admitted if the following requirements are met:

- a) the Market Participant has not been suspended from the ME or from the PCE;
- b) it is guaranteed in compliance with Article 81 below;
- c) the Market Participant is entitled to register transactions on the forward electricity accounts that it holds on the PCE;
- d) it satisfies the adequacy verifications referred to in Article 35 of the PCE Rules.

- 69.6 GME's information system shall return the results of the validation and adequacy verifications referred to in para. 69.5 above, and:
- a) in case of negative outcome: *i)* the registration of the net delivery position is rejected, specifying the reasons; *ii)* the capacity of the guarantee may be reduced pursuant to Article 81, paragraph 81.5, subpara f) below; *iii)* the procedure covered by para. 69.7 below shall activate; *iv)* for each MWh of the net delivery position not registered on the PCE, a 2 euro/MWh penalty is applied, according to the modalities and time limits defined in the Technical Rules. In application of the rules established by the Authority with specific resolution, GME shall transfer the amounts deriving from the application of this penalty to the Guarantee Fund;
 - b) in case of positive outcome, it shall permit the registration of the net delivery position, causing the registration onto the PCE of corresponding transactions on the forward electricity accounts indicated by the Market Participant and having GME as counterparty.
- 69.7 In case of failed (partial or total) registration of the net delivery position onto the PCE, GME shall - at the end of the delivery period - assign to the Market Participant a transaction of opposite sign in the MTE; this transaction shall have:
- a) a quantity equal to the electricity that has not been registered onto the PCE;
 - b) a price equal to the average of the PUN (*Prezzo Unico Nazionale* - National Single Price) of the hours belonging to the month of delivery, weighted for the hourly quantities that have not been registered onto the PCE.
- 69.8 The registration of transactions onto the PCE under this Article shall cause the Market Participants holding the electricity accounts and the Dispatching Users of the offer points associated with the electricity accounts to acquire the rights and obligations covered by the PCE rules.

Article 70
Information and results

- 70.1 For each trading session and each contract, GME shall publish at least the following data and information:
- a) minimum and maximum prices;
 - b) reference price of the session;
 - c) volume traded in the session.

TITLE IV
BILLING AND INVOICING OF PAYABLES AND RECEIVABLES ARISING IN THE ME

SECTION I
BILLING OF PAYABLES AND RECEIVABLES ARISING IN THE ME

Article 71
Billing of Accepted Bids/Offers

- 71.1 At the end of each session of the markets making up the ME, GME shall determine the payables and receivables pertaining to each accepted bid/offer. In particular, GME shall determine the values of:
- a) the preliminary hourly injection or withdrawal schedules resulting from the MGP;
 - b) the changes to the preliminary hourly injection or withdrawal schedules resulting from the MI;
 - c) the bids/offers accepted in the MSD pursuant to Article 59, para. 59.2 above;
 - d) the bids/offers accepted in the MTE pursuant to Article 67 above.
 - e) the settlement price determined on the basis of the bids/offers matched on the MPEG and described in Article 60 nonies, paragraph 60 nonies.6 exclusively for the "full unit price" products. Regarding the "unit differential price" products, the settlement price is determined at the closure of the corresponding session of the MGP.
- 71.2 At the end of each session in the MPE, GME shall determine, for each applicable period and separately for the set of offer points available to each Market Participant:
- a) the sum of payables for all bids/offers accepted in the MGP and the MI;
 - b) the sum of payables for all bids/offers accepted in the MSD;
 - c) the sum of receivables for all bids/offers accepted in the MGP and the MI;
 - d) the sum of receivables for all bids/offers accepted in the MSD.
- 71.3 At the end of each session of the MTE, GME shall determine the following payables and receivables, increased by VAT (where applicable), and notify each Participant thereof:
- a) the purchases concluded under Article 67 above;
 - b) the sales concluded under Article 67 above;
 - c) the purchases concluded by GME under Article 93 below;
 - d) the sales concluded by GME under Article 93 below.

71.3 bis At the end of each session of the MPEG exclusively for the "full unit price" products, or at the end of the corresponding session of the MGP for the "unit differential price" products, GME shall determine the corresponding settlement price and shall inform each Participant about the following payoffs, increased by VAT, where applicable:

- a) purchases concluded under the former Article 60 nonies;
- b) sales concluded under the former Article 60 nonies.

71.4 At the end of each invoicing period, GME shall determine the value of the purchases and sales attributed to each Market Participant by GME itself under Article 93 below and notify each Market Participant thereof.

71.4 bis *[repealed]*.

Article 72 **Daily Billing in the MPE**

72.1 For each day, after valuing the amounts and sums referred to in Article 71 above, increased by VAT (where applicable), GME shall determine for each Market Participant and separately for the set of offer points:

- a) the sum, for all the applicable periods, of the amounts referred to in Article 71, para. 71.2 a) above;
- b) the sum, for all the applicable periods, of the amounts referred to in Article 71, para. 71.2 b) above;
- c) the sum, for all the applicable periods, of the amounts referred to in Article 71, para. 71.2 c) above;
- d) the sum, for all the applicable periods, of the amounts referred to in Article 71, para. 71.2 d) above.

72.2 On a daily basis, GME shall notify the Market Participant of the amounts referred to in para. 72.1 above.

Article 73 **Payables and Receivables Pertaining to Terna**

73.1 For each applicable period, GME shall determine the payables and receivables pertaining to Terna and notify Terna thereof. In particular, GME shall determine the values of:

- a) the margins relative to the MGP referred to in Article 44 above;
- b) the margins relative to the MI referred to in Article 54 above;
- c) the margins relative to the MI referred to in Article 55 above;
- d) the margins referred to in Article 55 nonies above, relating to the imbalances in the MI-XBID program.

SECTION II **INVOICING OF PAYABLES AND RECEIVABLES ARISING IN THE ME**

Article 74 **Invoicing Period**

74.1 The invoicing period for the billed payables and receivables arising in the ME shall be specified in the Technical Rules.

Article 75 Invoicing

75.1 For each invoicing period, according to the modalities and within the time periods specified in the Technical Rules, GME shall:

- a) issue invoices for the amounts specified in Article 72, para 72.1 a) and Article 71, para. 71.3 a), para. 71.3 bis a) and para. 71.4 as well as para. 71.4 bis a) above to each Market Participant in debit towards GME, for all the applicable periods included in the invoicing period;
- b) notify each Market Participant in credit towards GME of the amounts referred to in Article 72, para. 72.1 c), Article 71, para. 71.3 b), para. 71.3 bis b) and para. 71.4 as well as para. 71.4 bis b) above, for all the applicable periods included in the invoicing period;
- c) notify Terna of the amounts relative to the margins referred to in Article 73 above for all the applicable periods included in the invoicing period, for invoicing purposes;
- d) issue invoices to each Market Participant for the fees due for the MWh traded as per Article 7, para. 7.1 above.

75.2 [repealed]

75.3 Following the notifications covered by para. 75.1 b) above, Market Participants shall issue invoices to GME for the specified amounts.

75.4 The time periods and formalities for issuing invoices to GME, as set forth in para. 75.3 above, for the purposes of the provisions of Article 82 below, shall be specified in the Technical Rules.

75.5 The invoices and notifications referred to in paras. 75.1 and 75.3 above shall be provided to Market Participants by electronic means according to the modalities set forth in the Technical Rules.

75.6 The time limits and modalities of invoicing concerning the defaulting Market Participant under Article 88, para. 88.2 a) below shall be defined in the Technical Rules.

Article 76 Invoice Contents

76.1 For each applicable period included in the invoicing period and for each session of the markets making up the MGP, MI and MSD, the invoices and notifications referred to in Article 75, paras. 75.1 and 75.3 above, shall include at least the following data, where applicable:

- a) the quantities of electricity relative to accepted bids/offers;
- b) the price at which the quantities mentioned in subpara. a) above are valued;
- c) the type of contract traded;
- d) the taxes applied;

e) the total amount.

76.2 For each applicable delivery period included in the invoicing period and for each session of the MTE and the MPEG, the invoices and notifications referred to in Article 75, paras. 75.1 and 75.3 above, shall include at least the following data, where applicable:

- a) the type of traded contracts;
- b) the quantities of electricity pertaining to the transactions concluded;
- c) the price at which the contracts mentioned in subpara. a) above are valued;
- d) the taxes applied;
- e) the total amount.

76.2 *bis* [repealed]

76.3 The provisions of paras. 76.1 and 76.2 above shall not apply to the invoices mentioned in Article 75, para. 75.1 d) above.

76.4 The invoices referred to in Article 75, para. 75.1 d) above shall include at least the following data:

- a) the quantities of electricity relative to accepted bids/offers;
- b) the fees applied for the MWh traded;
- c) the taxes, where applied;
- d) the total amount.

Article 77

Application of Fees for Services Provided by GME

77.1 The access fee, referred to in Article 7, para. 7.1 above, shall be invoiced in accordance with the modalities and within the time limits defined in the Technical Rules increased by VAT, where applicable.

77.2 The yearly fixed fee, referred to in Article 7, para. 7.1 above, shall be invoiced in accordance with the modalities and within the time limits defined in the Technical Rules and increased by VAT, where applicable.

TITLE V
GUARANTEE SYSTEMS, SETTLEMENT OF PAYMENTS AND DEFAULT

SECTION I
GUARANTEE SYSTEMS

Article 78
Treasury Services

78.1 GME shall entrust its treasury services to a leading bank or financial institution.

Article 79
Financial Guarantees of Market Participants

79.1 In order to cover the obligations that they intend to take on the energy markets, Market Participants shall post financial guarantees which may be cumulated with one another, in the form of first-demand bank guarantees in accordance with the provisions of this paragraph 79.2 below, according to:

a) Annex 3 of the Rules, if they intend to operate on the netting markets of the ME, on the MPEG and on the MTE;

b) Annex 5 or, alternatively or cumulatively, according to Annex 3, of the Rules, if they intend to operate on the netting markets of the ME and on the MPEG.

79.2 First-demand bank guarantees must be issued by banking institutions which are members of the bank register ("Albo") referred to in Article 13 of Legislative Decree 1 September 1993, no. 385, and which have a long-term rating, attributed by at least one of the following rating companies: Standard & Poor's Rating Services, Moody's Investor Service, Fitch and DBRS. The rating shall not be lower than BBB- of the Standard & Poor's scales or Fitch or Baa3 of the scale of Moody's Investor Service or to BBB low of the DBRS scale.

79.3 Alternatively to or cumulative to guarantees posted in the form of a bank guarantee, participants may post guarantees in the form of a non-interest bearing cash deposit to be paid into the bank account held by GME at the treasury institute in accordance with the provisions of the Technical Rules. PA Participants shall post guarantees exclusively in the form of a non-interest-bearing cash deposit to be paid into the bank account held by GME at the treasury institute referred to in Article 78 above in accordance with the provisions of the Technical Rules.

79.4 Market Participants that have posted guarantees in the form of bank guarantees or in the form of a deposit shall allocate the amount of such guarantees under the modalities defined in the Technical Rules.

79.5 If the Market Participant is also a participant of the PCE, in order to cover the obligations arising from the submission of registration applications on the PCE, it may use a share of the guarantees referred to in paragraphs 79.1 and 79.3 above, according to the allocations communicated pursuant to paragraph 79.4 above.

79.6 If the Market Participant is also a MGAS participant:

- a) the share of the guarantees posted pursuant to paragraphs 79.1 and 79.3 above, intended to cover the obligations taken on the netting markets of the ME, according to the allocations notified pursuant to paragraph 79.4 above, is automatically considered also to cover the obligations on the netting markets of the MGAS;
- b) the share of the guarantees posted in accordance with Annex C and/or Annex E, as well as in the form of a non-interest bearing cash deposit, as per the MGAS Rules, intended to cover the obligations taken on the netting markets of the MGAS, according to the allocations notified pursuant to the MGAS Rules are automatically considered also to cover the obligations on the netting markets of the ME;
- c) it may allocate part of the guarantees referred to in paragraph 79.1, subpara. a) above (Annex 3 of the Rules) and paragraph 79.3 above, according to the allocations referred to in paragraph 79.4 above, to cover obligations arising on the MTGAS;
- d) it may allocate part of the guarantees posted according to Annex C, as well as in the form of a non-interest-bearing cash deposit, of the MGAS Rules to cover the obligations arising on the MPEG and on the MTE, according to the modalities and terms indicated in the Technical Rules of the MGAS Rules related to the allocation of guarantees;
- e) it may allocate part of the guarantees posted according to Annex E, as well as in the form of a non-interest-bearing cash deposit, of the MGAS Rules to cover obligations arising on the MPEG, according to the modalities and terms indicated in the Technical Rules of the MGAS Rules concerning the allocation of guarantees.

79.7 In the case of a bank guarantee, if the bank issuing the guarantee is subject to control as per Art. 2359, paras. 1 and 2, of the Italian Civil Code and does not meet the requirements set forth in para. 79.2 above, then the guarantee issued by such bank shall be supported by a statement issued by its controlling company. In such statement, the controlling company, which shall meet the requirements specified in paras. 79.2 above, shall undertake the following obligations:

- a) if a change takes place in the structure of the company and such change is such as to involve the loss of control as per art. 2359, paras. 1 and 2 of the Italian Civil Code, then the company shall timely notify GME thereof;
- b) if, when receiving a request for enforcing the bank guarantee, the issuing bank is in default or in the position referred to in subpara. a) above, then the company shall guarantee the fulfilment of the obligation undertaken by its controlled company.

79.8 If the bank issuing the guarantee or the controlling company that has issued the statement mentioned in para. 79.7 above no longer meets one or both of the requirements specified in para. 79.2 above, or if the controlling company loses the control of the bank issuing the bank guarantee as per art. 2359, paras. 1 and 2, of the Italian Civil Code, then the bank guarantees issued by such bank shall remain valid until the end of the time period specified in the Technical Rules.

79.9 The bank guarantee and the statement mentioned in para. 79.7 above shall be submitted to the treasury institute referred to in Article 78 above.

- 79.10 By the end of the working day following the one on which the bank guarantee and the statement mentioned in para. 79.7 above have been submitted, the treasury institute shall verify whether the guarantee is complete and conforms to the format attached hereto, whether it has been issued by a bank meeting the requirements specified in para. 79.1 above and whether the statement issued by the controlling company has the content referred to in paras. 79.7 a) and b) above.
- 79.11 Within the time period specified in para. 79.10 above, the treasury institute shall notify the Market Participant and GME of any deficiencies noted upon the verification of the submitted bank guarantee or of the statement mentioned in para. 79.7 above.
- 79.12 If the verification has a positive outcome, the treasury institute shall notify GME, within the time period specified in para. 79.10 above, of the amount covered by the bank guarantee and of the start of the period of validity of the guarantee and of the statement mentioned in para. 79.7 above.
- 79.13 The Market Participant may dispute the results of the verification carried out by the treasury institute by filing an appeal with the Court of Arbitration pursuant to Article 131 below.
- 79.14 The amount covered by the bank guarantee and by the statement referred to in para. 79.7 above shall be valid and effective within the second working day following the day on which GME has received the notification referred to in para. 79.12 above.
- 79.15 The amount guaranteed by the non-interest-bearing cash deposit shall be valid and effective within the second working day following the one on which such deposit has been credited to GME's bank account with the treasury institute. The deposit shall be deemed to have been credited to GME's bank account on the date and at the time recorded by the information system of the GME's treasury institute.

Article 80
Amount of the Guarantee

- 80.1 The amount of the guarantee (whether a bank guarantee or a non-interest-bearing cash deposit taken into consideration for the adequacy verification is determined by the Market Participant based on the bids/offers it wishes to submit.
- 80.2 The Market Participant that has posted bank guarantees in accordance with Annex 3 may at any time request the modification of the guaranteed amount, by submitting an updating letter in the format of Annex 4 hereto or a new bank guarantee to the treasury institute. The Market Participant that has posted bank guarantees in accordance with Annex 5 may at any time request the modification of the guaranteed amount or of the period of validity and effect of the guarantee, by submitting an updating letter compliant with the Annex to the Rules (Annex 6) or a new bank guarantee to the treasury institute.

- 80.3 By the end of the working day following the presentation of the letter updating the bank guarantee, the treasury institute shall verify whether the letter conforms to the specified format.
- 80.4 Within the time limit specified in para. 80.3 above, the treasury institute shall notify the Market Participant and GME of any deficiencies noted upon the verification of the submitted updating letter.
- 80.5 If the verification has a positive outcome, the treasury institute shall notify GME, within the time limit referred to in para. 80.3 above, of the new guaranteed amount and of the date from which the new value shall apply.
- 80.6 The new bank guarantee and the updating letter shall be verified according to the provisions contained in Article 79 above.
- 80.7 Without prejudice to para. 80.8 and 80.8 bis below, the modification of the guaranteed amount shall take effect within the second working day following that on which GME receives the notification referred to in paragraph 80.5 above; or from the date specified by the Market Participant in the notification referred to in paragraph 80.5 above, provided that such date falls after the second working day following that on which GME receives such notification.
- 80.8 If the request for modification referred to in para. 80.2 above concerns a reduction of the amount guaranteed, or the advance of the period of validity and effect thereof, in the case of bank guarantees submitted in the format of Annex 5 hereto, the acceptance of such request shall be subject to a verification by GME. GME shall verify whether the requesting Market Participant is in debit towards GME. If the Market Participant is not in debit, GME shall notify the Market Participant of the immediate validity of the requested modifications for the purposes of the adequacy verifications.
- 80.8 bis The Market Participant may at any time request the return of the bank guarantee posted pursuant to the provisions of this Rules. The acceptance of this request is subject to GME's positive verification of the amounts for which the requesting Market Participant is a debtor. If the verification is positive, GME shall notify the Market Participant of the immediate validity of the requested modifications for the purposes of the adequacy verifications. GME shall return the bank guarantee in accordance with the procedures provided for in the Technical Rules.
- 80.9 The Market Participant may at any time request the modification (increase or decrease) of the amount of the guarantee posted in the form of a cash deposit. The Market Participant may ask for refund (even partial) of the deposited amount provided that, through this modification, the Market Participant's position is entirely guaranteed. If the verification is positive, the reduction of the guaranteed amount will be immediately valid for the purposes of adequacy verifications. GME will refund the deposit as provided for in the Technical Rules. If the Market Participant requests an increase of the amount of the guarantee, it shall deposit the related amount into the account held by GME with the treasury institute, according to the modalities described in the Technical Rules. After verifying whether the Market Participant's deposit has been credited to its bank account, GME shall modify the guaranteed amount with validity and effect within the second working day following the one on which such deposit has been credited. The amount so credited shall be deemed to

have been received on the date and at the time recorded by the information system of the treasury institute.

Article 81

Available Amount of the Guarantee for Purposes of Adequacy Verification

- 81.1 GME shall determine and update the available amount of the guarantee, considering the allocation made by the Market Participant pursuant to Article 79, paragraphs 79.4 and 79.6 above, in accordance with the modalities and time limits defined in the Technical Rules.
- 81.2 If the guarantee, updated under the modalities indicated in the Technical Rules, is not sufficient, the Market Participant shall adjust the guaranteed amount in accordance with the modalities and within the time limits defined in the Technical Rules. Pending the adjustment of the guaranteed amount, the Market Participant:
- a) shall not be allowed to conclude negotiations which determine the increase in the Market Participant's exposure towards GME, as per Technical Rules ;
 - b) *[repealed]*
- 81.3 If the Market Participant does not adjust the guaranteed amount as per para. 81.2 above, GME shall apply the default procedure referred to in Section III below.
- 81.4 Repealed
- 81.5 GME shall determine and update the available amount of the guarantee and carry out the adequacy verifications in accordance with the modalities defined in the Technical Rules, under the following principles:
- a) in order to establish an adequate maintenance margin, the amount of the guarantees is reduced by an amount determined according to the modalities and terms defined in the Technical Rules;
 - b) repealed
 - c) the bids/offers submitted into the MGP, MI and MPEG are adequate if the guarantees totally cover the payables arising therefrom;
 - d) the demand bids and supply offers submitted into the MTE are adequate if the guarantees partially cover the payables/receivables arising therefrom, as indicated in the Technical Rules;
 - e) if the registration of the net delivery position onto the PCE concerns a purchase, it is adequate if the guarantees totally cover the related value;
 - f) if the net delivery position cannot be registered onto the PCE as per Article 69, para. 69.5 above, GME may decrease the available amount of the guarantee;
 - g) *[repealed]*.
 - h) upon the occurrence of Market Participant's activity on the netting markets, the capacity of the guarantee considered for the adequacy verifications of the bids/offers submitted on the MGP and on the MI is determined taking into account, as a whole, also the operations on the MPGAS pursuant to the MGAS Rules.
- 81.6 For the purposes of the technical adequacy verifications in the MTE, GME may define:
- a) the relevant check price for each contract traded in the MTE; this price is daily determined on the basis of bids/offers submitted and/or concluded in the MTE;

GME may determine the MTE check price also on the basis of procedures that involve Market Participants;

- b) a parameter α , which is determined on the basis of the volatility of the prices of the traded contracts;
- c) a parameter β , which is determined on the basis of the correlation between the prices of the base-load and peak-load contracts;
- d) a parameter γ , which is determined on the basis of the correlation of prices between the different delivery periods.

81.6 bis For the purposes of the adequacy verifications on the MPEG, GME defines the check price parameter.

81.7 The values of the parameters α , β and γ shall be defined in the Technical Rules.

81.8 The amounts referred to in the above paragraphs, which shall be taken into consideration upon the technical adequacy verification, shall not include the fees specified in Article 7, para. 7.1 above.

SECTION II SETTLEMENT OF PAYMENTS

Article 82 Clearing

82.1 The *settlement* period is defined by GME in the Technical Rules.

82.2 For each *settlement* period and each Market Participant, GME shall determine, in accordance with the modalities and within the time limits specified in the Technical Rules, the following separate net financial positions of debit or credit towards GME, relating to:

- a) the balance of the payables or receivables arising from purchase and sale transactions concluded on MGP and MI or on netting markets if the participant is also admitted to the MGAS;
- b) the balance of the payables or receivables arising from purchase and sale transactions concluded on MPEG;
- c) the balance of the payables or receivables arising from purchase and sale transactions concluded on MTE.

82.3 GME shall communicate to each Market Participant, according to the formalities and within the time periods specified in the Technical Rules, the results of the determination of the amounts referred to in para. 82.2 above, which form the basis for making payments according to the provisions and within the time limits specified in Article 83 and 86 below.

Article 83 Payments from Market Participants to GME

83.1 As a result of the determinations referred to in Article 82 above:

a) non PA Market Participants, debtors of GME shall settle with the GME's treasury institute the amounts due to GME, notified by GME under Article 82, para. 82.3 above), according to the procedures and within the time limits specified in the Technical Rules.

b) GME satisfy its receivables due by debtors PA Market Participants in accordance with the procedures and within the time limits defined in the Technical Rules utilizing their available cash deposit provided as per Article 79, para.79.3 above, until reaching the amount of such receivables.

83.2 If the payment of the amount due is non settled with the GME's treasury institute in accordance with the modalities referred to in para. 83.1 above, Market Participants qualifying as debtors towards GME may pay the amount due, after adding to such amount the default interest to be determined under the criteria indicated in Article 91 below and a penalty equal to one per cent of the amount due, according to the provisions and within the time periods specified in the Technical Rules. In application of the provisions of the Authority, GME shall transfer the amounts deriving from the application of the default interest and the penalty referred to above to the guarantee fund.

83.3 If the payment of the amount due in accordance with the modalities set out in para. 83.2 above is not totally settled, GME shall apply the default procedure referred to in Section III below.

Article 84

Payments from Market Participants to Terna

84.1 Payments from Market Participants that qualify as debtors towards Terna shall be made under the procedures and within the time limits established by Terna itself.

Article 85

Payments of Fees

85.1 The amounts specified in Article 75, para. 75.1 d) and Article 77 above shall be paid in accordance with the procedures and within the time limits specified in the Technical Rules.

Article 86

Payments from GME to Market Participants

86.1 Payments to Market Participants that qualify as creditors towards GME as a result of the determinations referred to in Article 82 above, shall be made according to the provisions of this Article.

86.2 After receiving the payments referred to in Article 83, para. 83.1 above, GME shall make payments to Market Participants that qualify as creditors towards GME after the determinations referred to in Article 82 above, in accordance with the modalities and within the time limits established in the Technical Rules.

86.3 After receiving the payments referred to in Article 83, para. 83.2 above, GME shall make payments to Market Participants that qualify as creditors towards GME after the

determinations referred to in Article 82 above, in accordance with the modalities and within the time limits established in the Technical Rules.

- 86.4 After receiving the payments referred to in Article 83, para. 83.3 above, GME shall make payments to Market Participants that qualify as creditors towards GME after the determinations referred to in Article 82 above, in accordance with the modalities and within the time limits established in the Technical Rules.
- 86.5 If, by its own fault, GME fails to make payments to creditor Market Participants within the time periods provided for in this Article, GME shall pay interest to such Market Participants at the rate posted on GME's website.

Article 87
Payments from Terna to Market Participants

- 87.1 Payments in favour of Market Participants that are creditors towards Terna shall be made according to the procedures and within the time periods established by Terna itself.

SECTION III
DEFAULT

Article 88
Cases of Default by the Market Participant

- 88.1 A Market Participant of the MGP and MI or netting markets shall be in default, if it:
- a) does not adjust the guarantee as per Article 81 above;
 - b) has not made the payments to GME in accordance with Article 83, para. 83.3 above.
- 88.1bis The Market Participant of the MPEG, shall be in default if it:
- a) does not adjust the guarantee as per Article 81 above;
 - b) has not made payments to GME, in accordance with Article 83, paragraph 83.3 above.
- 88.2 A Market Participant of the MTE shall be in default, if:
- a) it has not adjusted the guarantee as per Article 81 above;
 - b) it has not made payments to GME as per Article 83, para. 83.3 above.

Article 89
Management of Default

- 89.1 In the cases of default referred to in Article 88, GME
- a) shall suspend the Market Participant from the ME and the MGAS, if it is also admitted to the MGAS;
 - b) shall enforce the guarantees posted under Section I of this Title;
 - c) shall close all the contractual positions of the defaulting Market Participant in the MTE under Article 93 below, as well as the contractual positions of the MGAS, according to the provisions of the MGAS Rules, if it is also a MGAS participant;

- d) may register the net delivery position onto the PCE even for the applicable periods in respect of which the delivery has not yet been made under Article 69 above.

89.2 If the guarantees enforced in compliance with para. 89.1 b) above are insufficient to cover the debit of the defaulting Market Participant or if the bank issuing the guarantee defaults on its obligations under Article 92 below, or under MGAS Rules, GME shall contribute to covering the debits of the defaulting Market Participants or the default by the bank issuing the guarantee by utilizing, in the following order:

- a) the Guarantee Fund, according to the modalities and time limits defined in the Technical Rules;
- b) its own funds, up to a maximum amount to be established on a yearly basis and allocated for such purpose. This amount shall be established by the Minister of Economic Development at the proposal of GME and posted on GME's website.

89.3 If the amounts utilized by GME as per para. 89.2 above are insufficient to cover the debits of the defaulting Market Participants or the default by the bank issuing the guarantee, GME shall - for the uncovered portion - resort to the risk pooling mechanism defined by Authority. In this case, GME will grant payments to Market Participants for the part of the credit not fulfilled pursuant to the Article 86, paragraph 86.4 above, only once the amounts arising from the application of the aforementioned risk pooling mechanism have been collected. Creditors may not claim any rights or make any claims against GME for the part of the credit not yet fulfilled.

89.4 GME shall initiate the ordinary judicial proceedings needed to recover the amounts due by the defaulting Market Participant or by the bank issuing the guarantee. The possibly recovered amounts shall be allocated to restore the amounts used by GME to cover debts according to the following order:

- a) the amounts used through the risk pooling mechanism referred to in paragraph 89.3 above;
- b) own funds as per the previous paragraph 89.2, subpara. b);
- c) the amounts withdrawn from the Guarantee Fund referred to in paragraph 89.2, subpara a).

89.5 Without prejudice to the provisions of the specific agreements referred to in Article 15, paragraph 15.2 above, in the event of default by the Market Participants by right pursuant to Article 15 above, GME shall use, according to the procedures and time limits regulated in a specific provision, the Guarantee Fund or, in the event of insufficiency of the latter, the risk pooling mechanism defined by ARERA.

Article 90 ***Suspension of the Market Participant***

90.1 Without prejudice to paragraph 90.2 below, GME revokes the suspension of the Market Participant referred to in Article 89, para. 89.1 above, if the cause for the related suspension ceases to exist.

90.2 Six months after the suspension of the Market Participant, GME shall exclude the same Participant from the ME and the MGAS, if it is also admitted to the MGAS.

Article 91
Default Interest and Penalties

- 91.1 In case of enforcement of the guarantees, the amount owed by the Market Participant in debit shall be increased by a penalty equal to one per cent, by default interest as specified in para. 91.2 below, as well as by the related enforcement fees, if the guarantee has been posted in the form of a bank guarantee.
- 91.2 Default interest shall be determined by applying the legal interest rate to the amount owed by the Market Participant for a number of days equal to:
- a) the number of days of late payment, if the Market Participant pays within the time limits specified in Article 83, para. 83.2;
 - b) the number of days elapsing from the deadline specified in Article 83, para. 83.1 above to the day on which the bank issuing the guarantee pays GME the amount of the enforced guarantee if the bank guarantee is enforced.
- 91.3 The payment of the penalty of one percent shall not apply to the Market Participants specified in Article 15, in the cases of late payment referred to in Article 83, para. 83.2 above, or of failure to make the payment.

Article 92
Default by the Bank Issuing the Guarantee

- 92.1 If the guarantee has been posted in the form of a bank guarantee and, after receiving a request for enforcement of the bank guarantee, the bank issuing the guarantee fails to make the consequent payment within the time limit indicated therein, such bank guarantee as well as the other bank guarantees issued by the same bank shall remain valid until the time limit established in the Technical Rules.
- 92.2 If, after receiving a request for enforcement of the bank guarantee, the bank issuing the guarantee fails to make the consequent payment within the time limit indicated therein, GME shall not accept any new bank guarantee issued by the same bank for the purposes of Article 79 above. If the bank issuing the guarantee fulfils its guaranteed obligation after the time limit indicated therein, GME may not accept the new bank guarantees issued by the same bank for the purposes of Article 79 above, up to a maximum period of twelve months from the date of the late fulfilment.

Article 93
Closing of the Positions of the Market Participant

- 93.1 In the case of default referred to in Article 88, paras. 88.2 a) and b) above, GME shall close all the contractual positions of the defaulting Market Participant through transactions of opposite sign with the same Participant and conclude transactions in the MTE or MGP, in accordance with the modalities and time limits defined in the Technical Rules.

TITLE VII
PENALTIES, COMPLAINTS AND DISPUTES IN THE MARKET

SECTION I
BREACHES AND PENALTIES

Article 111
Breaches of the Rules and Technical Rules

- 111.1 The following behaviours shall be considered as breaches of the Rules and of the Technical Rules:
- a) negligence, imprudence and unskilfulness in the use of the systems of communication and submission of bids/offers;
 - b) vexatious use of the complaint procedures defined in Section II below of this Title;
 - c) disclosure to third parties of confidential information related to the Market Participant or third Market Participants, in particular as regards the codes of access to GME's information system, any other data pertaining to such access and the contents of bids/offers submitted by third Market Participants to GME, except in the fulfilment of obligations arising from laws, regulations or decisions of competent authorities;
 - d) any attempt to access restricted areas of GME's information system;
 - e) any use for fraudulent purposes of the systems of communication and submission of bids/offers;
 - f) any other conduct contrary to common principles of honesty and good faith referred to in Article 3, para. 3.3 above.

Article 112
Penalties

- 112.1 If the breaches referred to in Article 111 above are shown to exist, GME may - respecting the principles of impartiality and equality of treatment and bearing in mind the seriousness of the breach and any previous occurrences - impose the following penalties on Market Participants on the basis of the scale referred to in Article 113 below:
- a) a private written notice of the violation;
 - b) a financial penalty;
 - c) the suspension of the Market Participant from the market;
 - d) the exclusion of the Market Participant from the market.
- 112.1 bis If it's taken the penalty and it has not been paid by the participant within six months from the date of notice of such penalty, GME may also suspend the participant from the market until the full payment of the fine previously implemented.
- 112.2 In case of suspension or exclusion from the market, the Market Participant involved may - under the supervision of GME - close any transaction still in progress and carry out any other transaction unavoidably connected with the same.

- 112.3 If a breach is identified, GME shall serve a notice to the Market Participant. The notice shall include:
- a) a description of the alleged breach;
 - b) a deadline of at least ten days for the Market Participant to possibly submit pleadings and documents and request a hearing.
- 112.4 If the Market Participant requests a hearing or if GME deems it necessary, GME shall set the date of the same and promptly notify the Market Participant thereof. If the Market Participant does not appear at the hearing and the hearing is not postponed to another date for justified reasons, GME shall make a decision on the basis of the collected evidence. In case of postponement of the hearing, this cannot in any case take place after the tenth day following the date originally set for the same.
- 112.5 Based on the collected evidence, GME shall impose a penalty or dismiss the case within thirty days from the hearing or if the latter has not been requested or has not been deemed necessary by GME, within thirty days from the notice referred to in paragraph 112.3.
- 112.6 Where the alleged breaches are such as to seriously threaten the proper operation of the market, GME shall, on a precautionary basis, suspend the Market Participant from the market for the period of time necessary to examine the case.
- 112.7 The penalty, properly supported, or the decision to dismiss the case shall be notified to the Market Participant concerned. Any penalty implemented shall be notified to the Ministry of Economic Development.

Article 113
Graduation of Penalties

- 113.1 Where the breaches are due to the fault of the Market Participant, GME may impose the following penalties:
- a) a private written notice of the violation;
 - b) suspension from the market for a minimum period of five days and a maximum period of one month. In case of recurrence of the violation, the suspension from the market shall be of one month.
- 113.2 If the breaches mentioned in para. 113.1 above have caused disturbances to the proper functioning of the market, GME may suspend the participant from the market for a minimum period of one month and a maximum period of one year. In case of recurrence of the violation, the suspension from the market shall be of one year.
- 113.3 If the breach is due to the intentional wrongdoing of the Market Participant, GME may impose the following penalties:
- a) suspension from the market for a minimum period of six months and a maximum period of eighteen months. In case of recurrence of the violation, the suspension from the market shall be of eighteen months.
 - b) exclusion from the market.

- 113.4 If the breaches mentioned in para. 113.3 above have caused disturbances to the proper functioning of the market, GME may impose the following penalties:
- a) suspension from the market for a minimum period of eighteen months and a maximum period of three years. In case of recurrence of the violation, the suspension from the market shall be of three years.
 - b) exclusion from the market.
- 113.5 As an alternative to the suspension from the market referred to in paras. 113.1 a), 113.2, 113.3 a) and 113.4 a), GME may impose a financial penalty of a minimum of fifty thousand/00 Euro and of a maximum of one hundred million/00 Euro, determined based on the size and severity of the damage resulting from the breach. If the participant has failed to make the payment of the penalty within six months from the date of notice of such disciplinary measure, GME may also suspend the participant from the market until the date of payment of the penalty previously implemented.

Article 114

Suspension for Non-Fulfilment of Notification Obligations and Non-Payment of Fees

- 114.1 Apart from the cases provided for in Articles 90 and 113 above, GME shall suspend the Participant from the market or impose the financial penalty referred to in Article 113, para. 113.5 in the following cases:
- a) where the Market Participant does not fulfil his/her/its obligation of notification as per Article 19, para. 19.1 above or the information disclosed pursuant to Article 19, paragraph 19.1 does not allow GMW to find the Participant or the latter does not supply the information or the documents required pursuant to Article 18, paragraph 18.2 above. The suspension shall have effect until the date on which GME receives the notice in Article 19, paragraph 19.1 above or the information or document in Article 18, paragraph 18.2 above or until the date on which the participant can be found based on the information disclosed pursuant to Article 19, paragraph 19.1 above;
 - b) where the Market Participant fails to pay the fees specified in Article 7, paras. 7.1 and 7.2 above, according to the provisions of Article 75, para. 75.1 d), Article 77 and Article 100 above. The suspension shall have effect until the date on which the Market Participant fulfils such obligation and, anyway, for a period not exceeding six months; if, upon the expiration of such period, the Market Participant has not paid the fees, the Market Participant shall be suspended from the market.
- 114.2 At the request of Terna, GME shall suspend the Market Participant from the market, if the same Market Participant defaults towards Terna.
- 114.3 Article 114, para. 114.1 b) shall not apply to the Market Participants referred to in Article 15 above.

Article 115
Publication of Penalties

- 115.1 GME shall announce anonymously the implementation of the disciplinary measures referred to in Article 112, paragraph 112.1, subparagraphs b), c) and d), by publishing the same, with the exception of the confidential parts, on its website, after at least thirty days from the notification of the disciplinary measure to the participant concerned, unless the case has been brought forward to the Arbitration Board. In the latter case, the implementation of the disciplinary measures is made public only if confirmed by the Arbitration Board.

Article 116
Challenging Denial of Admission to the ME and Penalties

- 116.1 Without prejudice to Article 132 below, the applicant or Market Participant may file an appeal with the Court of Arbitration against the denial of admission to the market or the penalties imposed under Article 112, para. 112.1 above. The arbitration procedure shall - under penalty of lapse - be initiated within thirty days from the related notice of the relevant denial measure or the penalty.

SECTION II
COMPLAINTS PERTAINING TO THE MARKET AND TO THE NOMINATION PLATFORM

SUBSECTION I
COMPLAINTS PERTAINING TO THE MPE AND TO THE PN

Article 117
Submission Formalities and Minimum contents of the Complaints regarding the outcome of the validity check and the adequacy verification, the market result, and the billing procedures

- 117.1 Complaints relating to the outcomes and the verifications referred to, respectively, in Article 29 and 30 above, to the result of each of the MPE markets, as well as the other billing procedures referred to in Article 71, paragraphs 71.1, 71.2, 71.3 bis, 71.4 and Article 72 above, shall be submitted, under penalty of inadmissibility, in electronic form within the time limits set forth in this Section and using the appropriate forms available in GME's information system.
- 117.1bis The complaints relating to the results of the validation and verifications referred to, respectively, in the preceding Articles 55sexies and Article 55septies, relating to requests for registration of hourly PN nominations, are sent, under penalty of inadmissibility, electronically, within the terms indicated in this Chapter and using specific forms available in GME's IT system.
- 117.2 All complaints shall include, under penalty of inadmissibility, the following elements:
- a) identification code of the disputed bid/offer, or the request for registration of the hourly PN nomination, as assigned by GME's information system;
 - b) decision of GME which is being disputed;
 - c) concise description of the grounds for the complaint.

Article 118

Complaints about Results of Validation and Technical Adequacy Verification of Bids/Offers as well as requests for registration of the hourly PN nominations

- 118.1 The Market Participant may dispute the results of the validation and verifications referred to in Articles 29 and 30 above, by sending a notification to GME;
- a) by 16:00 of the second working day following the one on which such results are notified to the Market Participant, if the complaints concern the MGP, the MI-A sessions and the MSD
 - b) within 60 minutes of GME's decision if the complaints relate to the continuous trading of the MI-XBID.
- 118.1bis The Market Participant may contest the results of the validations and verifications referred to, respectively, in the previous Article 55sexies and Article 55septies, by sending a communication to GME within 60 minutes of GME's decision.
- 118.2 The Participant may dispute the results of the checks and verifications referred to in Article 60 *octies*, by sending a notification to GME within 60 minutes from the decision of GME.

Article 119

Complaints about Market Results

- 119.1 The Market Participant may dispute the results of the MGP, of the MI-A sessions and of the MSD, namely the results of the process of acceptance of bids/offers and of determination of the prices at which they have been valued, by sending a notification to GME by 16:00 of the second working day following the one on which such results are notified to the Market Participant.
- 119.1bis The Market Participant may contest the result of the MI-XBID continuous trading sessions, in relation to the outcomes of the process of accepting offers and determining the prices at which these offers are valued, by sending a communication within 60 minutes of GME's actual decision.
- 119.2 The Market Participant may dispute the outcome of the MPEG, namely the results of the process of acceptance of bids/offers and those determining the unit differential price to which such offers/bids are valued, by sending a notice within 60 minutes from the decision of GME.

Article 120

Complaints about Billing Procedures

- 120.1 The Market Participant may dispute the results of the billing process referred to in Title IV, Section I above, by sending a notification to GME by 16:00 of the second working day following the one on which such results are notified to the Market Participant.

Article 121

Complaints about Invoicing and Settlement Procedures

- 121.1 The Market Participant may dispute the results of the invoicing procedures referred to in Title IV, Section II, or the settlement determinations referred to in Title V, Section II, by sending a notification to GME, under penalty of inadmissibility, according to the modalities and within the time limits defined in the Technical Rules.
- 121.2 In the case referred to in paragraph 121.1 above, GME shall undertake the actions in accordance with the procedures and within the time limits specified in the Technical Rules. Default interest shall be paid on the amounts payable after complaint resolution; the extent of the interest shall be calculated according to the provisions of Article 91 above.

Article 122

Complaints Resolution

- 122.1 GME shall notify the Market Participant concerned of the outcome of the verifications of the complaints specified in Articles 118, 119, 120 and 121 above, by 16:00 of the second working day following the deadline for submission of such complaints.
- 122.2 Where the Market Participant brings a complaint as specified in Articles 118 and 119 above, in respect of a bid/offer that has been deemed to be invalid, inadequate or rejected in the MGP or in the MI-A sessions, and such complaint is upheld because GME is responsible for errors or omissions, and such bid/offer would have been accepted in the absence of GME's disputed decision, then GME shall only pay to such Market Participant a compensation equal to the product, if positive, between the quantity specified in the bid/offer and:
- a) the difference between the balancing-up charges, determined under the applicable provisions, and the price resulting from the market to which the bid/offer refers, if the complaint refers to a demand bid;
 - b) the difference between the price resulting from the market to which the bid/offer refers and the balancing-down charges, determined under the applicable provisions, if the complaint refers to a supply offer and for a maximum amount of EUR one hundred thousand/00.
- 122.3 Where a complaint brought as specified in Articles 118 and 119 above, in respect of a bid/offer that has been deemed to be invalid, inadequate or rejected in the MSD, is upheld because GME is responsible for errors or omissions, and such bid/offer would have been accepted in the absence of GME's disputed decision, then GME shall only pay to the Market Participant concerned a compensation equal to the damage actually incurred and adequately documented by the Market Participant. Anyway, the compensation shall not exceed five per cent of the additional amounts that would have accrued from such bid/offer in the Electricity Market in the absence of such errors or omissions and for a maximum amount of EUR one hundred thousand/00.
- 122.3 bis If a dispute referred to in Article 118 and Article 119, relating to an offer/bid does not proved valid or fair, or not accepted on the MPEP or in the MI-XBID sessions or relating to the PN registration is accepted because the GME's decision disputed appears to have been vitiated by error or omission due to GME, GME itself

acknowledges the Participant concerned a sum by way of compensation equal to a maximum of ten thousand euro.

- 122.4 The acceptance of GME's compensation pursuant to paras. 122.2 and 122.3 and 122.3 bis above shall imply the Market Participant's waiver of the dispute settlement remedies referred to in Section III below of this Title.
- 122.5 The compensation limits specified in paras. 122.2 and 122.3 and 122.3 bis above shall apply not only to the complaints indicated therein and to any dispute arising therefrom, but also to the decisions resulting from the arbitration procedures referred to in Article 131 and Article 132, para. 132.2 below.
- 122.6 If a complaint brought as specified in Article 120 above is upheld, then GME shall make the related adjustments.
- 122.6 bis In the event that a complaint as per Article 121 above is accepted, GME shall make the consequent adjustments according to the provisions of the Technical Rules.
- 122.7 The acceptance of a complaint shall not modify the result of the market session to which it refers.

SUBSECTION II COMPLAINTS PERTAINING TO THE MTE

Article 123

Submission Formalities and Minimum Contents of the complaints regarding the outcome of the validity check and the adequacy verification, the results of the MTE and the billing procedures

- 123.1 Complaints relating to the outcomes and the verifications referred to in Article 66 above, to the results of the MTE, as well as the settlement transactions referred to in Article 71, paragraphs 71.1, 71.3 and 71.4 bis shall be notified, under penalty of inadmissibility, in electronic form within the time limits set forth in this Subsection and using the appropriate forms available in GME's information system.
- 123.2 All complaints shall include, under penalty of inadmissibility, the following elements:
- a) identification code of the disputed bid/offer, as assigned by GME's information system;
 - b) decision of GME which is being disputed;
 - c) concise description of the grounds for the complaint.

Article 124

Complaints about Results of Validation and Technical Adequacy Verification of Bids/Offers

- 124.1 The Market Participant may dispute the results of the validation and verifications referred to in Article 66 above, by sending a notification to GME within 60 minutes of GME's decision.

Article 125
Complaints about the Results of the MTE

- 125.1 The Market Participant may dispute the results of the MTE, namely the results of the process of acceptance of bids/offers and of determination of the prices at which they have been valued, by sending a notification to GME within 60 minutes of GME's decision.

Article 126
Complaints about Billing Procedures

- 126.1 The Market Participant may dispute the results of the billing process referred to in Title IV, Section I above, by sending a notification to GME by 16:00 of the second working day following the one on which such results are notified to the Market Participant.

Article 127
Complaints about Invoicing and Settlement Procedures

- 127.1 The Market Participant may dispute the results of the invoicing procedures referred to in Title IV, Section II, or the settlement determinations referred to Title V, Section II, by sending a notification to GME according to the modalities and within the limits defined in the Technical Rules.
- 127.2 In the case referred to in paragraph 127.1 above, GME shall undertake the actions in accordance with the procedures and within the time limits specified in the Technical Rules. Default interest shall be paid on any possible amounts payable to the participant after complaint resolution. The extent of the interest shall be calculated according to the provisions of Article 91 above.

Article 128
Complaints Resolution

- 128.1 GME shall notify the Market Participant concerned of the outcome of the verifications of the complaints specified in this Subsection by 16:00 of the second working day following the deadline for submission of such complaints.
- 128.2 Where the Market Participant brings a complaint as specified in this Subsection and such complaint is upheld because GME is responsible for errors or omissions, then GME shall only pay to such Market Participant a compensation equal to a maximum of ten thousand euro.
- 128.3 The acceptance of GME's compensation pursuant to para. 128.2 above shall imply the Market Participant's waiver of the dispute settlement remedies referred to in Section III below of this Title.
- 128.4 The compensation limit specified in para. 128.2 above shall apply not only to the complaints indicated therein and to any dispute arising therefrom, but also to the decisions resulting from the arbitration procedures referred to in Section III below.
- 128.5 If a complaint brought as specified in Article 126 above is upheld, then GME shall make the related adjustments.

128.5 bis In the event that a complaint as per Article 127 above is accepted, GME shall make the consequent adjustments as provided for in the Technical Rules.

128.6 The acceptance of a complaint shall not modify the results of the market session to which it refers.

SECTION III DISPUTES IN THE MARKET

Article 131 Court of Arbitration

- 131.1 Without prejudice to the provisions of Article 132, para. 132.1 below, any dispute arising between GME and Market Participants over the interpretation and application of these Rules and the Technical Rules shall be settled by a Court of Arbitration.
- 131.2 The Court of Arbitration shall be composed of three members: one appointed by GME, one appointed by the Market Participant and a third member, acting as President, appointed jointly by the members appointed by the parties or, in case of disagreement, by the President of the Court of Rome, under Article 810 of the Italian Civil Procedure Code.
- 131.3 The Court of Arbitration shall render its decisions in accordance with the applicable laws and the arbitration procedure shall take place in compliance with Article 806 and subsequent Articles of the Civil Procedure Code.
- 131.4 The Court of Arbitration shall be based in Rome at GME's registered office.
- 131.5 If the participant does not accept the result of verification of the complaints referred to in Article 122, Article 128, Article 130 above, he/it/she may bring forward invoking the Arbitration. In such cases, as well as against the verification of the financial guarantees referred to in Article 79, paragraph 79.13 above, or against the outcome of the verification of the updating letter referred to in Article 80, paragraph 80.6 above, the arbitration procedure shall be promoted, under penalty of forfeiture, within 30 days from the notification of the outcome of the checks, subject of the dispute.

Article 132 Settlement of Disputes

- 132.1 In addition to the cases referred to in Article 89, para. 89.4 above, disputes concerning failure to make payments, including partial payments, for the following items shall be subject to the exclusive jurisdiction of Italian judges:
- a) fees referred to in Article 7, paras. 7.1 and 7.2 above;
 - b) amounts referred to in Article 112, para. 112.1 c) above;
 - c) amount referred to in Article 113, para. 113.5 above.
- 132.2 Without prejudice to the provisions of para. 132.1 above, on request of one of the interested parties, disputes between GME and Market Participants and between Market Participants shall be settled through arbitration procedures in accordance with Authority's provisions.

**TITLE VIII
FORWARD CONTRACTS AND DERIVATIVES**

***Article 133
Forward Contracts and Derivatives***

- 133.1 GME may promote the development of the trading of financial derivatives on the price of electricity.

**TITLE IX
TRANSITORY AND FINAL PROVISIONS**

**SECTION I
TRANSITORY PROVISIONS**

***Article 134
Transitory Provisions Pertaining to Submission of Bids/Offers into the MGP
[repealed]***

***Article 135
Provisions Pertaining to Guarantees***

135.1 [repealed].

135.2 [repealed].

135.3 [repealed].

135.4 The Market Participant who, as of the go live date of netting markets set up by this version of the Rules, is only admitted to the ME and has posted bank guarantees according to the previous version of:

- a) Annex 3 of the Rules may continue to use this guarantee according to the terms and the allocations made in accordance with the provisions of the Technical Rules, until admitted to the MGAS. In the event of this last circumstance, as provided for in the Technical Rules, if the Market Participant:
 - i) does not post a new guarantee (or does not make the guarantee originally posted compliant with the current Rules) pursuant to the provisions of Article 79, paragraph 79.1 above, it may continue to operate solely on the ME;
 - ii) submits the request for the return of the guarantee originally posted, which must be positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, together with the new guarantee referred to in Article 79, paragraph 79.1 above, or it makes the guarantee originally posted compliant with the Rules in

- force, in the terms and according to the procedures provided for in the Technical Rules, it may operate on the netting markets, on the MPEG, on the MTE and on the MTGAS if the new guarantee is posted or is conformed to the form in Annex 3 of this Rules, or on the netting and MPEG markets if the new guarantee is posted according to the form present in Annex 5 of this Rules;
- iii) posts a new guarantee as per Article 79, paragraph 79.1 above, without submitting the request for the return of the guarantee originally posted or submitting the request for return but it is not positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, the amount of this new guarantee will be accumulated in the terms and in the modalities provided for in the Technical Rules to the amount of the guarantee originally posted and may only be used to operate on the ME.
- b) Annex 5 of the Rules may continue to use this guarantee in the terms and according to the allocations made in accordance with the provisions of the Technical Rules, until admitted to the MGAS. In the event of this last circumstance, as provided for in the Technical Rules if the Market Participant:
- i) does not post a new guarantee (or does not make the guarantee originally posted compliant with the current Rules) pursuant to the provisions of Article 79, paragraph 79.1 above, it may continue to operate solely on the MPE;
 - ii) submits the request for the return of the guarantee originally posted, which must be positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, together with the new guarantee referred to in Article 79, paragraph 79.1 above, or it makes the guarantee originally posted compliant with the Rules in force, in the terms and according to the procedures provided for in the Technical Rules, it may operate on the netting markets, on the MTE and on the MTGAS if the new guarantee is posted or in line with the form in Annex 3 of this Rules, or on the netting and MPEG markets if the new guarantee is posted according to the form present in Annex 5 to this Rules;
 - iii) posts a new guarantee as per Article 79, paragraph 79.1 above, without submitting the request for the return of the guarantee originally posted or submitting the request for return but it is not positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, the amount of this new guarantee will be accumulated in the terms and in the modalities provided for in the Technical Rules to the amount of the guarantee originally posted and may only be used to operate on the MPE.

135.5 The Market Participant who, as of the go live date of netting markets set up by this version of the Rules, is admitted to the ME and PCE and has posted bank guarantees according to the previous version of:

- a) Annex 3 of the Rules, may continue to use this guarantee according to the terms and the allocations made in accordance with the provisions of the Technical Rules, until admitted to the MGAS. In the event of this last circumstance, as provided for in the Technical Rules if the Market Participant:
- i) does not post a new guarantee (or does not make the guarantee originally posted compliant with the current Rules) pursuant to the provisions of Article 79, paragraph 79.1 above, it may continue to operate solely on the ME and PCE;
 - ii) submits the request for the return of the guarantee originally posted, which must be positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, together with the new guarantee referred to in Article 79, paragraph 79.1 above, or it makes the guarantee originally posted compliant with the Rules in force, in the terms and according to the procedures provided for in the Technical Rules, it may operate on the netting markets, on the MPEG, MTE, on the MTGAS and on the PCE if the new guarantee is posted or in line with the form in Annex 3 of this Rules, or on the netting markets, on the MPEG and on the PCE if the new guarantee is posted according to the form present in Annex 5 of this Rules;
 - iii) posts a new guarantee as per Article 79, paragraph 79.1 above, without submitting the request for the return of the guarantee originally posted or submitting the request for return but it is not positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, the amount of this new guarantee will be accumulated in the terms and in the modalities provided for in the Technical Rules to the amount of the guarantee originally posted and may only be used to operate on the ME and on the PCE.
- b) Annex 7 of the Rules, may continue to use this guarantee in the terms and according to the allocations made in accordance with the provisions of the Technical Rules, until admitted to the MGAS. In the event of this last circumstance, as provided for in the Technical Rules if the Market Participant:
- i) does not post a new guarantee (or does not make the guarantee originally posted compliant with the current Rules) pursuant to the provisions of Article 79, paragraph 79.1 above, it may continue to operate solely on the ME and PCE;
 - ii) submits the request for the return of the guarantee originally posted, which must be positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, together with the new

guarantee referred to in Article 79, paragraph 79.1 above, or it makes the guarantee originally posted compliant with the Rules in force, in the terms and according to the procedures provided for in the Technical Rules, it may operate on the netting markets, on the MPEG, MTE, on the MTGAS and on the PCE if the new guarantee is posted or in line with the form in Annex 3 of this Rules, or on the netting markets, on the MPEG and on the PCE if the new guarantee is posted according to the form present in Annex 5 of this Rules;

- iii) posts a new guarantee as per Article 79, paragraph 79.1 above, without submitting the request for the return of the guarantee originally posted or submitting the request for return but it is not positively verified by GME pursuant to Article 80, paragraph 80.8 bis above, the amount of this new guarantee will be accumulated in the terms and in the modalities provided for in the Technical Rules to the amount of the guarantee originally posted and may only be used to operate on the MPE and on the PCE.

135.6 The Market Participant who, as of the go live date of netting markets set up by this version of the Rules, is admitted to the ME, and MGAS and who has posted bank guarantees according to, respectively, Annexes 3, 5 and 7 of the Rules above, and Annex C of the MGAS Rules, must make them compliant with the current Rules, pursuant to the provisions of Article 79 above, according to the procedures and terms indicated in the Technical Rules. Failing this, the Market Participant may continue to use the previous guarantees as follows:

- a) with reference to the bank guarantees posted according to Annex 3 of the Rules above, the Market Participant may continue to use this guarantee only on the MTE, on the MPEG and on the PCE, according to the procedures indicated in the Technical Rules;
- b) with reference to the bank guarantees posted according to Annex 5 of the Rules above, the Market Participant may continue to use this guarantee only on the MPEG, according to the procedures indicated in the Technical Rules;
- c) with reference to the bank guarantees posted according to Annex 7 of the Rules above, the Market Participant may continue to use this guarantee only on the MPEG and on the PCE, according to the procedures indicated in the Technical Rules;
- d) with reference to the bank guarantees posted according to Annex C of the MGAS Rules above, the Market Participant may continue to use this guarantee only on the MTGAS, according to the procedures indicated in the Technical Rules.

135.7 The Market Participant who, as of the go live date of netting markets set up by this version of the Rules, is admitted to the ME and MGAS and who has posted guarantees in the form of a non-interest-bearing cash deposit must make it compliant with the current Rules, according to the procedures and terms indicated in the Technical Rules. Failing this, the Market Participant may continue to use this deposit as follows:

- a) with reference to the non-interest-bearing cash deposit submitted on the ME, the Market Participant may continue to use this guarantee solely on the MTE, PCE and MPEG, according to the procedures indicated in the Technical Rules;
- b) with reference to the non-interest-bearing cash deposit submitted on the MGAS, the Market Participant may continue to use this guarantee only on the MTGAS, according to the modalities indicated in the Technical Rules.

135.8 The Market Participant who, as of the go live date of netting markets set up by this version of the Rules, is only admitted to the ME and who has posted guarantees in the form of a non-interest-bearing cash deposit may continue to use this guarantee under the terms and according to the allocations carried out pursuant to the provisions of the Technical Rules, until admitted to the MGAS. Upon the occurrence of this circumstance if the Market Participant:

- i. does not make the guarantee deposit originally posted in compliance with the current Rules, in the terms and according to the procedures set forth in the Technical Rules, even if it posts a new guarantee deposit pursuant to the Article 79, paragraph 79.3 above, which will be accumulated, in the terms and according to the procedures provided for in the Technical Rules, to the available amount of the guarantee deposit originally posted, it may continue to operate solely on the ME and PCE;
- ii. makes the guarantee deposit originally posted in compliance with the current Rules, in the terms and according to the procedures provided for in the Technical Rules, it may operate on the ME, MGAS and PCE.

135.9 The Market Participant who, pursuant to paragraphs 135.4, subpara a), 135.5 subpara a) and 135.6 subpara a) above, continues to use the bank guarantee posted pursuant to Annex 3 of the Rules in force until the day before of the go live date of netting markets, if it wishes to subsequently modify the guaranteed amount, pursuant to Article 80, paragraph 80.2 above, it must first make compliant the aforementioned annex to Annex 3 of this Rules, as defined in the Technical Rules.

135.10 The Market Participant who, pursuant to paragraphs 135.4, subpara b), 135.5 subpara b) and 135.6 subpara b) and c) above, continues to use the bank guarantee posted pursuant to Annex 5 or Annex 7 of the Rules in force until the day before of the go live date of netting markets, if it wishes to subsequently modify the guaranteed amount or the term of validity and effectiveness of the guarantees, pursuant to Article 80, paragraph 80.2 above, it must first make compliant the aforementioned annexes to Annex 5 of this Rules, as defined in the Technical Rules.

Article 136
Transitory Provisions on Settlement of Payments

- 136.1 Until further notice, the settlement of payments by debtors as referred in Article 83, paragraph 83.1 letter a) is transiently made through an urgent SEPA Credit Transfer or equivalent, according to the modalities and within the terms established in the Technical Rules.
- 136.2 During the transitional period mentioned in the previous paragraph:
- a) the provision, as referred in Article 17, paragraph 17.10 above, does not apply;
 - b) the amounts of default interests and penalties due by debtors in favour of GME for delayed payments shall be paid to GME creditors in the cases provided by the Technical Rules, according to the modalities and within the terms defined therein, with exception of the provisions established by the previous Article 83, paragraph 83.2.

SECTION II
FINAL PROVISIONS

Article 137
Functioning of the Information System

- 137.1 GME may suspend, postpone, or close in advance a market sitting or session in case of malfunctioning of its information system.
- 137.2 With a view to guaranteeing and safeguarding the proper technical functioning, as well as an efficient use of GME's information system and, in general, the proper functioning of the market, GME may impose limits to the submission, cancellation and modification of bids/offers or trading orders, as well as to the number of logons of each Market Participant or of specific categories of Market Participants to GME's information system.

Article 138
Awardees of Contracts for Provision of Services to the Electricity Market

- 138.1 Parties holding service and/or supply contracts for the implementation of GME's information system for the market shall not be admitted to such market for a period a three years running from the later of the following dates:
- a) the date of GME's take-over of the responsibilities specified in Article 1, para. 3 of Legislative Decree 79/99;
 - b) the date of awarding of the contract.

Annex 1

Market Participation Application

Market Participation Application Form
under art. 12, para. 12.1 a), Integrated Text of the Electricity Market Rules

I, the undersigned...
(*name and surname*)
born in...on.....
residing in...,
(*address*)
taxpayer's code..., VAT number...
telephone number..., fax number...
e-mail address...

or

The company.../other...
(*company name or registered name*)
having its registered office in ...
taxpayer's code..., VAT number...
telephone number..., fax number...
e-mail address...
represented by... in his/her capacity of...
(*legal representative or duly authorised person*)

WHEREAS

- the organisation, management and operation of the Electricity Market Market are governed by the Integrated Text of the Electricity Market Rules, approved by the Decree of the Minister of Industry, Trade and Handicraft of 9 May 2001, published in *Supplemento Ordinario, Gazzetta Ufficiale, Serie Generale*, no. 127 of 4 June 2001, as amended by the Decree of the Minister of Productive Activities of 19 December 2003, published in *Supplemento Ordinario, Gazzetta Ufficiale, Serie Generale*, no. 301 of 30 December 2003, as subsequently amended and supplemented (hereinafter referred to as the "Electricity Market Rules");
- the Technical Rules, referred to in article 4 of the Electricity Market Rules, are posted on GME's website and enter into force upon the date of their publication;

NOW, THEREFORE,

I, the undersigned...
or
the company... /other...

represented by... in his/her capacity of...
(*legal representative or duly authorised person*)

APPLY/APPLIES

for admission to the following market/s under article 12 of the Electricity Market Rules¹ in accordance with the procedure referred to in article 14 of the Electricity Market Rules.

For this purpose, I, the undersigned.../the company... /other... enclose/encloses the documents mentioned in article 13 of the Electricity Market Rules, which shall be an integral part hereof, as well as a signed copy of the Market Participation Agreement referred to in article 12, 12.1 b) of the Electricity Market Rules in the format enclosed thereto.

I, the undersigned ...
or
the company...../other...
represented by... in his/her capacity of...
(*legal representative or duly authorised person*)

¹ Admission to the electricity market involves the payment of the fees referred to in Article 7, paragraph 7.1 of the Rules.

1) declare/s that I/it have/has read and understood the Electricity Market Rules and the Technical Rules and accept/s to be bound thereby without any condition or reservation;

2) declare/s that I/it am/is proficient in the use of information and communication (ICT) technologies and related security systems or that I/it rely/relies on ICT-proficient employees or assistants;

;

WHEREAS

- A) GME is the company (*Società per Azioni*) which was set up in accordance with article 5, para. 1 of Legislative Decree no. 79 of 16 March 1999 (hereinafter referred to as Legislative Decree 79/99) and vested with the economic management of the Electricity Market;
- B) *Terna-Rete Elettrica Nazionale S.p.A.* (hereinafter referred to as "Terna") is the company (*Società per Azioni*) which was set up as a result of the merger of ownership and management/operation of the national power transmission grid in accordance with article 1 of the Decree of the President of the Council of Ministers of 11 May 2004, published in *Gazzetta Ufficiale, Serie Generale*, no. 115 of 18 May 2004, and which exercises the activities of transmission and dispatching of electricity, including the unified management and operation of the national power transmission grid;
- C) *Gestore dei Servizi Energetici-GSE S.p.A.* is the company (*Società per Azioni*) which was set up in accordance with article 3, para. 4 of Legislative Decree 79/99 and of article 1, paras. 1 a), b) and c) and 3 of the above-mentioned Decree of the President of the Council of Ministers;
- D) *Acquirente Unico S.p.A.* is the company, established pursuant to art. 4, paragraph 1 of Decree no. 79/99;
- E) Pursuant to article 5, para. 1 of Legislative Decree 79/99 and after hearing the opinion of *Autorità per l'Energia Elettrica e il Gas* (the Italian electricity & gas regulator – now ARERA), the Minister of Industry, Trade and Handicraft approved the Integrated Text of the Electricity Market Rules with his Decree of 9 May 2001, published in *Supplemento Ordinario, Gazzetta Ufficiale, Serie Generale*, no. 127, dated 4 June 2001 (hereinafter referred to as "Ministerial Decree of 9 May 2001");
- F) Pursuant to article 2, para. 2.3 of the Integrated Text of the Electricity Market Rules referred to in the Ministerial Decree of 9 May 2001 and after hearing the opinion of Electricity and Gas Authority, now ARERA, the Minister of Productive Activities approved the amendments to the Integrated Text of the Electricity Market Rules with his Decree of 19 December 2003, published in *Supplemento Ordinario, Gazzetta Ufficiale, Serie Generale*, no. 301 of 30 December 2003 (hereinafter referred to as the "Electricity Market Rules");
- G) Pursuant to article 12, para. 12.1 b) of the Electricity Market Rules, a party wishing to participate in the market shall submit to GME a signed copy of *Contratto di adesione al mercato* (Market Participation Agreement, hereinafter referred to as the "Agreement");
- H) The Technical Rules referred to in article 4 of the Electricity Market Rules shall be published on the website of GME and become effective as of the date of their publication;
- I) For the purposes and effects of the Electricity Market Rules, GME shall be the counterparty of Market Participants in the energy markets;

- J) For the purposes and effects of the Electricity Market Rules, Terna shall be the counterparty of Market Participants in the Ancillary Services Market (MSD);

NOW, THEREFORE,

the Parties agree as follows:

Article 1
Scope of the Agreement and Validity of the Whereas

- 1.1 This Agreement defines:
- a) the Contracting Party's rights and obligations towards GME;
 - b) the terms and conditions on which GME shall provide its services in connection with transactions in the Electricity Market (hereinafter referred to as the "Services").
- 1.2 The Whereas shall be an integral and essential part hereof.

Article 2
Obligations of the Contracting Party

- 2.1 The Contracting Party declares that it is aware of and accepts, without condition or reservation, the rules of the Electricity Market (hereinafter jointly referred to as the "Market") as they result from the applicable legislation. The Contracting Party also declares that it fully understands GME's information system (hereinafter referred to as the System) in its present configuration or that, in any case, it undertakes to do so.
- 2.2 The Contracting Party undertakes:
- a) to comply with the Electricity Market Rules and the Technical Rules and to keep itself updated with any amendments thereto. It is understood that, where the Contracting Party does not intend to accept any amendments to the Electricity Market Rules or to the Technical Rules, it may withdraw herefrom, giving notice according to the procedures and to the address specified in article 9, para. 9.6 below. However, the withdrawal shall have effect only after the Contracting Party has carried out transactions of opposite sign in order to close its contractual positions in the Forward Electricity Market existing upon submission of the request for withdrawal and, in any case, only after the Contracting Party has fulfilled obligations arising from participation in the Market. Fifteen days after the legal publication of such amendments, where the Contracting Party has not given notice of its intent to withdraw herefrom, such amendments shall be assumed to have been tacitly accepted. Except for transactions made to give effect to the withdrawal, any transaction carried out in the Market before the end of the above period shall be understood as tacit acceptance of the new terms and conditions. In no case may such amendments constitute a valid reason for the Contracting Party to default on obligations acquired in the Market;
 - b) to adopt technological systems that are suitable for trading and compatible with the System, as well as to update them as a result of any modification as GME may make to the same System;
 - b *bis*) to adopt technological systems suitable for issuing invoices for the transactions made in the Market, compatible with the System and ensuring a correct, timely and secure exchange of the data and information transmitted electronically, under the procedures and within the time limits specified in the Electricity Market Rules and in the Technical Rules;
 - c) to employ staff with adequate professional skills and competence in the use of the technological systems referred to in subpara. b) above;
 - d) to join the service of settlement of payments and the guarantee systems specified in Title V of the Electricity Market Rules;

- e) to notify GME timely and, where possible, in good time for GME to make any necessary corrective actions for the purposes of guaranteeing the proper functioning of the Market, of any problem or operational malfunction of a technical nature or any other event which has resulted or might result in the failure to provide or incorrect provision of the Services. In particular, the Contracting Party shall notify GME with the maximum speed and according to the procedures specified in article 9, para. 9.6 below, of the occurrence of any event even potentially dangerous for the integrity and security of the System (including but not limited to the theft of confidential documents regarding access to the System or unauthorised access to the Contracting Party's premises where such documents are kept);
- f) to co-operate with GME or with third parties designated by the same, also permitting access of their employees or assistants to the Contracting Party's premises for carrying out any operations on the Contracting Party's hardware and software as may be necessary to ensure the proper functioning of the Market. It is understood that, pursuant to article 2049 of the Italian Civil Code, GME shall be liable for any damage caused upon such operations;
- g) to respect GME's rights of ownership on the data transmitted through the System and on the trademarks registered or used by the same, as well as GME's or third-party suppliers' rights of ownership on the software programmes used for the carrying out of the Services;
- h) to maintain confidentiality and privacy as regards the devices referred to in article 4, para. 4.1 below or permit their use by specifically designated parties solely for access to and trading in the Market. The Contracting Party shall thus be liable for unauthorised access to the Market by third parties and hold GME harmless against any damage or danger to the integrity or security of the System that may result from the negligence of the Contracting Party or of its staff in the safekeeping of such devices.
- i) to timely ask GME to disable the devices referred to in subpara. h) above and to assign new or different devices in all cases where the Contracting Party has reason to believe that unauthorised parties may make an improper use thereof;
- j) to hold GME harmless against any damage or cost as GME may incur, also as a result of actions of third parties, caused by the actions or conduct of the Contracting Party, as well as of its staff members, assistants or consultants, if any, in violation of this Agreement, of the Electricity Market Rules and of the Technical Rules and of any other legislative provisions or regulations, or instruments and provisions issued by GME or competent authorities.

Article 3
Services of GME

- 3.1 The Services shall be supplied by GME to the Contracting Party in compliance with this Agreement, the Electricity Market Rules and the Technical Rules. The obligations of GME as regards the supply of the Services shall constitute “obligations of means”.
- 3.2 GME shall give the Contracting Party the necessary co-operation for access to the System, namely in accordance with what is specified in the Technical Rules. It is understood that the carrying out of activities and the provision of the necessary means of access shall be the exclusive responsibility and at the sole expense of the Contracting Party.
- 3.3 GME may modify technical, functional, operational, and administrative procedures for the supply of the Services, as a result of amendments to the Electricity Market Rules or Technical Rules.
- 3.4 Without prejudice to what is provided for in the Electricity Market Rules and Technical Rules, if the supply of the Services is interrupted, suspended, delayed or subject to malfunctions caused by technical problems with the System, GME shall do whatever is necessary to overcome such disservices. It is understood that if the aforesaid events result from technical problems with the hardware or software used by the Contracting Party to access the System, the Contracting Party shall eliminate the relative causes with the maximum speed. GME and the Contracting Party shall co-operate within the scope of their responsibilities to identify the causes of interruptions, suspensions, delays, or malfunctions and to restore the proper functioning of the System as soon as possible.
- 3.5 GME shall be responsible for the correct management and transmission of data and information entered by third parties into the System or resulting from the Market. GME and the Contracting Party agree that GME’s obligations shall not include the checking of the truthfulness, accuracy and completeness of data and information provided by third parties and made available to the Contracting Party as part of the provision of the Services.
- 3.6 GME and the Contracting Party agree that GME is not responsible for non-functioning or malfunctioning of lines of communication (for example, telephone lines), as well as of access to the Internet.
- 3.7 The Contracting Party agrees that GME may make use of third parties designated by GME for the supply of the Services, while it is understood that in every case, the contractual relationship shall be exclusively between the Contracting Party and GME.
- 3.8 GME undertakes to respect the Contracting Party’s rights of ownership on the data transmitted through the System and on the trademarks registered or used by the Contracting Party and made known to GME.
- 3.9 GME shall hold the Contracting Party harmless against any damage or cost as the Contracting Party may incur, also as a result of actions of third parties, caused by the actions or conduct of GME or of its staff members, assistants or consultants in the management and supply of the Services which are in violation of this Agreement, the Electricity Market Rules or Technical Rules, as well as of any other legislative provision or regulation applicable hereto.

Article 4
Means of access to the System

- 4.1 For the purpose of accessing the System, the Contracting Party shall use the technical security devices indicated by GME, such as, for example, the user code together with password, smart card or other means of strong authentication.
- 4.2 Access to the System shall take place in compliance with the provisions specified in the Technical Rules.

Article 5
Consideration

- 5.1 For the Services supplied in accordance herewith, the Contracting Party shall pay the fees determined by GME under article 7 of the Electricity Market Rules and the procedures referred to in articles 75 and 77 thereof.
- 5.2 Where the System is totally disabled and such as to prevent the Contracting Party from carrying out transactions in the Market, the fees referred to in para. 5.1 above shall be reduced proportionally to the period in which such disabling has occurred.

Article 6
Limitation of liability, force majeure, and fortuitous events

- 6.1 Notwithstanding the provisions of the Electricity Market Rules, GME shall, in carrying out the Services, be liable for damages of a contractual and extra-contractual nature, exclusively when they constitute the immediate and direct consequence of wilful or serious misconduct and, in the latter case, are foreseeable upon the date of the signing of this Agreement. The Parties agree that there shall be no obligation of compensation or indemnity for damages that are an indirect or unpredictable consequence of the conduct of GME, including but not limited to damages resulting from the loss of business opportunities, customers or profits.
- 6.2 The Contracting Party shall notify GME, under penalty of lapse of time limit, of any claim to compensation relating to the supply of the Services within and not later than fifteen working days from the day on which the Contracting Party has come to know or should have known, using proper diligence, of the occurrence of the damaging event, providing a detailed report of the circumstances of the damaging event and of the damages so produced. The relative documentation in support of the claim shall be transmitted to GME within and not later than twenty working days from the day on which the Contracting Party has come to know or should have known, using proper diligence, of the occurrence of the damaging event.
- 6.3 GME and the Contracting Party shall not be liable for default due to force majeure, fortuitous cases, or events beyond their control, including but not limited to wars, uprisings, earthquakes, floods, fires, strikes, interruptions in electricity supply or in operation of the data transmission lines which are part of the System, when such interruptions are exclusively the fault of third parties.
- 6.4 GME may, in cases of force majeure or fortuitous events, and, in general, in all cases where the operations of the Contracting Party may potentially damage the integrity or security of the System, suspend access to the System without the necessity of prior notification of the circumstances giving rise to the suspension.

Article 7
Duration

- 7.1 This Agreement shall be valid and effective from the date of submission of the Market Participation Application.
- 7.2 This Agreement will cease to have validity and effect upon the occurrence of one of the following events:
a) exclusion of the Contracting Party from the Market;
b) total disabling of the System as a result of amendments to the applicable rules;
c) Contracting Party's withdrawal herefrom.
- 7.3 The dissolution of the Agreement under this Article shall not impair any other right of either party under the Agreement or under the applicable legislation, and any right or obligation of either party that has already arisen upon the date of dissolution.

**Article 8
Termination**

- 8.1 Any loss for whatever reason of the status of Market Participant, as acquired in accordance with article 14 of the Electricity Market Rules, shall constitute reason for *de jure* termination of this Agreement pursuant to article 1456 of the Italian Civil Code, notwithstanding the right of GME to withhold the fixed fee specified in article 77, para. 77.2 of the Electricity Market Rules by way of indemnity and any other further right to compensation for any additional damages.

**Article 9
General Clauses**

- 9.1 The invalidity or nullity of one or more of the clauses of this Agreement shall not affect the validity of the remaining clauses, which shall retain in every case their full force and effect.
- 9.2 This Agreement and the rights and obligations for the Parties resulting therefrom shall not be assigned to third parties unless otherwise specified herein.
- 9.3 Notwithstanding the provisions of article 6, para. 6.2 above, failure or delay by either Party to exercise the rights arising herefrom shall not represent a waiver of such rights.
- 9.4 This Agreement, signed and initialled on each page by the Parties, is done in two originals in the Italian language. Any amendment hereto shall be made in written form.
- 9.5 For the purposes of this Agreement, the Parties elect domicile at the following addresses:
- Gestore dei Mercati Energetici S.p.A., Viale Maresciallo Pilsudski, 122-124, 00197 Rome, Italy
-
- 9.6 Every communication or notification to be made in accordance herewith shall be made in writing and delivered by hand, even by courier or sent by registered letter with return receipt, or by fax or by e-mail with acknowledgment of receipt, to the following addresses:

- Gestore dei Mercati Energetici S.p.A., Viale Maresciallo Pilsudski, 122-124, 00197 Rome, Italy, fax number +39 06 8012 4524; e-mail address info@mercatoelettrico.org; gme@pec.mercatoelettrico.org;
- (address)
fax number, e-mail address
- 9.7 Communications shall be deemed to have been received upon the date of signature of their receipt of delivery, if delivered by hand, or when they reach the receiver's address, if sent by registered letter with return receipt, or upon the date of receipt recorded by the fax machine if sent by fax, or upon the date of receipt of the acknowledgement of receipt, if sent by e-mail.

**Article 10
Governing Law**

- 10.1 This Agreement shall be governed by the Italian law.

Article 11
Disputes

11.1 Any dispute arising between GME and the Contracting Party in connection herewith shall be settled in accordance with the provisions contained in Title VII of the Electricity Market Rules, which shall be deemed to be integrally referenced and transcribed herein.

GME

the Contracting Party

....

.....

For the purposes and effects of Articles 1341 and 1342 of the Italian Civil Code, I hereby specifically approve the following clauses of the Agreement: Article 2 (Obligations of the Contracting Party); Article 3 (Services of *GME*); Article 6 (Limitation of liability, Force Majeure and Fortuitous events); Article 7 (Duration); Article 8 (Termination); Article 9 (General Clauses); Article 10 (Governing Law) and Article 11 (Disputes).

Bank guarantee (ref. no. ...)

The Bank ..., branch of ..., with registered office in ..., taxpayer's code ..., VAT number ..., listed at no. ... of the Register of Companies (*Registro delle Imprese*) and at no. ... of the Register of Banks (*Albo delle Banche*), capital stock Euro ..., represented by its legal representatives ... (hereinafter referred to as the "Bank"),

WHEREAS

- ... (*surname and name/company name or registered name*),(*date and place of birth*), (*place of residence and, if different, domicile/registered office*)
taxpayer's code.....,VAT numbercapital stock Euro ..., of which ... (*subscribed*), of which ... (*paid-up*), registered with (hereinafter referred to as the "Market Participant" or "Applicant"), is Market Participant or wishes to become qualified as Market Participant in one or more of the following markets, following the:
 - subscription, pursuant to Article 12, paragraph 12.1, subpara b), of the Integrated Text of the Electricity Market Rules - approved by the Decree of the Minister of Industry, Trade and Handicraft of 9 May 2001 and published in *Supplemento Ordinario, Gazzetta Ufficiale, Serie Generale*, no. 127 of 4 June 2001, as amended by the Decree of the Minister of Productive Activities of 19 December 2003, published in *Supplemento Ordinario, Gazzetta Ufficiale, Serie Generale*, no. 301 of 30 December 2003, as subsequently amended and supplemented (hereinafter referred to as the "ME Rules") -,the Electricity Market (ME) Participation Agreement, in the format attached to the aforesaid ME Rules undertaking, towards *Gestore dei Mercati Energetici S.p.A* (hereinafter referred to as "GME") all the financial obligations in the Day-Ahead Market (MGP), Intra-Day Market (MI) (hereinafter jointly referred to as netting markets of the ME), Daily Products Market (MPEG) and Forward Electricity Market (MTE), (hereinafter jointly defined as the "energy markets");
 - subscription, pursuant to article 18, paragraph 18.1, subpara b), of the OTC Registration Platform (PCE) Rules - positively verified by the Director of the Markets Directorate of the Regulatory Authority for Energy, Networks and Environment with Regulation of 7 February 2007 (hereinafter: PCE Rules) - of the PCE Participation Agreement, according to the form defined in the Rules, undertaking, as a result, toward GME the pecuniary obligations relating to the PCE with reference to which GME is the counterparty of the Market Participant;
 - subscription, pursuant to article 13, paragraph 13.1, subpara b), of the Natural-gas market Rules - approved, pursuant to art. 30, paragraph 1, of Law 99/09, with Decree of the Minister of Economic Development of 6 March 2013, as subsequently amended and supplemented (hereafter: MGAS) - of the natural gas market (MGAS) participation agreement, undertaking, as a result, towards GME all pecuniary obligations relating to the spot market (hereinafter: netting markets of the MGAS) and to the forward gas market (MTGAS) (hereinafter jointly referred to as the Gas Market);

- pursuant to article 79, paragraphs 79.1, subpara a), 79.5 and 79.6, of the ME Rules, for the coverage of the obligations that they intend to take on the netting markets of the ME and of the MGAS (hereinafter jointly referred to as: netting markets), on the MPEG, on the MTE, on the MTGAS or on the PCE, the market participants may post a bank guarantee provided by the banks having the requirements specified in Article 79, paragraph 79.2;
- the above-mentioned bank guarantee shall be submitted to the bank in charge of GME's treasury services (as set forth in article 78 of the ME Rules), which shall verify the bank guarantee;
- the Market Participant has submitted a formal request for the issuance of the above-mentioned bank guarantee for a maximum amount of Euro to cover all prior and future obligations towards GME, in connection with its participation in the netting markets, MPEG, MTE, MTGAS and PCE, in whatever form (including accessory obligations), except those arising from failure to pay the fees referred to in article 7, para. 7.1 of the ME Rules and MGAS Rules and article 7, paragraph 7.1 of the PCE Rules (hereinafter referred to as "prior and future obligations");
- "prior obligations" shall mean all those obligations - even if they are not yet liquid and/or payable - that have already been acquired, pursuant to one or more participation agreements mentioned above, at the time of effect of this bank guarantee; "future obligations" shall mean all those obligations acquired, pursuant to one or more participation agreements mentioned above, after such date.

NOW, THEREFORE,

the Bank issues this guarantee in favour of GME on the terms and conditions indicated below and, anyway, in accordance with and pursuant to the provisions set forth in the ME Rules, MGAS Rules and in the PCE Rules to guarantee all prior and future obligations arising or will arise from the Market Participant towards GME, in relation to its participation in the netting markets, in the MPEG, in the MTE, in the MTGAS and in the PCE, in any capacity, even accessory, except those arising from the non-payment of the fees referred to in Article 7, paragraph 7.1, of the ME Rules and of the MGAS Rules and Article 7, paragraph 7.1, of the PCE Rules. The bank declares that it knows and accepts the provisions set forth in the ME Rules, in the MGAS Rules, in the PCE Rules, in the Technical Rules in force from time to time and all the obligations of the Market Participant deriving from the signature of one or more participation agreements mentioned above.

Article 1
(Validity and effect of the bank guarantee)

The bank guarantee shall be valid and effective from and not subject to any condition, provided that the verification conducted by the bank in charge of treasury services under article 79, para. 79.10 of the ME Rules has had a positive outcome.

Article 2
(Waiver of preventative enforcement)

The Bank shall – irrevocably, unconditionally and formally waiving the benefit of preventative enforcement as specified in article 1944 of the Italian Civil Code - guarantee the fulfilment of all of the Market Participant's "prior obligations" and "future obligations" towards GME in relation to the participation in the energy markets, in the gas Market and in the PCE.

Article 3
(No assessment of the Market Participant's credit worthiness)

The Bank agrees and declares that, as the obligations mentioned in article 2 above arise from participation in the energy Markets, in the gas Market and in the PCE, they do not involve GME's prior assessment of the Market Participant's credit worthiness, notwithstanding that this letter also represents a special authorisation granted by the Bank to GME for the purposes and effects of article 1956 of the Italian Civil Code.

Article 4
(Substitution in the bank guarantee contract during the transitional period)

If GME is guaranteed by other guarantees that the Market Participant has previously posted in favour of GME to cover obligations acquired in the energy Markets, in the gas Market and in the PCE and that have been issued in formats other than the present one, then this bank guarantee may substitute the previous guarantees, provided that: i) the guarantee is posted for an amount at least equal to the amount of the “prior obligations”; and ii) the Market Participant submits an appropriate application to GME and to the bank in charge of treasury services upon the submission of this bank guarantee. The substitution shall relieve the previous bank guarantee issuer of its obligations.

Otherwise, this bank guarantee shall not impair the validity and effect of the previous guarantees. In this case, the prior guarantees and this bank guarantee issued to GME shall merely cumulate, without relieving the guarantors of their obligations, notwithstanding the fact that GME may preliminarily enforce the prior guarantees. Moreover, this bank guarantee shall cover the “prior obligations” and the “future obligations” even in case of guarantees preceding this bank guarantee.

Article 5

(Substitution and succession of bank guarantees over time)

The provisions on substitution and succession of the guarantees over time, referred to in Article 4 above, shall also apply to the cases of multiple bank guarantees that are posted in this format. However, the subsequent guarantor shall waive the benefit of preventative enforcement of the previous guarantor.

Article 6
(Extension of the Bank's liability)

Notwithstanding the provisions of Article 1 above, where the Bank loses one of the qualifications required by the applicable legislation and by the ME Rules for issuing and maintaining the bank guarantees, or if the Bank, in the event of enforcement of the guarantee provided respectively pursuant to article 79 of the ME Rules, fails to pay the guaranteed amount, this guarantee shall be valid until the deadline set in the ME Rules and in the related Technical Rules in force at the time when the Bank loses one of the requirements identified above or in force at the time the Bank, in the event of enforcement of the bank guarantee, fails to pay the guaranteed amount. The Bank will continue to be liable, in addition to all the obligations acquired by the Market Participant until that time, also for any other obligation, connected to this bank guarantee, which may subsequently arise, until the same Market Participant replaces this bank guarantee with another appropriate guarantee.

Article 7
(First-demand payment)

As an effect of the provisions of Article 2 above, the Bank shall – irrevocably, unconditionally and without delay - pay any amount, without examining the reasons for the request for payment and without raising any exception and/or objection and in spite of any exception, complaint or objection made by the Market Participant and/or third parties (including other guarantors of the same Market Participant) in connection therewith, upon the submission of a mere written request by GME, up to a maximum total amount of Euro ...

Article 8
(Modalities of payment by the Bank)

After receiving the request referred to in Article 7 above, to be sent by registered letter with return receipt, preceded by a fax to fax no... or by e-mail with acknowledgement of receipt, or by registered mail (PEC) to....., the Bank shall pay the amount in Euro indicated in the request for payment within ten days of the date of receipt of the registered letter with return receipt or of the PEC and with value date on the same day, by means of bank transfer (Sepa Credit Transfer with Priority former: *bonifico di importo rilevante [BIR]*) or equivalent procedures. Where the date of payment falls on a holiday, the deadline shall be postponed to the following first working day.

Article 9
(Derogation from the provisions of Article 1957 of the Italian Civil Code)

The Bank hereby explicitly relieves GME of the obligation to act in accordance with the provisions of article 1957 of the Italian Civil Code, notwithstanding that, by way of derogation from such article, the Bank shall remain bound by its obligations, even if GME has not submitted a request to the Market Participant or has not diligently persisted in such request.

Article 10
(Partial enforcement)

This guarantee may also be partially enforced, but it shall remain valid and effective for the residual amount.

Article 11
(Autonomy of the bank guarantee)

By way of derogation from article 1939 of the Italian Civil Code, this guarantee shall be valid and effective even if the Market Participant's principal obligation towards GME is declared invalid or ineffective or if it is modified in any form, even unilaterally only, by GME.

Article 12
(Waiver of the rights covered by Articles 1945, 1947 and 1955 of the Italian Civil Code)

The Bank hereby explicitly and irrevocably waives its rights in accordance with Articles 1945, 1947 and 1955 of the Italian Civil Code.

Article 13
(Waiver of claims or actions)

The Bank explicitly waives any defence, exception, right to compensation, claim or action towards GME in connection with the obligations arising herefrom, including but not limited to any defence, exception, compensation, claim or action that the Applicant may in any way institute against GME.

Article 14
(Delegation of the rights covered by this bank guarantee)

The Bank hereby accepts that GME's rights of enforcement of this guarantee be exercised by GME or a party specially authorised in writing by GME.

Article 15
(Waiver of the bank guarantee by GME)

GME may at any time and in its sole judgement waive this bank guarantee, by notifying the Bank and the Market Participant's thereof and with effect from 24:00 of the working day on which the Bank receives such notification. In this case, the Bank shall be liable for all the obligations acquired by the Market Participant until that time.

Article 16
(Unilateral withdrawal by the Bank)

The Bank may withdraw from this bank guarantee, by notifying GME and the bank in charge of GME's treasury services thereof by registered letter with return receipt or by registered mail (PEC). The withdrawal from the bank guarantee shall have effect and the bank guarantee shall cease ten days after receipt of the notification by GME or from the date of receipt of delivery, if made by PEC, without prejudice to the provisions of article 17.

Article 17 (Effects of withdrawal)

GME shall notify the Bank of the amount of obligations, even if they are not yet liquid and/or payable, contracted until the time of effect of the withdrawal, specifying the related reference period.

The bank shall be liable for all obligations, even if they are not yet liquid and/or payable, contracted until the time of effect of the withdrawal, if the Market Participant does not submit to GME a guarantee to cover such obligations.

Article 18
(Notifications)

Notwithstanding the provisions of Article 8 above, all communications or notifications shall be made by registered letter with return receipt or by e-mail with acknowledgment of receipt or by fax or by registered mail (PEC) to the following addresses:

.... (surname and name/company name or registered name), ...(address)

e-mail address

.....

...no.....

..registered mail

address.....

.....

Communications or notifications shall be deemed to have been received upon their arrival at the receiver's address, if sent by registered letter with return receipt, or upon the date of acknowledgement of receipt, if sent by e-mail, or upon the date of the message of confirmation, if sent by fax or on the date of receipt of delivery, if sent by PEC.

Article 19
Applicable
Law and
Jurisdiction

This bank guarantee is governed by the Italian Law.

The Court of Rome shall have exclusive jurisdiction over any dispute arising herefrom.

Registered Name of the Bank

Signatures of its Legal Representatives

For the purposes and effects of articles 1341 and 1342 of the Italian Civil Code, the Bank hereby specifically approves the clauses and conditions specified in Articles 2 (Waiver of preventative enforcement), 4 (Substitution in the bank guarantee contract during the transitional period), 5 (Substitution and succession of bank guarantees over time), 6 (Extension of the Bank's liability), 7 (First-demand payment), 9 (Derogation from the provisions of Article 1957 of the Italian Civil Code), 10 (Partial enforcement), 11 (Autonomy of the bank guarantee), 12 (Waiver of the rights specified in Articles 1945, 1947 and 1955 of the Italian Civil Code) ,

13 (*Waiver of claims or actions*) and 19 (*Applicable Law and Jurisdiction*) of this bank guarantee.

Gestore dei Mercati Energetici S.p.A.
Viale Maresciallo Pilsudski, 122-124,
00197 Rome, Italy

(place) ..., (date) ...

Bank guarantee (ref. no. ...)

The Bank ..., branch of ..., with registered office in ..., taxpayer's code ..., VAT number ..., listed at no. ... of the Register of Companies (*Registro delle Imprese*) and at no. ... of the Register of Banks (*Albo delle Banche*), capital stock Euro ..., represented by its legal representatives ... (hereinafter referred to as the "Bank"),

WHEREAS

- ... (*surname and name/company name or registered name*), ... (*date and place of birth*), ... (*place of residence and, if different, domicile/registered office*)
taxpayer's code....., VAT number ...
capital stock Euro ..., of which ... (*subscribed*), of which ... (*paid-up*), registered with (hereinafter referred to as the "Market Participant" or "Applicant"), is Market Participant or wishes to become qualified as Market Participant in one or more of the following markets, following the:
 - subscription, pursuant to article 12, para. 12.1 b) of the Electricity Market Rule -, approved by decree of the Minister for Productive Activities on 19 December 2003, published in the ordinary integration to the Official Journal no. 301 of 30 December 2003, General Series, and subsequent amendments and additions (hereafter: ME Rules) - of the Electricity Market (ME) Participation Agreement, according to the form defined in the ME Rules, acquiring, towards Gestore dei Mercati Energetici SpA (hereinafter: GME), the pecuniary obligations relating to the day-ahead energy market and to the intraday market (hereinafter referred to as: netting markets of the ME) and to the daily products market (MPEG), (hereinafter jointly defined as: "MPE markets");
 - subscription, pursuant to article 18, paragraph 18.1, subpara b), of the OTC Registration Platform (PCE) Rules - positively verified by the Director of the Markets Directorate of the Regulatory Authority for Energy, Networks and Environment with Regulation of 7 February 2007 (hereinafter: PCE Rules) - of the PCE Participation Agreement, according to the form defined in the Rules, undertaking, as a result, toward GME the pecuniary obligations relating to the PCE with reference to which GME is the counterparty of the Market Participant;
 - subscription, pursuant to article 13, paragraph 13.1, subpara b), of the Natural-gas market Rules - approved, pursuant to art. 30, paragraph 1, of Law 99/09, with Decree of the Minister of Economic Development of 6 March 2013, as subsequently amended and supplemented (hereafter: MGAS Rules) - of the market participation agreement, according to the form provided in the MGAS Rules, undertaking towards GME all pecuniary obligations relating to the spot market (hereinafter: netting markets of the MGAS);
- as per article 79, para. 79.1, subpara b), 79.5 and 79.6 of the ME Rules, for the purpose of covering obligations that they wishes to acquire in the netting markets of the ME and MGAS (hereinafter jointly referred to as netting markets), in the MPEG or PCE, Market Participants are required to post a bank guarantee issued by banks meeting the requirements specified in the same article 79, para. 79.2;
- the above-mentioned bank guarantee shall be submitted to the bank in charge of GME's treasury services (as set forth in article 78 of the ME Rules), which shall verify the bank guarantee;
- the Market Participant has submitted a formal request for the above-mentioned bank guarantee for a maximum amount of Euro to cover all obligations towards GME, in connection with its participation in the netting markets, MPEG and PCE, in whatever form (including accessory obligations), except those

arising from failure to pay the fees referred to in article 7, para. 7.1 of the ME Rules and MGAS Rules and referred to in article 7 , paragraph 7.1 of the PCE Rules.

NOW, THEREFORE,

the Bank issues this guarantee in favour of GME on the terms and conditions indicated below and, anyway, in accordance with and pursuant to the provisions set forth in the ME Rules, MGAS Rules and in the PCE Rules to guarantee all the obligations arising or deriving from the Market Participant towards GME, in relation to its participation in the netting markets, in the MPEG and in the PCE, in any capacity, even accessory, except those arising from the non-payment of the fees referred to in Article 7, paragraph 7.1, of the ME Rules and of the MGAS Rules and Article 7, paragraph 7.1, of the PCE Rules. The bank declares that it knows and accepts the provisions set forth in the ME Rules, in the MGAS Rules, in the PCE Rules, in the Technical Rules in force from time to time and all the obligations of the Market Participant deriving from the signature of one or more participation agreements mentioned above.

1. The bank guarantee shall be valid and effective from to.....
2. The Bank shall - irrevocably, unconditionally and formally waiving the benefit of preventative enforcement as specified in article 1944 of the Italian Civil Code - guarantee the fulfilment of all of the Market Participant's obligations towards GME arising from its participation in the netting markets, in the MPEG and in the PCE, in whatever form (including accessory obligations), except those arising from failure to pay the fees referred to in article 7, para. 7.1 of the ME Rules and MGAS Rules and referred to in article 1, paragraph 7.1 of the PCE Rules in the period of validity and effect of this bank guarantee.
3. Notwithstanding the provisions of point 1 above, where the Bank loses one of the qualifications required for issuing bank guarantees or where the Bank - in case of enforcement of the bank guarantee issued under article 79, para. 79.1 of the ME Rules – fails to pay the guaranteed amount, this guarantee shall be valid until the deadline set in the ME Rules and in the related Technical Rules in force at the time when the Bank loses one of the requirements identified above or in force at the time the Bank, in the event of enforcement of the bank guarantee, fails to pay the guaranteed amount. It is understood that the Bank shall be liable not only for all the Applicant's obligations acquired until such date but also for any other obligation which may be connected with this bank guarantee and which may subsequently arise.
4. As an effect of the provisions of point 2 above, the Bank shall – irrevocably, unconditionally and without delay - pay any amount, without examining the reasons for the request for payment and in spite of any exception, complaint or objection made by the Market Participant (and/or third party) in connection therewith, upon the submission of a mere written request by GME, up to a maximum total amount of Euro
5. After receiving the request referred to in point 4 above, to be sent by registered letter with return receipt, preceded by a fax to fax no..... or by e-mail message with acknowledgement of receipt, or by registered mail (PEC) to.....the Bank shall pay the amount in Euro indicated in the request for payment within ten days of the date of receipt of the registered letter with return receipt or of the PEC and with value date on the same day, by means of bank transfer (Sepa Credit Transfer with Priority) or equivalent procedures. Where the date of payment falls on a holiday, the deadline shall be postponed to the following first working day.
6. The Bank hereby explicitly relieves GME of the obligation to act in accordance with the provisions of article 1957 of the Italian Civil Code, notwithstanding that, by way of derogation from such article, the Bank shall remain bound by its obligations, even if GME has not submitted a request to the Market Participant or has not persisted in such request.
7. This guarantee may also be partially enforced, but it shall remain valid and effective for the residual amount.
8. By way of derogation from article 1939 of the Italian Civil Code, this bank guarantee shall be valid and effective even if the Market Participant's principal obligation towards GME is declared invalid.
9. The Bank hereby explicitly and irrevocably waives its rights in accordance with Articles 1945, 1947 and 1955 of the Italian Civil Code.
10. The Bank explicitly waives any defence, exception, right to compensation, claim or action towards GME in connection with the obligations arising herefrom, including but not limited to any defence, exception, compensation, claim or action that the Applicant may in any way institute against GME.
11. The Bank hereby accepts that GME's rights of enforcement of this bank guarantee be exercised by GME or a party specially authorised by GME.
12. Notwithstanding the provisions of point 5 above, all communications or notifications shall be made by registered letter with return receipt or by e-mail with acknowledgment of receipt or by fax or registered mail to the following addresses:

.... (surname and name/company name or registered name), ...(address)

e-mail address ... fax no.....

registered mail (PEC)

no.....

Communications or notifications shall be deemed to have been received upon their arrival at the receiver's address, if sent by registered letter with return receipt, or upon the date of acknowledgement of receipt, if sent by e-mail, or upon the date of acknowledgement of receipt, if sent by fax or on the date of receipt of delivery, if made by PEC.

13. This bank guarantee is governed by the Italian Law. The Court of Rome shall have exclusive jurisdiction over any dispute arising here from.
